#### **Quarterly Drivers**

- The decrease in net loss attributable to Class A Shareholders for the first quarter of 2021 was primarily due to higher incentive income and management fees, higher gains on investments and lower operating expenses, partially offset by changes in fair value of warrant liabilities, losses on retirement of debt, higher bonus expense, and higher income tax expense
   For details on the underlying drivers of our revenues and expenses, see the
  - Economic Income analysis on the following page

## **1Q 2021 Economic Income Financial Highlights**

Economic Income<sup>(1)</sup> was \$40.9 million for the first quarter of 2021. Distributable Earnings<sup>(1)</sup> were \$36.5 million for the first quarter of 2021.

(dollars in millions)	1Q '21		4Q '20	1Q '20

Preferred Units dividends			0.5	(1.4)

•	Manag	ement fees across the platform:
	_	Steady increase in AUM from net flows and appreciation has increased
		management fee revenue year over year
	_	Impact of deferred CLO fees largely reversed course
		<ul> <li>\$0.6 million net recovery of deferred CLO fees realized in 1Q</li> </ul>
		– Total deferral remaining as of March 31, 2021, of \$5.1 million
		– 2 CLOs in active recovery, 1 remains in full deferral as of April 30th
	Incent	ive income for the quarter driven from the following:
	_	Select multi-strategy annual investors that crystallize at quarter end; bulk of
		incentive income for these funds typically recognized in 4Q
	_	Investment realizations in Real Estate Fund II resulting in incentive income
	Key dri	ivers to compensation and benefits for the quarter include:
	_	Salaries and benefits and fixed bonus expenses that are in-line with guidance
	_	Bonus expense reflects a pull forward of departing executive compensation
		of \$6.7 million; this will not impact full year fixed bonus guidance
	_	Bonuses associated with crystallizing \$10.5 million of incentive recognized in
		Real Estate Fund II

## **Fund Performance - Multi-Strategy**

#### Sculptor Multi-Strategy Composite Net Returns<sup>(1)(2)</sup>

- Since inception, the Multi-Strategy Composite has generated an 11.8% net return with less than half the volatility of equity markets, achieving a Sharpe Ratio of 1.5
- Sculptor Master Fund was up 6.3% net year-to-date through April 30, 2021

## **Fund Performance - Opportunistic Credit & Real Estate**

#### Sculptor Credit Opportunities Master Fund Net Performance<sup>(1)(5)</sup>

• Since the trough of the market drawdown in 2020 the fund has delivered a net return of 32.1%<sup>(\*)</sup> and was up 8.4% net year-to-date through April 30, 2021

#### Sculptor Real Estate Fund Performance<sup>(7)(8)</sup>

See pages 24 to 25 of this presentation for important information related to the footnotes referenced on this slide. (\*)For the twelve month period of April 1, 2020 through March 31, 2021.

## **Assets Under Management**

(dollars in billions)

Sculptor may determine that the characteristics of a particular investment (i.e., risk, exposure, asset classes, or other characteristics) are best represented by more than one strategy. In these situations, an investment may be divided into more than one strategy for 7 5 purposes of this presentation. The information contained herein is estimated based on unaudited data. Numbers are subject to rounding.

## **Summary Changes to AUM**

#### **Quarterly Total AUM Rollforward**

(dollars in millions)	Mu	ılti-Strategy Funds	Opportunistic Credit Funds	Institutional Credit Strategies	Real Estate Funds	Total
December 31, 2020	\$	10,504 \$	6,288 \$	15,698 \$	4,308 \$	36,798

March 31, 2021	\$	10,919 \$	6,552 \$	15,652 \$	4,251 \$	37,374

#### Inflows & Outflows

- Multi-strategy funds had first quarter of net inflows since 2Q 2014
- ICS inflows from launch of U.S. CLO 25 on February 25th
- Real Estate inflows related to a new co-investment vehicle

