Notes to Consolidated Financial Statements
(dollar figures in tables in thousands, except per share amounts)
(unaudited)

Note 1 – Basis of Presentation and Selected Significant Accounting Policies

Basis of Presentation

These consolidated unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the U.S. (“GAAP”). All intercompany balances and transactions have been eliminated upon consolidation. All dollar figures presented in tables in the notes to consolidated financial statements are in thousands, except per share amounts. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted as permitted by the SEC’s rules and regulations for interim reporting. These consolidated financial statements should be read in conjunction with our audited financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 30, 2022.

Year End

We use a 52- or 53-week fiscal year ending on the last Friday in December. Our fiscal years ending December 29, 2023 and December 30, 2022 each are 52 weeks. References to 2023 and 2022 relate to the fiscal years then ended. The three-month periods ended March 31, 2023 and April 1, 2022 each are 13 weeks. References to the first quarter of 2023 and 2022 relate to the three-month periods then ended.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods presented. We base our estimates and judgments on historical experience and on various other assumptions that we believe are reasonable under the circumstances. Actual results could differ from the estimates made by management. Significant estimates include inventory valuation and impairment analysis for both definite-lived intangible assets and goodwill.

Cash and Cash Equivalents

Cash and cash equivalents consist of deposits and financial instruments which are readily convertible into cash and have original maturities of 90 days or less at the time of acquisition.

Fair Value of Financial Instruments

The carrying values of our financial instruments, including cash and cash equivalents, accounts receivable, prepaid expenses and other current assets, accounts payable, accrued liabilities, and long-term debt, net of unamortized debt issuance costs, approximate fair value.

Revenue Recognition

We recognize revenue when control of promised goods or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. This amount is recorded as net sales in our consolidated statements of operations.

Transaction price – In most of our contracts, prices are generally determined by a customer-issued purchase order and generally remain fixed over the duration of the contract. Certain contracts contain variable consideration, including early-payment discounts and rebates. When a contract includes variable consideration, we evaluate the estimate of the variable consideration to determine whether the estimate needs to be constrained; therefore, we include the variable consideration in the transaction price only to the extent that it is probable that a significant reversal will not occur. Variable consideration estimates are updated at each reporting date. Historically, we have not incurred significant costs to obtain a contract. All amounts billed to a customer relating to shipping and handling are classified as net sales, while all costs incurred by us for shipping and handling are classified as cost of sales.

Performance obligations – Substantially all of our performance obligations pertain to promised goods (“products”), which are primarily comprised of fluid delivery subsystems, weldments, and other components. Most of our contracts contain a single performance obligation and are generally completed within twelve months. Product sales are recognized at a point-in-time, generally upon delivery, as such term is defined within the contract, as that is when control of the promised good has transferred. Products are covered by a standard assurance warranty, generally extended for a period of one to two years depending on the customer, which promises that delivered products conform to contract specifications. As such, we account for such warranties under ASC 460, *Guarantees*, and not as a separate performance obligation.

Contract balances – Accounts receivable represents our unconditional right to receive consideration from our customers. Accounts receivable are carried at invoice price less an estimate for doubtful accounts and estimated payment discounts. Payment terms vary by customer but are generally due within 15-60 days. Historically, we have not incurred significant payment issues with our customers. We had no significant contract assets or liabilities on our consolidated balance sheets in any of the periods presented.

Accounting Pronouncements Recently Adopted

In October 2021, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2021-08, *Accounting for Contract Assets and Contract Liabilities from Contracts with Customers (Topic 805)*. This ASU requires an acquirer in a business combination to recognize and measure contract assets and contract liabilities (deferred revenue) from acquired contracts using the revenue recognition guidance in Topic 606. At the acquisition date, the acquirer applies the revenue model as if it had originated the acquired contracts. We adopted the ASU on the first day of 2023 and it did not have a material impact on our consolidated financial statements.

