Dear Shareholders,

During 2022, we faced a number of obstacles which were made even more difficult by the slowdown in business which the industry began to experience in the second quarter. The decision by Invista to exit the stainmaster nylon business has had a significant impact on our Company. Initially, we were not aware that their exit would be so abrupt and abusive. Starting in 2020, Invista began increasing prices dramatically which continued into last year. The increases were of a magnitude that could not be passed on to our customers. These actions meant we had to source product elsewhere as rapidly as possible. These actions significantly increased our costs and consumed the time of our operations. Concurrently, nylon raw material from all sources increased significantly which impacted our competitiveness in the marketplace. The actions by Invista ultimately led to our loss of Dixie Home's entire business with Lowes.

Our team did an excellent job of replicating our stainmaster products in the field with new sources of raw material but the one-time costs incurred were enormous and it meant delaying of new products until late in the year.

At the same time we were working through the issues which were created by Invista, our hard surface business along with the industry was impacted by logistical issues and exorbitant ocean freight rates which rose rapidly to unprecedented levels. These costs also could not be fully passed on to our customers. Fortunately, those rates now have returned to more normal levels.

We also experienced significant costs in restructuring our east coast carpet manufacturing to reflect the loss of the Lowes business and the slowdown of demand starting in the second quarter. This entailed ceasing yarn and carpet manufacturing in our Atmore plant and starting the repurposing of the plant to accommodate equipment to produce luxury vinyl tile and to locate our hard surface distribution to this facility.

Atmore today is the distribution center for hard surface, but due to economic changes we decided to postpone our plan to locate LVT manufacturing in the plant.

The loss of the Lowes business and the general reduction in demand impacted our 4th quarter results. In order to reduce inventory levels to match our sales levels, we had temporary shutdowns in several facilities and reduced hours worked in others which resulted in significant unabsorbed fixed costs. In the quarter the combination of the lower volume, plant shutdowns and curtailments and the consumption of higher cost product inventory decreased our financial results.

As a result of the issues with which we were faced we embarked on an extensive cost reduction plan. Under this plan we began this year with 24% fewer people in our company and should reduce costs in 2023 in excess of 40 million dollars. We are also taking other actions to preserve cash and continue to reduce inventories during 2023.

Even though we are expecting this year to be a challenging one with the cost reductions in place and growth initiatives being implemented we expect our results to be much improved.

As we enter 2023, the uncertainty in the economy largely due to inflation and higher interest rates leads us to believe our markets will not show growth this year. While we think our core business will be sluggish, we do anticipate growth from our recent growth initiatives.

Our hard surface growth initiative began in 2017 with 2 collections in the WPC segment. Although the initial launch was successful, it quickly became clear that we needed to increase our talent level and focus on the hard surface category to make this a meaningful part of our business and be successful in the long run. In mid-2018, we hired Jamann Stepp as VP Hard Surfaces. Jamann came from Coretec, the leading brand in the resilient segment. Jamann developed the TRUCOR brand as well as a high-end wood program, and created a product strategy which worked well for our 3-tier sales team structure.

Over the next 4 years, with Jamann's leadership, we have expanded our offering to include 200+ SKUs of WPC/SPC/LVT, over 50 SKUs of engineered wood, and we have entered the laminate category which is making a resurgence in the market with water-resistant technology advancements. And, we have seen the hard surface segment grow to \$50M and represent about 20% of our sales.

Our second growth initiative revolves around the exit of stainmaster fiber from the market and the growth of polyester products in the floorcovering business.

We have had success with polyester products over the years but have not been a major player. We have been able to access certain differentiated products which fit into our Dixie Home offering. We now have also been able to source polyester yarn at competitive prices so that we are now applying our best-in-industry product development capabilities to the polyester category.

In 2022 our polyester business grew 49% and in 2023 we are introducing 9 new products in our Dixie Home division. The early market reaction has been phenomenal, and we are projecting sales growth of 75% for the year. Beyond 2023, we are planning additional introductions taking advantage of our unique sources. This will continue to be an important part of our Dixie Home offering.