#### **Distributions & Other Reductions**

- ICS distributions related to paydowns in our CLOs
- Real Estate distributions from investment realizations in Real Estate Credit Fund I and Real Estate Fund III

#### Appreciation & Depreciation

- Multi-strategy and opportunistic credit funds appreciated due to performance as exhibited by:
  - Sculptor Master Fund
     3.6% 1Q net return
  - Sculptor Credit
     Opportunities Master
     Fund: 7.2% 1Q net
     return

#### Other

 ICS decrease includes the effects of changes in the par value of the underlying collateral of the CLOs and foreign currency translation changes in the measurement of AUM of our European CLOs

## **Balance Sheet Highlights**

Balance sheet position continues to strengthen as we have restructured and subsequently reduced liabilities as a result of strong financial performance.

(1)These balances include committed cash.

<sup>(2)</sup>These items are non-GAAP measures. For information on and reconciliations of the Company's non-GAAP measures to the most directly comparable respective financial measures presented in accordance with GAAP, please see pages 20 through 23. (3)Represents principal outstanding of the debt obligations and par value of Preferred Units.

## **Accrued Unrecognized Incentive Income (ABURI)**

#### 1Q '21 ABURI<sup>1</sup>

- Multi-strategy ABURI is derived from clients in the three-year liquidity tranche, where incentive income will be recognized at the end of each client's three-year period<sup>2</sup>
- Opportunistic credit ABURI derived from three sources:
  - Clients in the three-year and four-year liquidity tranches of an open-end opportunistic credit fund, where incentive income will be recognized at the end of each client's three-year or four-year period<sup>2</sup>
  - Long dated closed-end opportunistic credit funds, where incentive income will be recognized during each fund's harvest period after invested capital and a
    preferred return has been distributed to the clients<sup>2</sup>
  - The Customized Credit Focused Platform, where incentive income is recognized at the end of a multi-year term; previously crystallized on December 31, 2020<sup>2</sup>
- Real Estate ABURI is derived from long-dated real estate funds, where incentive income will start to be recognized following the completion of each fund's investment
  period as investments are realized and after invested capital and a preferred return has been distributed to the clients<sup>2</sup>

(1)Certain ABURI amounts presented above will generally have compensation expense (on an Economic Income Basis) that will reduce the amount ultimately realized on a net basis. Compensation expense relating to ABURI from our real estate funds is generally recognized at the same time the related incentive income revenue is recognized. Compensation expense relating to ABURI generated from our multi-strategy funds and opportunistic credit funds is generally recognized in the year the underlying fund performance is generated which may not occur at the same time that the related revenues are generated. (2)Other than tax distributions.

#### **Footnotes to Non-GAAP Reconciliations**

#### Footnotes to Reconciliations

(1) Adjustment to present management fees net of recurring placement and related service fees, as management considers these fees a reduction in management fees, not an expense. The impact of eliminations related to the consolidated funds is also removed.

(2) Adjustment to exclude equity-based compensation, as management does not consider these non-cash expenses to be reflective of our operating performance. However, the fair value of RSUs that are settled in cash to employees or executive managing directors is included as an expense at the time of settlement. In addition, expenses related to incentive income profit-sharing arrangements are generally recognized at the same time the related incentive income revenue is recognized, as management reviews the total compensation expense related to these arrangements in relation to any incentive income earned by the relevant fund. Further, deferred cash compensation is expensed in full in the year granted for Economic Income, rather than over the service period for GAAP.

(3) Adjustment to exclude amounts related to non-cash interest expense accretion on debt. The 2020 Term Loan and the Debt Securities were each recognized at a significant discount, as proceeds from each borrowing were allocated to warrant liabilities and the 2019 Preferred Units, respectively, resulting in non-cash accretion to par over time through interest expense for GAAP. Management excludes these non-cash expenses from Economic Income, as it does not consider them to be reflective of our economic borrowing costs.