Note 2 – Inventories

Inventories consist of the following:

	March 31, 2023	December 30, 2022
Raw materials	\$ 196,504	\$ 197,726
Work in process	39,733	56,291
Finished goods	54,306	47,186
Excess and obsolete adjustment	(19,005)	(17,543)
Total inventories	<u>\$ 271,538</u>	<u>\$ 283,660</u>

Note 3 – Property and Equipment and Other Noncurrent Assets

Property and equipment consist of the following:

	March 31, 2023	December 30, 2022
Machinery	\$ 96,338	\$ 90,507
Leasehold improvements	43,556	43,129
Computer software, hardware, and equipment	10,053	9,664
Office furniture, fixtures, and equipment	1,354	1,337
Vehicles	401	401
Construction-in-process	21,510	19,869
	<u>173,212</u>	<u>164,907</u>
Less accumulated depreciation	(71,731)	(66,852)
Total property and equipment, net	<u>\$ 101,481</u>	<u>\$ 98,055</u>

Depreciation expense was \$4.3 million and \$4.0 million for the first quarter of 2023 and 2022, respectively.

Cloud Computing Implementation Costs

We capitalize implementation costs associated with hosting arrangement that are service contracts. These costs are recorded to prepaid expenses or other noncurrent assets. To-date, these costs are those incurred to implement a new company-wide ERP system. The balance of capitalized cloud computing implementation costs, net of accumulated amortization, was \$11.4 million and \$11.6 million as of March 31, 2023 and December 30, 2022, respectively, and is included in other assets on our consolidated balance sheets. The related amortization expense was \$0.2 million and \$0.2 million during the first quarter of 2023 and 2022, respectively, and is included in selling, general, and administrative expense on our consolidated statements of operations.

Note 4 – Intangible Assets

Definite-lived intangible assets consist of the following:

	March 31, 2023				Weighted average useful life
	Gross value	Accumulated amortization	Accumulated impairment charges	Carrying amount	
Customer relationships	117,022	(55,202)	—	61,820	8.4 years
Developed technology	11,047	(4,811)	—	6,236	10.0 years
Total intangible assets	<u>\$ 128,069</u>	<u>\$ (60,013)</u>	<u>\$ —</u>	<u>\$ 68,056</u>	
	December 30, 2022				Weighted average useful life
	Gross value	Accumulated amortization	Accumulated impairment charges	Carrying amount	
Customer relationships	117,022	(51,337)	—	65,685	8.4 years
Developed technology	11,047	(4,710)	—	6,337	10.0 years
Total intangible assets	<u>\$ 128,069</u>	<u>\$ (56,047)</u>	<u>\$ —</u>	<u>\$ 72,022</u>	

Note 5 – Leases

Operating lease right-of-use (“ROU”) assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. For purposes of calculating operating lease ROU assets and operating lease liabilities, we use the non-cancelable lease term plus options to extend that we are reasonably certain to take. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term. Our leases generally do not provide an implicit rate. As such, we use our incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments.

We lease facilities under various non-cancelable operating leases expiring through 2031. In addition to base rental payments, we are generally responsible for our proportionate share of operating expenses, including facility maintenance, insurance, and property taxes. As these amounts are variable, they are not included in lease liabilities.

The components of lease expense are as follows:

	Three Months Ended	
	March 31, 2023	April 1, 2022
Operating lease cost	\$ 2,411	\$ 2,045

Supplemental cash flow information related to leases is as follows:

	Three Months Ended	
	March 31, 2023	April 1, 2022
Cash paid for amounts included in the measurement of lease liabilities:		
Operating cash flows from operating leases	\$ 2,237	\$ 1,823

Supplemental balance sheet information related to leases is as follows:

	March 31, 2023	December 30, 2022
Weighted-average remaining lease term of operating leases	5.2 years	5.3 years
Weighted-average discount rate of operating leases	3.2%	3.0%

Future minimum lease payments under non-cancelable leases are as follows as of March 31, 2023:

2023, remaining	\$ 7,117
2024	9,074
2025	8,418
2026	7,968
2027	6,968
Thereafter	5,367
Total future minimum lease payments	44,912
Less imputed interest	(3,467)
Total lease liabilities	\$ 41,445

Note 6 – Income Taxes

Income tax information for the periods reported is as follows:

	Three Months Ended	
	March 31, 2023	April 1, 2022
Income tax expense (benefit)	\$ (535)	\$ 810
Income (loss) before income taxes	\$ (540)	\$ 8,849
Effective income tax rate	99.1 %	9.2 %

Our effective tax rates for the three months ended March 31, 2023 and April 1, 2022 differ from the statutory rate primarily due to taxes on foreign income that differ from the U.S. tax rate, including a tax holiday in Singapore. Our effective tax rate of 99.1% for the first quarter of 2023 is primarily due to projected pre-tax loss in the U.S. for 2023, which generates tax benefits, partially offset by projected pre-tax income in Singapore, our primary source of non-U.S. pre-tax income and for which we participate in a tax holiday through 2026.