The high-end wool business has been part of TDG's portfolio for 15 years. However, we have been primarily focused on internally tufted wool products. While we have enjoyed success in this category, there has been a shift in consumer preference from a style/design standpoint. The shift has been toward more distinct patterns in woven, hand-loomed, and hand-tufted

constructions. These types of products have been a very small part of our offering.

To address these changes and grow our business in 2021, we hired Len Andolino to lead our high-end decorative segment. Len has 35+ years in this segment, and understands this business very well including the landscape of suppliers, products, and key customers.

Len developed a 3-year strategy and plan to refresh and relaunch this category. And, in 2022, we unveiled 1866 by Masland (keying on the year Masland was founded) and Décor by Fabrica (keying on the notion of Fabrica's reputation for high-end, best-in-class products). These new programs with new brands and 27 fresh, new styles were very well received by the market.

In 2023, we are launching another 30 new styles into 1866 and Décor lines. And, we are also launching the 1866 All Seasons Collection, featuring 15 new styles which are suitable for use both indoors and outdoors. Market reception to the new styles has again been very positive in 2023, and we anticipate growth in this category of 29% for the year.

During the last year, we have taken numerous actions to improve short-term results and are making structural changes to help us deal with current market conditions. Simultaneously, we have been investing in the future through our growth initiatives. These actions should have us well positioned for future growth when business conditions improve.

Fortunately, there still appears to be a market demand for more housing in our country and the increase in home values could be a catalyst for more investment in residential remodeling.

We want to thank our associates for their dedication and hard-work during a challenging period. Despite these trials the Dixie team had the second safest year ever. We also want to express our appreciation for our customers who have continued to partner with us as we transition our Company to better meet the needs and desires of our ultimate consumers.

Our Products

Fabrica, Masland, Dixie Home, and TRUCOR® are our residential brands. Through each brand, we provide differentiated styles, designs, constructions, and colors to meet the needs of a broad range of customers. With a combination of creativity and technology, we develop and produce innovative and differentiated products that transform the home interiors of today's diverse consumer base. We proudly market our products domestically and internationally. Although broadloom carpet remains our primary category, we have grown significantly in the hard surface segment with our TRUCOR® rigid core, Fabrica Fine Wood, and the newly introduced Dixie Home Hardwood offerings. These programs complement our soft surface offering and strategically enhance our position in the residential flooring market.

We continue to innovate within our new decorative programs, 1866 by Masland and Décor by Fabrica, and will continue to add to the collections. This product segment speaks to the heart of our design-inspired consumers. The decorative programs are a key growth initiative. In addition, we plan for continued innovation by adding a new collection, All Seasons, featuring products suited for use inside and outside the home.

As we continue to diversify and strengthen our overall product offering, our mission remains the same...to create the world's most beautiful floors.

Affordable Fashion.

At Dixie Home, we believe all families deserve beautiful flooring. We have drawn from decades of experience in yarn processing and carpet manufacturing to fulfill that vision. We combine the latest patterns with on-trend colors. We use the highest quality and best performing yarns. We offer a broad collection of styles that meet the needs of a wide range of consumers. We do these things because we don't want to be remembered just for our good looks...we want to be remembered for our good looks that last! Live your life on us!

FORWARD-LOOKING INFORMATION

This Report contains statements that may be considered forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements include the use of terms or phrases such as "expects," "estimates," "projects," "believes," "anticipates," "intends," and similar terms and phrases. Such forward-looking statements relate to, among other matters, our future financial performance, business prospects, growth strategies or liquidity. The following important factors may affect our future results and could cause those results to differ materially from our historical results; these factors include, in addition to those "Risk Factors" detailed in Item 1A of this report, and described elsewhere in this document, the cost and availability of capital, raw material and transportation costs related to petroleum price levels, the cost and availability of energy supplies, the loss of a significant customer or group of customers, the ability to attract, develop and retain qualified personnel, materially adverse changes in economic conditions generally in carpet, rug and floorcovering markets we serve and other risks detailed from time to time in our filings with the Securities and Exchange Commission.

PART I.