(4) Adjustment to exclude depreciation, amortization and losses on fixed assets as management does not consider these items to be reflective of our operating performance. Additionally, recurring placement and related service fees are excluded, as management considers these fees a reduction in management fees, not an expense.

(5) Adjustments to exclude legal settlements and provisions and related professional services expenses.

(6) Adjustment to exclude amounts attributable to the executive managing directors on their interests in the Sculptor Operating Group, as management reviews the operating performance of the Company at the Sculptor Operating Group level. The Company conducts substantially all of its activities through the Sculptor Operating Group.

(7) Adjustment to exclude investments in funds made on behalf of certain employees and executive managing directors, including deferred compensation arrangements.

(8) Adjustment to reduce the investments in CLOs by related financing, including CLO investments loans and securities sold under agreements to repurchase.

#### Non-GAAP Financial Measures

**Distributable Earnings** is a measure of operating performance that equals Economic Income less amounts payable for taxes and tax receivable agreement and dividends accrued on the Preferred Units (whether paid or deferred). Economic Income and certain balance sheet measures presented on page 9 exclude the adjustments described above that are required for presentation of the Company's results and financial positions on a GAAP basis. Payable for taxes and tax receivable agreement presents the total estimated GAAP provision for current corporate, local and foreign taxes payable, as well as the current payable under the Company's tax receivable agreement, assuming that all Economic Income was allocated to Sculptor Capital Management, Inc., which would occur following the exchange of all interests held by current and former executive managing directors in the Sculptor Operating Group (collectively, "Partner Units") for Class A Shares. The current tax provision and current payable under the tax receivable agreement reflect the benefit of tax deductions that are excluded when calculating Distributable Earnings, such as equity-based compensation expenses, legal settlements expenses, tax goodwill and various other items impacting the Company's tax receivable agreement believes that using the estimated current tax provision and current payable under the Company's tax receivable agreement more accurately reflect earnings that are available to be distributed to shareholders.

For purposes of calculating Distributable Earnings per Share, the Company assumes that all Partner Units and Class A Restricted Share Units ("RSUs") have been converted on a one-to-one basis into Class A Shares and warrants are included on a treasury stock basis (collectively, "Fully Diluted Shares"). As of March 31, 2021, there were 3,385,000 Group P Units outstanding and 1,000,000 performance-based restricted share units ("PSUs"). Group P Units and PSUs do not participate in the economics of the Company until certain service and market-performance conditions are met; therefore, the Company will not include the Group P Units or PSUs in Fully Diluted Shares until such conditions are met. As of March 31, 2021, the market-performance conditions had not yet been met.

These non-GAAP measures should not be considered as alternatives to the Company's GAAP Net Income or cash flow from operations, or as indicative of liquidity or the cash available to fund operations. You are encouraged to evaluate each of these adjustments and the reasons the Company considers them appropriate for supplemental analysis. In evaluating the Company's non-GAAP measures, you should be aware that in the future the Company may incur expenses that are the same as or similar to some of the adjustments in such presentations. The Company's non-GAAP measures may not be comparable to similarly titled measures used by other companies.

Management uses Economic Income and Distributable Earnings, among other financial information, as the basis on which it evaluates the financial performance of the Company and makes resource allocation and other operating decisions, as well as to determine the earnings available to distribute as dividends to holders of the Company's Class A Shares and to the Company's executive managing directors. Management considers it important that investors review the same operating information that it uses. These measures are presented to provide a more comparable view of the Company's operating results year-over-year and the Company believes that providing these measures on a supplemental basis to the Company's GAAP results is helpful to shareholders in assessing the overall performance of the Company's business.