The ending balance for the unrecognized tax benefits for uncertain tax positions was approximately \$4.5 million at March 31, 2023. The related interest and penalties were insignificant. The uncertain tax positions that are reasonably possible to decrease in the next twelve months are insignificant.

As of March 31, 2023, we were under examination by the Inland Revenue Board of Malaysia for the years 2016 to 2020.

Note 7 – Employee Benefit Programs*401(k) Plan*

We sponsor a 401(k) plan available to employees of our U.S.-based subsidiaries. Participants may make salary deferral contributions not to exceed 50% of a participant's annual compensation or the maximum amount otherwise allowed by law. Eligible employees receive a discretionary matching contribution equal to 50% of a participant's deferral, up to an annual matching maximum of 4% of a participant's annual compensation. Matching contributions were \$0.9 million and \$1.0 million for the first quarter of 2023 and 2022, respectively.

Note 8 – Long-Term Debt

Long-term debt consists of the following:

	March 31, 2023	December 30, 2022
Term loan	\$ 140,625	\$ 142,500
Revolving credit facility	160,000	160,000
Total principal amount of long-term debt	300,625	302,500
Less unamortized debt issuance costs	(1,666)	(1,782)
Total long-term debt, net	298,959	300,718
Less current portion	(7,500)	(7,500)
Total long-term debt, less current portion, net	\$ 291,459	\$ 293,218

On October 29, 2021, we entered into an amended and restated credit agreement, which includes a group of financial institutions as direct lenders underlying the agreement. The credit agreement includes a \$150.0 million term loan facility and a \$250.0 million revolving credit facility (together, "credit facilities"). Term loan principal payments of \$1.9 million are due on a quarterly basis. The credit facilities mature on October 29, 2026.

Interest is charged at either the Base Rate or the Bloomberg Short-Term Bank Yield (“BSBY”) Rate (as such terms are defined in the credit agreement) at our option, plus an applicable margin. The Base Rate is equal to the higher of i) the Prime Rate, ii) the Federal Funds Rate plus 0.5%, or iii) the BSBY Rate plus 1.00%. The applicable margin on Base Rate and BSBY Rate loans is 0.375-1.375% and 1.375-2.375% per annum, respectively, depending on our leverage ratio, which is based on trailing 12-month EBITDA, as defined in our credit agreement. We are also charged a commitment fee of 0.175%-0.350%, depending on our leverage ratio, on the unused portion of our revolving credit facility. Base Rate interest payments and commitment fees are due quarterly. BSBY Rate interest payments are due on the last day of the applicable interest period, or quarterly for applicable interest periods longer than 3 months. At March 31, 2023, our credit facilities bore interest under the BSBY rate option of 6.51%.

Note 9 – Share-Based Compensation

The 2016 Omnibus Incentive Plan (the “2016 Plan”) provides for grants of share-based awards to employees, directors, and consultants. Awards may be in the form of stock options (“options”), tandem and non-tandem stock appreciation rights, restricted share awards or restricted share units (“RSUs”), performance awards, and other share-based awards. Forfeited or expired awards are returned to the incentive plan pool for future grants. Awards generally vest over four years, 25% on the first anniversary of the date of grant and quarterly thereafter over the remaining 3 years. Upon vesting of RSUs, shares are withheld to cover statutory minimum withholding taxes. Shares withheld are not reflected as an issuance of ordinary shares within our consolidated statements of shareholders’ equity, as the shares were never issued, and the associated tax payments are reflected as financing activities within our consolidated statements of cash flows.