Item 1. BUSINESS

General

Our business consists principally of marketing, manufacturing and selling floorcovering products to high-end residential customers through our various sales forces and brands. We focus exclusively on the upper-end of the floorcovering market where we believe we have strong brands and competitive advantages with our style and design capabilities and customer relationships. Our Fabrica, Masland, and Dixie Home brands have a significant presence in the high-end residential floorcovering markets.

Our business participates in markets for soft floorcoverings, which include broadloom carpet and rugs, and hard surfaces, which include luxury vinyl flooring (LVF) and engineered wood. There has been a significant shift in the flooring marketplace as hard surface products have grown at a rate much faster than soft surface products. We responded to this accelerated shift to hard surface flooring by launching several initiatives in hard surface offerings. We launched TRUCOR™ and TRUCOR Prime™ offering LVF products. In 2022, we experienced significant growth in sales of our TRUCOR™ family of products, including our new TRUCOR Boardwalk collection, and our Fabrica Wood program. In 2022, we introduced our new decorative programs, 1866 by Masland and Decor by Fabrica, which are targeted at high end, luxury soft surface markets including wool broadloom and decorative rugs.

We have one reportable segment, Floorcovering.

Our Brands

Our brands are well known, highly regarded and offer meaningful alternatives to the discriminating customer.

Fabrica markets and manufactures luxurious residential carpet, custom rugs, and engineered wood at selling prices that we believe are approximately five times the average for the residential soft floorcovering industry. Its primary customers are interior decorators and designers, selected retailers and furniture stores, luxury home builders and manufacturers of luxury motor coaches and yachts. Fabrica is among the leading premium brands in the domestic marketplace and is known for styling innovation and unique colors and patterns. Fabrica consists of extremely high quality carpets and area rugs in both nylon and wool, with a wide variety of patterns and textures. Fabrica is viewed by the trade as the premier quality brand for very high-end carpet and enjoys an established reputation as a styling trendsetter and a market leader in providing both custom and designer products to the very high-end residential sector.

Masland Residential, founded in 1866, markets and manufactures design-driven specialty carpets and rugs for the high-end residential marketplace. In addition, it offers luxury vinyl flooring products to the marketplace it serves. Its residential broadloom carpet products are marketed at selling prices that we believe are over three times the average for the residential soft floorcovering industry. Its products are marketed through the interior design community, as well as to consumers through specialty floorcovering retailers. Masland Residential has strong brand recognition within the upper-end residential market. Masland Residential competes through innovative styling, color, product design, quality and service.

Dixie Home provides stylishly designed, differentiated products that offer affordable fashion to residential consumers. Dixie Home markets an array of residential tufted broadloom carpet and rugs to selected retailers and home centers under the Dixie Home and private label brands. In addition, it offers luxury vinyl flooring products to the marketplace it serves. Its objective is to make the Dixie Home brand the choice for styling, service and quality in the more moderately priced sector of the high-end residential market. Its products are marketed at selling prices which we believe average two times the soft floorcovering industry's average selling price.

Industry

We are a flooring manufacturer in an industry composed of a wide variety of companies from small privately held firms to large multinationals. In 2021, according to the most recent information available, the U.S. floorcovering industry reported \$33.6 billion in sales, up approximately 21.7% from the 2020 sales total. In 2021, the primary categories of flooring in the U.S., based on sales dollars, were carpet and rug (39%), luxury vinyl flooring (LVF) (22%), wood (13%), ceramic tile (12%), stone (6%), vinyl (4%), and laminate and other (4%). In 2021, the primary categories of flooring in the U.S., based on square feet, were carpet and rug (45%), luxury vinyl flooring (LVF) (23%), ceramic tile (13%), vinyl (7%), wood (6%), laminate (4%), and stone and other (2%). Each of these categories is influenced by the residential construction, commercial construction, and residential remodeling markets. These markets are influenced by many factors including consumer confidence, spending for durable goods, turnover in housing and the overall strength of the economy.