#### Fund Information - Footnotes

(1) Past performance is not indicative of future results. The return information reflected in these tables represents, where applicable, the composite performance of all feeder funds that comprise each of the master funds presented. Gross return information is generally calculated using the total return of all feeder funds, net of all fees and expenses except management fees of such feeder funds and master funds and incentive income allocated to the general partner of the funds, and the returns of each feeder funds includes the reinvestment of all dividends and other income. Net return information is generally calculated as the gross returns less management fees and incentive income allocated to the general partner of the funds. Return information that includes investments in certain funds that the Company, as investment manager, determines lack a readily ascertainable fair value, are illiquid or should be held until the resolution of a special event or circumstance ("Special Investments") excludes incentive income allocated to a special event or circumstance ("Special Investments") excludes incentive income allocated to a special event or circumstance ("Special Investments") excludes incentive income allocated to the general partner of the funds on unrealized gains attributable to such investments, which could reduce returns on these investments at the time of realization. Special Investments and initial public offering investments are not allocated to all investors in the funds, and investors that were not allocated Special Investments and initial public offering investments may experience materially different returns. The performance calculation for the Sculptor Master Fund excludes realized and unrealized gains and losses attributable to currency hedging specific to certain investors investing in Sculptor Master Fund in currencies other than the U.S. Dollar.

(2) The annualized returns since inception are those of the Sculptor Multi-Strategy Composite, which represents the composite performance of all accounts that were managed in accordance with the Company's broad multi-strategy mandate that were not subject to portfolio investment restrictions or other factors that limited the Company's investment discretion on April 1, 1994. Performance is calculated using the total return of all such accounts net of all investment fees and expenses of such accounts, and the returns include the reinvestment of all dividends and other income. The performance calculation for the Sculptor Master Fund excludes realized and unrealized gains and losses attributable to currency hedging specific to certain investors investing in Sculptor Master Fund in currencies other than the U.S. Dollar. For the period from April 1, 1994 through December 31, 1997, the returns are gross of certain overhead expenses that were reimbursed by the accounts. Such reimbursement arrangements were terminated at the inception of the Sculptor Master Fund on January 1, 1998. The size of the accounts comprising the company follows is subject to its discretion, has varied materially. Such differences inpacted the Company's investment decisions and the diversity of the investment strategies followed. Furthermore, the composition of the investment strategies the Company follows is subject to its discretion, has varied materially since inception and is expected to vary materially in the future. As of March 31, 2021, the annualized returns since the Sculptor Master Fund's inception on January 1, 1998 were 13.7% gross and 9.3% net excluding Special Investments and 13.3% gross and 9.1% net inclusive of Special Investments.

The returns for the Sculptor Master Fund exclude Special Investments. Special Investments in the Sculptor Master Fund are held by investors representing a small percentage of assets under management in the fund. Inclusive of these Special Investments, the returns of the Sculptor Master Fund for three months ended March 31, 2021 were 4.8% gross and 3.6% net, for year ended December 31, 2020 were 25.3% gross and 18.6% net, for three months ended March 31, 2020 were (6.8)% gross and net, respectively, and annualized since inception through March 31, 2021 were 16.5% gross and 11.6% net.

Sharpe Ratio is a measure of the risk-adjusted return of the Fund, or benchmark, as applicable. The Sharpe Ratio is calculated by subtracting the annualized risk-free rate from the annualized portfolio return, and dividing that amount by the standard deviation of the portfolio's monthly returns in excess of the risk-free rate. The risk-free rate of return used in computing the Sharpe Ratio is the 1-month LIBOR compounded monthly throughout the periods presented.

This comparison is intended solely for illustrative purposes to show a historical comparison of the Master Fund Composite to the broader markets, as represented by the Broader Market Indices, and should not be considered as an indication of how Sculptor Master Fund or the Feeder Funds will perform relative to the Broader Market Indices in the future. There can be no assurance any such trends would persist in the future. Assets and securities contained within the Broader Market Indices are different than the assets held in the Master Fund Composite and will therefore have different risk and reward profiles.

(4) Volatility is a statistical measure that measures the fluctuation of the monthly rates of return against the average return.