Share-based compensation expense across all plans for options, RSUs, and employee share purchase rights was \$3.6 million and \$2.9 million for the first quarter of 2023 and 2022.

Stock Options

The following table summarizes option activity:

	Number of Stock Options		Weighted average exercise price per share	Weighted average remaining contractual term	Aggregate intrinsic value
	Service condition				
Outstanding, December 30, 2022	805,115		\$ 23.35

Employee Share Purchase Plan

The 2017 Employee Stock Purchase Plan (the “2017 ESPP”) grants employees the ability to designate a portion of their base-pay to purchase ordinary shares at a price equal to 85% of the fair market value of our ordinary shares on the first or last day of each 6 month purchase period. Purchase periods begin on January 1 or July 1 and end on June 30 or December 31, or the next business day if such date is not a business day. Shares are purchased on the last day of the purchase period.

As of March 31, 2023, approximately 2.2 million ordinary shares remain available for purchase under the 2017 ESPP.

Note 10 – Earnings per Share

The following table sets forth the computation of basic and diluted earnings per share and a reconciliation of the numerator and denominator used in the calculation:

	Three Months Ended	
	March 31, 2023	April 1, 2022
Numerator:		
Net income (loss)	\$ (5)	\$ 8,039
Denominator:		
Basic weighted average ordinary shares outstanding	28,984,878	28,592,629
Dilutive effect of options	—	292,828
Dilutive effect of RSUs	—	135,860
Dilutive effect of ESPP	—	2,138
Diluted weighted average ordinary shares outstanding	28,984,878	29,023,455
Securities excluded from the calculation of diluted weighted average ordinary shares outstanding (1)	1,879,000	267,000
Net income (loss) per share:		
Basic	\$ 0.00	\$ 0.28
Diluted	\$ 0.00	\$ 0.28

- (1) Represents potentially dilutive options and RSUs excluded from the calculation of diluted weighted average ordinary shares outstanding, because including them would have been antidilutive under the treasury stock method.

Note 11 – Segment Information

Our Chief Operating Decision Maker, the Chief Executive Officer, reviews our results of operations on a consolidated level and executive staff is structured by function rather than by product category. Additionally, key resources, decisions, and assessment of performance are analyzed at a company-wide level. Therefore, we operate in one operating segment.

Foreign operations are conducted primarily through our wholly owned subsidiaries in Singapore and Malaysia, and to a lesser degree, Scotland, Korea, and Mexico. Our principal markets include North America, Asia, and to a lesser degree, Europe.

Sales by geographic area represents sales to unaffiliated customers based upon the location to which the products were shipped. The following table sets forth sales by geographic area:

	Three Months Ended	
	March 31, 2023	April 1, 2022
United States of America	\$ 89,052	\$ 142,470
Singapore	82,286	103,295
Europe	29,986	24,392
Other	24,546	22,989
Total net sales	\$ 225,870	\$ 293,146

Foreign long-lived assets, exclusive of deferred tax assets, were \$52.5 million and \$52.8 million at March 31, 2023 and December 30, 2022, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Concerning Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. You should not place undue reliance on these statements. All statements other than statements of historical fact included in this report are forward-looking statements. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. These forward-looking statements are identified by the use of terms and phrases such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will” and similar terms and phrases, including references to assumptions. However, these words are not the exclusive means of identifying such statements. These statements are contained in many sections of this report, including those in *Part I – Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations*. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that we will achieve those plans, intentions or expectations. All forward-looking statements are subject to risks and uncertainties that may cause actual results to differ materially from those that we expected. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, include economic downturns and market conditions beyond our control, including periods of inflation, slower growth or recession, changes to fiscal and monetary policy, higher interest rates, currency fluctuations, challenges in the supply chain, export restrictions, and any disruptions in European economies as a result of the conflict in Ukraine; the quality of global financial markets; our dependence on expenditures by manufacturers in the semiconductor capital equipment industry; our reliance on a very small number of original equipment manufacturer customers for a significant portion of our sales; our customers’ significant negotiating leverage; competition in our industry; and other factors set forth in this report, and those set forth in *Part I – Item 1A. Risk Factors* of our 2022 Annual Report on Form 10-K and our other filings with the Securities and Exchange Commission (“SEC”). All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in *Part I – Item 1A. Risk Factors* to our 2022 Annual Report on Form 10-K, as well as other cautionary statements that are made from time to time in our other filings with the SEC and public communications. You should evaluate all forward-looking statements made in this report in the context of these risks and uncertainties.