The carpet and rug category has two primary markets, residential and commercial, with the residential market making up the largest portion of the industry's sales. A substantial portion of industry shipments is made in response to replacement demand. Residential products consist of broadloom carpets and rugs in a broad range of styles, colors and textures. Commercial products consist primarily of broadloom carpet and modular carpet tile for a variety of institutional applications such as office buildings, restaurant chains, schools and other commercial establishments. The carpet industry also manufactures carpet for the automotive, recreational vehicle, small boat and other industries.

The Carpet and Rug Institute (the "CRI") is the national trade association representing carpet and rug manufacturers. Information compiled by the CRI suggests that the domestic carpet and rug industry is comprised of fewer than 100 manufacturers, with a significant majority of the industry's production concentrated in a limited number of manufacturers focused on the lower end of the price curve. We believe that this industry focus provides us with opportunities to capitalize on our competitive strengths in selected markets where innovative styling, design, product differentiation, focused service and limited distribution add value.

Competition

The floorcovering industry is highly competitive. We compete with other carpet, rug and hard surface manufacturers. In addition, the industry provides multiple floorcovering surfaces such as luxury vinyl tile and wood. Though soft floorcovering is still the dominant floorcovering surface, it has gradually lost market share to hard floorcovering surfaces over the last 25 years. We believe our products are among the leaders in styling and design in the high-end residential carpet markets. However, a number of manufacturers produce competitive products and some of these manufacturers have greater financial resources than we do.

We believe the principal competitive factors in our primary floorcovering markets are styling, color, product design, quality and service. In the high-end residential markets, we compete with various other floorcovering suppliers. Nevertheless, we believe we have competitive advantages in several areas. We have an attractive portfolio of brands that we believe are well known, highly regarded by customers and complementary; by being differentiated, we offer meaningful alternatives to the discriminating customer. We believe our investment in new yarns and innovative tufting and dyeing technologies, strengthens our ability to offer product differentiation to our customers. In addition, we have established longstanding relationships with key suppliers of luxury vinyl flooring and with significant customers in most of our markets. Finally, our reputation for innovative design excellence and our experienced management team enhance our competitive position. See "Risk Factors" in Item 1A of this report.

Backlog

Sales order backlog is not material to understanding our business, due to relatively short lead times for order fulfillment in the markets for the vast majority of our products.

Trademarks

Our floorcovering businesses own a variety of trademarks under which our products are marketed. Among such trademarks, the names "Fabrica", "Masland", "Dixie Home" and TRUCOR™ are of greatest importance to our business. We believe that we have taken adequate steps to protect our interest in all significant trademarks.

Customer and Product Concentration

As a percentage of our net sales, one customer, a mass merchant, accounted for approximately 3% in 2022 and 9% in 2021 and as a percentage of our customer's trade accounts receivable, accounted for approximately 0% in 2022 and 20% in 2021. No customer was more than 10 percent of our net sales during the periods presented. During 2022, sales to our top ten customers accounted for approximately 8% of our sales and our top 20 customers accounted for approximately 12% of our sales. We do not make a material amount of sales in foreign countries.

We do not have any single class of products that accounts for more than 10% of our sales.

Seasonality

Our sales historically have normally reached their highest level in the second quarter (approximately 26% of our annual sales) and their lowest levels in the first quarter (approximately 23% of our annual sales), with the remaining sales being distributed relatively equally between the third and fourth quarters. Working capital requirements have normally reached their highest levels in the third and fourth quarters of the year.

Environmental

Our operations are subject to federal, state and local laws and regulations relating to the generation, storage, handling, emission, transportation and discharge of materials into the environment. The costs of complying with environmental protection laws and regulations have not had a material adverse impact on our financial condition or results of operations in the past. See "Risk Factors" in Item 1A of this report.