(5) The returns for the Sculptor Credit Opportunities Master Fund exclude Special Investments. Special Investments in the Sculptor Credit Opportunities Master Fund are held by investors representing a small percentage of assets under management in the fund. Inclusive of these Special Investments, the returns of the Sculptor Credit Opportunities Master Fund for three months ended March 31, 2021 were 8.6% gross and 7.3% net, for year ended December 31, 2020 were 0.7% gross and (1.8)% net, for three months ended March 31, 2021 were 13.6% gross and 7.3% net, for year ended December 31, 2020 were 0.7% gross and (2.2)% net, and annualized since inception through March 31, 2021 were 13.6% gross and 9.7% net.

#### Fund Information - Footnotes

(7) Gross IRR for the Company's real estate funds represents the estimated, unaudited, annualized return based on the timing of cash inflows and outflows for the aggregated investments as of March 31, 2021, including the fair value of unrealized and partially realized investments as of such date, together with any unrealized appreciation or depreciation from related hedging activity. Gross IRR is not adjusted for estimated management fees, incentive income allocated to the general partner of the fund or other fees or expenses to be paid by the fund, which would reduce the return.

(8) Net IRR is calculated as described in footnotes (7) and (13), but is reduced by management fees and for the real estate funds other fund-level fees and expenses not adjusted for in the calculation of gross IRR. Net IRR is further reduced by accrued and paid incentive income allocated to the general partner of the fund, which will be payable upon the distribution of each fund's capital in accordance with the terms of the relevant fund. Accrued incentive income allocated to the general partner of the fund and does not reflect the net IRR specific to any individual investor.

(9) Appreciation (depreciation) reflects the aggregate net capital appreciation (depreciation) for the entire period and is presented on a total return basis, net of all fees and expenses (except incentive income allocated to the general partner of the fund on unrealized Special Investments), and includes the reinvestment of all dividends and other income. Management fees and incentive income allocated to the general partner of the fund vary by product.

(10) Includes the effects of changes in the par value of the underlying collateral of the CLOs, foreign currency translation changes in the measurement of assets under management of our European CLOs and changes in the portfolio appraisal value for aircraft securitization vehicles.

(11) Represents funded capital commitments net of recallable distribution to investors.

(12) Gross internal rate of return ("IRR") for the Company's closed-end opportunistic credit funds represents the estimated, unaudited, annualized return based on the timing of cash inflows and outflows for the fund as of March 31, 2021, including the fair value of unrealized investments as of such date, together with any appreciation or depreciation from related hedging activity. Gross IRR does not include the effects of management fees or incentive income allocated to the general partner of the fund, which would reduce the return, and includes the reinvestment of all fund income.

(13) Gross multiple of invested capital ("MOIC") for the Company's closed-end opportunistic credit funds is calculated by dividing the sum of the net asset value of the fund, accrued incentive income allocated to the general partner of the fund, life-to-date incentive income allocated to the general partner of the fund and management fees paid and any non-recallable distributions made from the fund by the invested capital.

(14) These funds have concluded their investment periods, and therefore the Company expects assets under management for these funds to decrease as investments are sold and the related proceeds are distributed to the investors in these funds.

(15) An investment is considered partially realized when the total amount of proceeds received, including dividends, interest or other distributions of income and return of capital, represents at least 50% of invested capital.

(16) Invested capital represents total aggregate contributions made for investments by the fund.

(17) Total value represents the sum of realized distributions and the fair value of unrealized and partially realized investments as of March 31, 2021. Total value will be impacted (either positively or negatively) by future economic and other factors. Accordingly the total value ultimately realized will likely be higher or lower than the amounts presented as of March 31, 2021.

(18) Gross MOIC for the Company's real estate funds is calculated by dividing the value of a fund's investments by the invested capital, prior to adjustments for incentive income allocated to the general partner of the fund, management fees or other expenses to be paid by the fund.