We caution you that the important factors referenced above may not contain all of the factors that are important to you. In addition, we cannot assure you that we will realize the results or developments we expect or anticipate or, even if substantially realized, that they will result in the consequences or affect us or our operations in the way we expect. The forward-looking statements included in this report are made only as of the date hereof. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our consolidated unaudited financial statements and related notes included elsewhere in this report.

Overview

We are a leader in the design, engineering, and manufacturing of critical fluid delivery subsystems and components for semiconductor capital equipment. Our product offerings include gas and chemical delivery systems and subsystems, collectively known as fluid delivery systems and subsystems, which are key elements of the process tools used in the manufacturing of semiconductor devices. Our gas delivery subsystems deliver, monitor, and control precise quantities of the specialized gases used in semiconductor manufacturing processes such as etch and deposition. Our chemical delivery systems and subsystems precisely blend and dispense the reactive liquid chemistries used in semiconductor manufacturing processes such as chemical-mechanical planarization, electroplating, and cleaning. We also provide precision-machined components, weldments, e-beam and laser-welded components, precision vacuum and hydrogen brazing and surface treatment technologies, and other proprietary products. This vertically integrated portion of our business is primarily focused on metal and plastic parts that are used in gas and chemical systems, respectively.

Fluid delivery subsystems ensure accurate measurement and uniform delivery of specialty gases and chemicals at critical steps in the semiconductor manufacturing processes. Any malfunction or material degradation in fluid delivery reduces yields and increases the likelihood of manufacturing defects in these processes. Most OEMs outsource all or a portion of the design, engineering, and manufacturing of their gas delivery subsystems to a few specialized suppliers, including us. Additionally, many OEMs are outsourcing the design, engineering, and manufacturing of their chemical delivery subsystems due to the increased fluid expertise required to manufacture these subsystems. Outsourcing these subsystems has allowed OEMs to leverage the suppliers' highly specialized engineering, design, and production skills while focusing their internal resources on their own value-added processes. We believe that this outsourcing trend has enabled OEMs to reduce their costs and development time, as well as provide growth opportunities for specialized subsystems suppliers like us.

We have a global footprint with production facilities in California, Minnesota, Oregon, Texas, Singapore, Malaysia, the United Kingdom, Korea, and Mexico.

The following table summarizes key financial information for the periods indicated. Amounts are presented in accordance with GAAP unless explicitly identified as being a non-GAAP metric. For a description of our non-GAAP metrics and reconciliations to the most comparable GAAP metrics, please refer below to the section entitled *Non-GAAP Financial Results* within this report.

Macroeconomic Conditions and Business Update

In the first quarter of 2023, customer demand weakened due to overall reductions in spending for semiconductor capital equipment, the primary industry in which we operate. Many macroeconomic factors may have contributed to this reduced spending environment, including persistent levels of high inflation, higher interest rates, foreign currency rate fluctuations, supply chain disruptions, and reduced consumer confidence. Additionally, increased export controls for semiconductor-related goods and services shipped to China and delayed business investment in electronic memory capacity had varying levels of unfavorable consequences to our business.

To help mitigate these impacts and to better align our resources and cost structure with current and expected future levels of business, we initiated labor and other cost reduction initiatives starting in the fourth quarter of 2022 and continuing through the first quarter of 2023. As a result of these programs, we incurred severance charges of \$1.1 million and \$1.3 million in the fourth quarter of 2022 and first quarter of 2023, respectively. While challenging macroeconomic conditions have impacted our business and customers in the near-term, we believe demand for semiconductors, semiconductor equipment, and our products will return to growth and expect healthy long-term industry growth in the future.

