FFIC FLUSHING Financial Corporation

Flushing Financial Corporation Reports 1Q25 Results;

Net Interest Income and Margin Expand While Goodwill Impairment Causes Loss

"In a quarter marked by shifting economic conditions, Flushing Financial Corporation has demonstrated strategic progress amidst ongoing challenges. While navigating an inverted yield curve and increased economic uncertainty, we achieved important improvements in our core operations. Our GAAP and Core Net Interest Margins expanded by 12 and 24 basis points QoQ, respectively, reflecting our proactive approach to challenging market conditions. Although we recorded a non-cash goodwill impairment charge of \$17.6 million in the recent quarter, this accounting adjustment has no impact on our regulatory capital ratios or liquidity position. Our liquidity remains strong with \$4.0 billion in undrawn lines and resources, and our TCE/TA¹ ratio stands at a solid 7.79% as of March 31, 2025. While asset quality metrics showed some softening, our strong underwriting discipline, low loan-to-value ratios, and high debt service coverage ratios position us to effectively manage credit risk going forward. As we move through 2025, we remain focused on our strategic priorities: improving profitability, maintaining credit discipline, and preserving strong liquidity and capital – foundations that will enable us to navigate the current economic environment while continuing to build long-term value for our shareholders, customers, and communities."

UNIONDALE, N.Y., April 29, 2025 – **NIM Expansion and Average Deposit Growth.** The Company reported first quarter 2025 GAAP Loss Per Share of \$(0.29) and Core EPS of \$0.23. The primary difference between GAAP and Core earnings was the goodwill impairment charge. Significantly, NIM expanded 12 bps on a GAAP basis QoQ to 2.51% and 24 bps on a Core basis to 2.49%. The NIM expansion was driven by the cost of funds declining 22 bps to 3.13%, partially offset by a 9 bps decline in the yield on interest earning assets to 5.51%. Average loans decreased 1.9% YoY and 1.6% QoQ, due to pricing and quality standards. Average deposits increased 6.8% YoY and 1.5% QoQ. Period end noninterest bearing deposits increased 5.9% YoY and 3.2% QoQ.

Credit Metrics Remain Manageable and Capital Stable QoQ. NPAs to assets were 71 bps compared to 57 bps the prior quarter. The increase primarily related to one previously identified multifamily relationship. Criticized and classified loans totaled 133 bps of gross loans compared to 107 bps in the prior quarter. The increase primarily relates to one office credit, which lost its primary tenant. Net charge-offs to average loans were 27 bps in 1Q25 compared to 28 bps in 4Q24 and primarily related to three commercial business relationships, which had reserves previously allocated. TCE/TA was 7.79% at March 31, 2025, compared to 7.82% at December 31, 2024.

⁽¹⁾ Ratios are presented on an annualized basis, where appropriate.

⁽²⁾ Yields are calculated on the tax equivalent basis using the statutory federal income tax rate of 21% for the periods presented.

(3) Efficiency ratio, a non-GAAP measure, was calculated by dividing core noninterest expense (excluding OREO expense and the net gain/loss from the sale of OREO) by the total of core net interest income and core noninterest income.

⁽⁴⁾ Calculated by dividing stockholders' equity by shares outstanding.

(5) Calculated by dividing tangible stockholders' common equity, a non-GAAP measure, by shares outstanding. Tangible stockholders' common equity is stockholders' equity less intangible assets. See "Calculation of Tangible Stockholders' Common Equity to Tangible Assets".

⁽⁶⁾ See "Calculation of Tangible Stockholders' Common Equity to Tangible Assets".

FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES RECONCILIATION OF GAAP (LOSS) EARNINGS and CORE EARNINGS

Non-cash Fair Value Adjustments to GAAP (Loss) Earnings

The variance in GAAP (loss) and core earnings is partly driven by the impact of non-cash net gains and losses from fair value adjustments. These fair value adjustments relate primarily to borrowings carried at fair value under the fair value option.

Core Net Income, Core Diluted EPS, Core ROAE, Core ROAA, Pre-provision Pre-tax Net Revenue, Core Net Interest Income FTE, Core Net Interest Margin FTE, Core Interest Income and Yield on Total Loans, Core Noninterest Income, Core Noninterest Expense and Tangible Book Value per common share are each non-GAAP measures used in this release. A reconciliation to the most directly comparable GAAP financial measures appears below in tabular form. The Company believes that these measures are useful for both investors and management to understand the effects of certain interest and noninterest items and provide an alternative view of the Company's performance over time and in comparison, to the Company's competitors. These measures should not be viewed as a substitute for net income. The Company believes that tangible book value per common share is useful for both investors and management as this measure is commonly used by financial institutions, regulators, and investors to measure the capital adequacy of financial institutions. The Company believes these measures facilitate comparison of the quality and composition of the Company's capital over time and in comparison. These measures should not be viewed as a substitute for total shareholders' equity.

These non-GAAP measures have inherent limitations, are not required to be uniformly applied and are not audited. They should not be considered in isolation or as a substitute for analysis of results reported under GAAP. These non-GAAP measures may not be comparable to similarly titled measures reported by other companies.