(19) This fund has invested less than half of its committed capital; therefore, IRR and MOIC information is not presented, as it is not meaningful.

#### **Customized Credit Focused Platform - Footnotes**

Weighted Average Returns: Weighted Average Returns reflect the total profit & loss divided by the weighted average capital base for the period.

Gross IRR represents estimated, unaudited, annualized pre-tax returns based on the timing of cash inflows and outflows from contributions into and distributions from the Platform to its fee paying investors (excluding management fees incurred by the Platform and incentive income allocated to the general partner of the fund).

Net IRR is the gross IRR adjusted to reflect actual management fees incurred by the Platform and incentive income allocated to the general partner of the fund.

Net Invested Capital Multiple: Given the Platform has an active liquid investment program, a key element of which includes ramping up and ramping down depending on market conditions - much of which has recently been deployed - this is a multiple measuring the current net asset value over the Net Invested Capital, where Net Invested Capital represents cumulative contributions less cumulative distributions.

#### **Forward-Looking Statements**

This press release and earnings presentation contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that reflect the Company's current views with respect to, among other things, future events, its operations and its financial performance. The Company generally identifies forward-looking statements by terminology such as "outlook," "believe," "expect," "potential," "continue," "may," "will," "should," "could," "seek," "approximately," "predict," "intend," "plan," "estimate," "anticipate," "opportunity," "comfortable," "assume," "remain," "maintain," "sustain," "achieve," "see," "think," "position" or the negative version of those words or other comparable words.

Any forward-looking statements contained in this press release are based upon historical information and on the Company's current plans, estimates and expectations. The inclusion of this or other forward-looking information should not be regarded as a representation by the Company or any other person that the future plans, estimates or expectations contemplated by the Company will be achieved. The Company cautions that forward-looking statements are subject to numerous assumptions, estimates, risks and uncertainties including but not limited to the following: global economic, business, market and geopolitical conditions, including the impact of public health crises, such as the ongoing COVID-19 pandemic; U.S. and foreign regulatory developments relating to, among other things, financial institutions and markets, government oversight, fiscal and tax policy; the outcome of third-party litigation involving the Company; the consequences of the Foreign Corrupt Practices Act settlements with the SEC and the U.S. Department of Justice and any claims arising therefrom; whether the Company realizes all or any of the anticipated benefits from the recapitalization and other related transactions; whether the recapitalization and other related transactions result in any increased or unforeseen costs, indemnification obligations or have an impact on the Company's ability to retain or compete for professional talent or investor capital; conditions impacting the alternative asset management industry; the Company's ability to retain existing investor capital; the Company's ability to retain its active executive managing directors, managing directors and other investment professionals; the Company's successful formulation and execution of its business and growth strategies; the Company's ability to a corporation and subsequently converting from a limited liability company to a corporation; and assumptions, relating to the Company's operations, investment performance, financial results, financial results, financial condition, bus

If one or more of these or other risks or uncertainties materialize, or if the Company's assumptions or estimates prove to be incorrect, its actual results may vary materially from those indicated in these statements. These factors are not and should not be construed as exhaustive and should be read in conjunction with the other cautionary statements and risks that are included in the Company's filings with the SEC, including but not limited to the Company's annual report on Form 10-K for the year ended December 31, 2020, dated February 23, 2021, as well as may be updated from time to time in the Company's other SEC filings. There may be additional risks, uncertainties and factors that the Company does not currently view as material or that are not known. The forward-looking statements contained in this press release are made only as of the date of this press release. The Company does not undertake to update any forward-looking statement because of new information, future developments or otherwise. This press release does not constitute an offer of any Sculptor Capital fund.

The Company files annual, quarterly and current reports, proxy statements and other information required by the Exchange Act of 1934, as amended, with the SEC. The Company makes available free of charge on its website (*www.sculptor.com*) its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements and any amendment to those filings as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC.