Additionally, increased borrowing rates due to tightening monetary policy have increased our debt-service costs, as the interest on our outstanding indebtedness is variable (refer above to *Part I – Item 1. Financial Statements (Unaudited) – Note 8—Long-Term Debt*). An analysis of the changes in our debt-service cost is provided below under the heading *Comparison of the three months ended March 31, 2023 and April 1, 2022 – Interest expense, net*.

Results of Operations

The following table sets forth our unaudited results of operations for the periods presented. The period-to-period comparison of results is not necessarily indicative of results for future periods.

Comparison of the three months ended March 31, 2023 and April 1, 2022*Net sales*

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Net sales	\$ 225,870	\$ 293,146	\$ (67,276)	(22.9)%

The decrease in net sales from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to reduced customer demand stemming from reduced spending within the semiconductor capital equipment industry. Further detail is provided above under the section entitled *Macroeconomic Conditions and Business Update*.

Cost of sales, Gross profit, and Gross Margin

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Cost of sales	\$ 192,630	\$ 249,214	\$ (56,584)	(22.7) %
Gross profit	\$ 33,240	\$ 43,932	\$ (10,692)	(24.3) %
Gross margin	14.7 %	15.0 %		-30 bps

The decrease in the gross amounts of cost of sales and gross profit from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to the factors mentioned in the commentary above under the heading, “*Net Sales*.”

The decrease in gross margin from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to reduced factory utilization as a result of lower volume due to reduced customer demand.

Research and development

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Research and development	\$ 4,313	\$ 4,851	\$ (538)	(11.1)%

The decrease in research and development expenses from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to reduced employee-related expense.

Selling, general, and administrative

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Selling, general, and administrative	\$ 20,167	\$ 23,267	\$ (3,100)	(13.3)%

The decrease in selling, general, and administrative expense from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to a \$3.1 million loss accrual recorded in the first quarter of 2022 relating to an expected settlement of an employment-related legal matter and reduced employee-related expenses, inclusive of share-based compensation expense, of \$0.5 million, partially offset by increased software and IT system costs of \$0.5 million.

Amortization of intangible assets

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Amortization of intangible assets	\$ 3,966	\$ 5,349	\$ (1,383)	(25.9)%

The decrease in amortization expense from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to certain intangible assets becoming fully amortized in 2022.

Interest expense, net

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Interest expense, net	\$ 4,550	\$ 1,532	\$ 3,018	197.0 %
Weighted average borrowings outstanding	\$ 302,479	\$ 294,959	\$ 7,520	2.5 %
Weighted average borrowing rate	6.10 %	1.83 %		+427 bps

The increase in interest expense, net from the three months ended April 1, 2022 to the three months ended March 31, 2023 was due to an increase in our average amount borrowed and an increase in our weighted average borrowing rate. The increase in the average amount borrowed was due to a net draw on our revolving credit facility of \$15.0 million in the second quarter of 2022, partially offset by quarterly term loan payments. The increase in our weighted average borrowing rate is due to increased risk-free, short-term borrowing rates as a result of tightening monetary policy, which impacts BSBY, the variable component of our borrowing rate under our credit facilities.

Other expense, net

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Other expense, net	\$ 784	\$ 84	\$ 700	833.3 %

The change in other expense, net from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to currency exchange rate fluctuations during the quarter, reflecting a strengthening U.S. dollar against local currency payables of our foreign operations.

Income tax expense (benefit)

	Three Months Ended		Change	
	March 31, 2023	April 1, 2022	Amount	%
	<i>(dollars in thousands)</i>			
Income tax expense (benefit)	\$ (535)	\$ 810	\$ (1,345)	n/m
Income (loss) before income taxes	\$ (540)	\$ 8,849	\$ (9,389)	n/m
Effective income tax rate	99.1 %	9.2 %		+8,990 bps

The decrease in income tax expense from the three months ended April 1, 2022 to the three months ended March 31, 2023 was primarily due to decreased taxable income in the U.S.