Raw Materials

Our primary raw material is continuous filament yarn. Nylon is the primary yarn we utilize and, to a lesser extent, wool and polyester yarn is used. Additionally, we utilize polypropylene carpet backing, latex, dyes and chemicals, and man-made topical applications in the construction of our products. The volatility of petroleum prices could adversely affect our supply and cost of synthetic fibers. Our synthetic yarns are purchased primarily from domestic fiber suppliers and wool is purchased from a number of international sources. Our other raw materials are purchased primarily from domestic suppliers, although the majority of our luxury vinyl tile is sourced outside the United States. Normally, we pass raw material price increases through to our customers; however, there can be no assurance that cost increases can be passed through to customers and that increases in raw material prices will not have an adverse effect on our profitability. See "Risk Factors" in Item 1A of this report. There are multiple sources of nylon yarn; however, an unanticipated termination or interruption of our supply arrangements could adversely affect our supplies of raw materials and could have a material effect on our operations. See "Risk Factors" in Item 1A of this report.

Utilities

We use electricity as our principal energy source, with oil or natural gas used in some facilities for dyeing and finishing operations as well as heating. We have not experienced any material problem in obtaining adequate supplies of electricity, natural gas or oil. Energy shortages of extended duration could have an adverse effect on our operations, and price volatility could negatively impact future earnings. See "Risk Factors" in Item 1A of this report.

Working Capital

We are required to maintain significant levels of inventory in order to provide the enhanced service levels demanded by the nature of our business and our customers, and to ensure timely delivery of our products. Consistent and dependable sources of liquidity are required to maintain such inventory levels. Failure to maintain appropriate levels of inventory could materially adversely affect our relationships with our customers and adversely affect our business. See "Risk Factors" in Item 1A of this report.

Human Capital Resources

At December 31, 2022, our total employed associates was 1,138 which included 138 employees under separation agreements.

As stated in the Company's Code of Ethics, Company policy is to promote diversity, prohibit discrimination and harassment in the workplace and to provide a safe and healthy workplace for Company associates.

Item 1A. Risk Factors

In addition to the other information provided in this Report, the following risk factors should be considered when evaluating the results of our operations, future prospects and an investment in shares of our Common Stock. Any of these factors could cause our actual financial results to differ materially from our historical results, and could give rise to events that might have a material adverse effect on our business, financial condition and results of operations.

Our financial condition and results of operations have been and will likely continue to be adversely impacted by the COVID-19 pandemic and the related downturn in economic conditions.

The COVID-19 pandemic continues to impact areas where we operate and sell our products and services. The COVID-19 outbreak in the second quarter of 2020 had a material adverse effect on our ability to operate and our results of operations as public health organizations recommended, and many governments implemented, measures to slow and limit the transmission of the virus, including shelter in place and social distancing ordinances. Although the accessibility of vaccines and other preventive measures have lessened the impact, new variants may necessitate a return of such restrictive, preventive measures which may have a material adverse effect on our business for an indefinite period of time, such as the potential shut down of certain locations, decreased employee availability, disruptions to the businesses of our selling channel partners, and others. Our suppliers and customers may also face these and other challenges, which could lead to a disruption in our supply chain as well as decreased construction and renovation spending and consumer demand for our products and services. These issues may also materially affect our current and future access to sources of liquidity, particularly our cash flows from operations, and access to financing. The long-term economic impact and near-term financial impacts of the COVID-19 pandemic, including but not limited to, potential near term or long-term risk of asset impairment, restructuring, and other charges, cannot be reliably quantified or estimated at this time due to the uncertainty of future developments.

The floorcovering industry is sensitive to changes in general economic conditions and a decline in residential activity or home remodeling and refurbishment could have a material adverse effect on our business.

The floorcovering industry, in which we participate, is highly dependent on general economic conditions, such as interest rate levels, consumer confidence and income, corporate and government spending, availability of credit and demand for housing. We derive a majority of our sales from the replacement segment of the market. Therefore, unfavorable economic changes, such as an economic recession, could result in a significant or prolonged decline in spending for remodeling and replacement activities which could have a material adverse effect on our business and results of operations.

The residential floorcovering market is highly dependent on housing activity, including remodeling. The U.S. and global economies, along with the residential markets in such economies, can negatively impact the floorcovering industry and our business. Although the impact of a decline in new housing activity is typically accompanied by an increase in remodeling and replacement activity, these activities typically lag during a cyclical downturn. Additional or extended downturns could cause prolonged deterioration. A significant or prolonged decline in residential housing activity could have a material adverse effect on our business and results of operations.

