

**Helmerich & Payne
Quality Policy Statement**

Helmerich & Payne ("H&P") is a performance driven solutions provider and a leader in the oil and gas drilling industry committed to safety, customer satisfaction, efficiency, productivity, and innovation. This commitment is demonstrated in our Quality Policy and enforced through use of our Quality Management System ("QMS"). H&P's QMS was developed in alignment with ISO 9001:2015 standards.

H&P's executive leadership team is ultimately responsible for implementing and maintaining the QMS, while all H&P employees will understand the importance of the QMS and their individual responsibility in contributing to its success.

H&P's Quality Policy shows our commitment to:

- Putting customers first by consistently meeting needs and enhancing satisfaction;*
- Working efficiently by aligning processes with organizational activities;*
- Ensuring ethical procedures are used via an internal audit program and regular internal compliance department review;*
- Complying with statutory and regulatory requirements;*
- Identifying and addressing risks;*
- Making sure all H&P employees have adequate resources to perform their jobs and provide high quality products and services to customers;*
- Preventing harm to employees, customers, third parties, and the environment; and*
- Providing extensive training for all H&P employees regarding safety, quality, and other aspects of H&P's business.*

The H&P QMS is compliant with ISO 9001:2015. H&P will periodically review this Quality Policy Statement in an effort to promote continual improvement.