Non-GAAP Financial Results

Management uses certain non-GAAP metrics to evaluate our operating and financial results. We believe the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing investors' ability to view our results from management's perspective. Non-GAAP gross profit, operating income, and net income are defined as: gross profit, operating income, or net income (loss), respectively, excluding (1) amortization of intangible assets, share-based compensation expense, and discrete or infrequent charges and gains that are outside of normal business operations, including acquisition-related costs, contract and legal settlement gains and losses, facility shutdown costs, and severance costs associated with reduction-in-force programs, to the extent they are present in gross profit, operating income, and net income (loss), respectively; and (2) the tax impacts associated with these non-GAAP adjustments, as well as non-recurring discrete tax items. Non-GAAP diluted earnings per share ("EPS") is defined as non-GAAP net income divided by weighted average diluted ordinary shares outstanding during the period. Non-GAAP gross margin and non-GAAP operating margin are defined as non-GAAP gross profit and non-GAAP operating income, respectively, divided by net sales.

Non-GAAP results have limitations as an analytical tool, and you should not consider them in isolation or as a substitute for our results reported under GAAP. Other companies may calculate non-GAAP results differently or may use other measures to evaluate their performance, both of which could reduce the usefulness of our non-GAAP results as a tool for comparison.

Because of these limitations, you should consider non-GAAP results alongside other financial performance measures and results presented in accordance with GAAP. In addition, in evaluating non-GAAP results, you should be aware that in the future we will incur expenses such as those that are the subject of adjustments in deriving non-GAAP results and you should not infer from our presentation of non-GAAP results that our future results will not be affected by these expenses or other discrete or infrequent charges and gains that are outside of normal business operations.

The following table presents our unaudited non-GAAP gross profit and non-GAAP gross margin and a reconciliation from gross profit, the most comparable GAAP measure, for the periods indicated:

Liquidity and Capital Resources

The following section discusses our liquidity and capital resources, including our primary sources of liquidity and our material cash requirements. Our cash and cash equivalents are maintained in highly liquid and accessible accounts with no significant restrictions.

Material Cash Requirements

Our primary liquidity requirements arise from: (i) working capital requirements, including procurement of raw materials inventory for use in our factories and employee-related costs, (ii) business acquisitions, (iii) interest and principal payments under our credit facilities, (iv) research and development investments and capital expenditures, and (v) payment of income taxes. We have no significant long-term purchase commitments related to procuring raw materials inventory. Our ability to fund these requirements will depend, in part, on our future cash flows, which are determined by our future operating performance and are therefore subject to prevailing global macroeconomic conditions and financial, business, and other factors, some of which are beyond our control.

We believe that our cash and cash equivalents, the amounts available under our credit facilities, and our operating cash flow will be sufficient to fund our business and our current obligations for at least the next 12 months and beyond.

Sources and Conditions of Liquidity

Our ongoing sources of liquidity to fund our material cash requirements are primarily derived from: (i) sales to our customers and the related changes in our net operating assets and liabilities and (ii) proceeds from our credit facilities and equity offerings, when applicable.

Summary of Cash Flows

We ended the first quarter of 2023 with cash and cash equivalents of \$68.8 million, a decrease of \$17.6 million from the prior year ended December 30, 2022. The decrease of \$17.6 million during the first quarter was primarily due to net cash used in operating activities of \$10.9 million and capital expenditures of \$6.8 million.

The following table sets forth a summary of operating, investing, and financing activities for the periods presented:

	Three Months Ended	
	March 31, 2023	April 1, 2022
	<i>(in thousands)</i>	
Cash used in operating activities	\$ (10,873)	\$ (36,278)
Cash used in investing activities	(6,819)	(3,417)
Cash provided by (used in) financing activities	59	(1,284)
Net decrease in cash	<u>\$ (17,633)</u>	<u>\$ (40,979)</u>

Our cash used in operating activities of \$10.9 million during the first quarter consisted of net loss of \$0.0 million, net non-cash charges of \$11.2 million, consisting primarily of depreciation and amortization of \$8.5 million and share-based compensation expense of \$3.6 million, and an increase in our net operating assets and liabilities of \$22.1 million.

The increase in our net operating assets and liabilities of \$22.1 million during the first quarter was primarily due to a decrease in accounts payable of \$43.0 million, which was primarily due to the timing of inventory purchases and receipts, partially offset by a decrease in accounts receivable of \$13.6 million and a decrease in inventories of \$12.1 million.

Cash used in investing activities during the first quarter of 2023 and 2022 consisted of capital expenditures.

