Our Vision

**making incredible homes  
easily accessible to everyone**

I Trulli di Carole (Ostuni, Italy)

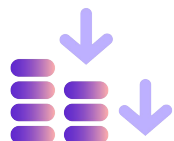

home  
to go\_

# The fragmented vacation rental market consists of 100.000s of different websites and suppliers

**A pain for travelers**  
to find the right place to stay

**A pain for suppliers**  
Lacking access to the right demand,  
standards, technology and data

# On our journey so far...

# ... we grew the 2022 Onsite marketplace to almost the size of the entire HomeToGo in 2019 while building up Services

**We are solving the key pain points of the market with technology by matching the right travelers with the right suppliers**

# Self-reinforcing feedback loop: more Onsite supply increases repeat bookings, driving long-term growth and margins up – further accelerated by Subscription & Services

# We are a healthy business with a strong cash position...

We already have the right assets today...

## Customer reach

## Forward-Looking Statements

This Presentation contains certain forward-looking statements, including statements regarding HomeToGo's future business and financial performance. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "future," "opportunity," "plan," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. These forward-looking statements reflect, at the time made, HomeToGo's beliefs, intentions and current targets/aims concerning, among other things, HomeToGo's results of operations, financial condition, liquidity, prospects, growth and strategies. Forward-looking statements include statements regarding: objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; developments of HomeToGo's markets; the impact of regulatory initiatives; and the strength of HomeToGo's competitors. Forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. The forward-looking statements in the Presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in HomeToGo's records and other data available from third parties. Although HomeToGo believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and are beyond its control. Forward-looking statements are not guarantees of future performance and such risks, uncertainties, contingencies and other important factors could cause the actual outcomes and the results of operations, financial condition and liquidity of HomeToGo or the industry to differ materially from those results expressed or implied in the Presentation by such forward-looking statements. No representation or warranty is made that any of these forward-looking statements or forecasts will come to pass or that any forecast result will be achieved. Undue influence should not be given to, and no reliance should be placed on, any forward-looking statement. No statement in the Presentation is intended to be nor may be construed as a profit forecast. It is up to the recipient to make its own assessment of the validity of any forward-looking statements and assumptions. No liability whatsoever is accepted by HomeToGo or any of HomeToGo's Representatives or any other person in respect of the achievement of such forward-looking statements and assumptions.

## Use of Non-IFRS Measures

The Presentation includes certain financial measures (including on a forward-looking basis) that have not been prepared in accordance with International Financial Reporting Standards as adopted by the International Accounting Standards Board ("IFRS"). These non-IFRS measures are an addition, and not a substitute for or superior to, measures of financial performance prepared in accordance with IFRS and should not be considered as an alternative to net income, operating income or any other performance measures derived in accordance with IFRS. HomeToGo believes that these non-IFRS measures of financial results (including on a forward-looking basis) provide useful supplemental information to investors about HomeToGo. These projections are for illustrative purposes and should not be relied upon as being necessarily indicative of future results. Metrics that are considered non-IFRS financial measures are presented on a non-IFRS basis without reconciliations of such forward looking non-IFRS measures due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliation. They are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses and income are excluded and included in determining these non-IFRS financial measures. In order to compensate for these limitations, management presents non-IFRS financial measures in connection with IFRS results. In addition, other companies may calculate non-IFRS measures differently, or may use other measures to calculate their financial performance, and therefore, HomeToGo's non-IFRS measures may not be directly comparable to similarly titled measures of other companies.

## Financial Information

This Presentation contains unaudited financial information for HomeToGo, which may be subject to change.