Cash provided by financing activities during the first quarter of 2023 and 2022 consisted of net proceeds from share-based compensation activity of \$1.9 million and \$0.6 million, respectively, partially offset by term loan payments of \$1.9 million.

Critical Accounting Estimates

Our consolidated financial statements have been prepared in accordance with U.S. GAAP. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, sales, expenses, and related disclosures. We base our estimates on historical experience and on various other assumptions that we believe are reasonable under the circumstances. We evaluate our estimates and assumptions on an ongoing basis. Actual results may differ from these estimates. To the extent that there are material differences between these estimates and our actual results, our future financial statements will be affected.

The critical accounting policies requiring estimates, assumptions, and judgments that we believe have the most significant impact on our consolidated financial statements are identified and described in our annual consolidated financial statements and the notes included in our 2022 Annual Report on Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exchange Risk

Substantially all of our sales arrangement with customers, and the significant majority of our arrangements with third-party suppliers, provide for pricing and payment in U.S. dollars and, therefore, are not subject to material exchange rate fluctuations. As a result, we do not expect foreign currency exchange rate fluctuations to have a material effect on our results of operations. However, increases in the value of the U.S. dollar relative to other currencies would make our products more expensive relative to competing products priced in such other currencies, which could negatively impact our ability to compete. Conversely, decreases in the value of the U.S. dollar relative to other currencies could result in our foreign suppliers raising their prices in order to continue doing business with us.

We have certain operating expenses that are denominated in currencies of the countries in which our operations are located, and may be subject to fluctuations due to foreign currency exchange rates, particularly the Singapore dollar, Malaysian ringgit, British pound, euro, Korean won, and Mexican peso. Fluctuations in foreign currency exchange rates may cause us to recognize transaction gains and losses in our statement of operations. To date, foreign currency transaction gains and losses have not been material to our financial statements, and we have not engaged in any foreign currency hedging transactions.

Interest Rate Risk

We had total indebtedness of \$300.6 million as of March 31, 2023, exclusive of \$1.7 million in debt issuance costs, of which \$7.5 million was due within 12 months. We do not enter into investments for trading or speculative purposes and have not used any derivative financial instruments to manage our interest rate risk exposure. We have not been, nor do we anticipate being exposed to, material risks due to changes in interest rates. As of March 31, 2023, the interest rate on our outstanding debt is based on BSBY, plus an applicable rate depending on our leverage ratio. A hypothetical 100 basis point change in the interest rate on our outstanding debt would have resulted in a \$0.8 million change to interest expense during the quarter, or \$3.0 million on an annualized basis.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer (the certifying officers), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act, as amended (“the Exchange Act”)) as of December 30, 2022. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based on this evaluation, our certifying officers concluded that our disclosure controls and procedures were not effective as of March 31, 2023, due to a material weakness in internal control over financial reporting that was disclosed in Part II – Item 9A of our 2022 Annual Report on Form 10-K.

Limitations on Effectiveness of Controls and Procedures

A company’s internal control over financial reporting is a process designed by, or under the supervision of, a company’s principal executive and principal financial officers, or persons performing similar functions, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with GAAP. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate. If we cannot provide reliable financial information, our business, operating results, and share price could be negatively impacted.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the period covered under this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Remediation

As previously described in *Part II – Item 9A, Controls and Procedures* of our Annual Report on Form 10-K for the fiscal year ended December 30, 2022, we are implementing a remediation plan to address the material weakness mentioned above. The weakness will not be considered remediated until the applicable controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. We expect the remediation of the material weakness to be completed prior to the end of fiscal year 2023.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are currently not a party to any material pending or threatened litigation.

ITEM 1A. RISK FACTORS

This quarterly report should be read in conjunction with the risk factors included in our 2022 Annual Report on Form 10-K. There have been no material changes in our risk factors from the risk factors disclosed in that report. These risk factors do not identify all risks that we face – our operations could also be affected by factors that are not presently known to us or that we currently consider to be immaterial to our operations. Due to risks and uncertainties, known and unknown, our past financial results may not be a reliable indicator of future performance and historical trends should not be used to anticipate results or trends in future periods.