We have significant levels of sales in certain channels of distribution and reduction in sales through these channels could adversely affect our business.

A significant amount of our recent past sales were generated through a certain mass merchant retailer. A change in strategy by this customer to emphasize products at a lower price point than we currently offer has limited future sales opportunities with this customer. In response to this loss in sales volume and other factors, we implemented our restructuring plan to consolidate our east coast manufacturing operations to better match production demand. If we are unable to maintain volume in line with expected production capacity, any excess capacity in the manufacturing facilities could result in an unfavorable impact on gross margins due to under absorbed fixed costs.

We have significant levels of indebtedness that could result in negative consequences to us.

We have a significant amount of indebtedness relative to our equity. Insufficient cash flow, profitability, or the value of our assets securing our loans could have a material adverse effect on our ability to generate sufficient funds to satisfy the terms of our senior loan agreements and other debt obligations. Additionally, the inability to access debt or equity markets at competitive rates in sufficient amounts to satisfy our obligations could adversely impact our business. Significant increases in interest rates tied to our floating rate debt could have a material adverse effect on the Company's financial results. Further, our trade relations depend on our economic viability and insufficient capital could harm our ability to attract and retain customers and or supplier relationships.

Uncertainty in the credit market or downturns in the economy and our business could affect our overall availability and cost of credit.

Economic factors, including an economic recession, could have a material adverse effect on demand for our products and on our financial condition and operating results. Uncertainty in the credit markets could affect the availability and cost of credit. Market conditions could impact our ability to obtain financing in the future, including any financing necessary to refinance existing indebtedness. The cost and terms of such financing is uncertain. Continued operating losses could affect our ability to continue to access the credit markets under our current terms and conditions.

If we are not able to maintain a minimum bid price of \$1 per share for our common stock, we may be subject to delisting from The NASDAQ Stock Market.

NASDAQ Marketplace Rule 5550(a)(2) requires that, for continued listing on the exchange, we must maintain a minimum bid price of \$1 per share. We received notice from NASDAQ on January 30, 2023 that our stock had closed below \$1 per share for 30 consecutive business days. If we are not able to regain compliance before July 31, 2023, we may be eligible for an additional 180 days provided we meet other listing requirements. To the extent that we are unable to stay in compliance with the relevant NASDAQ bid price listing rule, there is a risk that our common stock may be delisted from NASDAQ, which would adversely impact liquidity of our common stock and potentially result in even lower bid process for our common stock.

Our stock price has been and could remain volatile, which could further adversely affect the market price of our stock, our ability to raise additional capital.

The market price of our common stock has historically experienced and may continue to experience significant volatility. Our progress in restructuring our business, our quarterly operating results, our perceived prospects, lack of securities analysts' recommendations or earnings estimates, changes in general conditions in the economy or the financial markets, adverse events related to our strategic relationships, significant sales of our common stock by existing stockholders, and other developments affecting us or our competitors could cause the market price of our common stock to fluctuate substantially. In addition, in recent years, the stock market has experienced significant price and volume fluctuations. This volatility has affected the market prices of securities issued by many companies for reasons unrelated to their operating performance and may adversely affect the price of our common stock. Such market price volatility could adversely affect our ability to raise additional capital.

We face intense competition in our industry, which could decrease demand for our products and could have a material adverse effect on our profitability.

The floorcovering industry is highly competitive. We face competition from a number of domestic manufacturers and independent distributors of floorcovering products and, in certain product areas, foreign manufacturers. Significant consolidation within the floorcovering industry has caused a number of our existing and potential competitors to grow significantly larger and have greater access to resources and capital than we do. Maintaining our competitive position may require us to make substantial additional investments in our product development efforts, manufacturing facilities, distribution network and sales and marketing activities. These additional investments may be limited by our access to capital, as well as restrictions set forth in our credit facilities. Competitive pressures and the accelerated growth of hard surface alternatives, have resulted in decreased demand for our soft floorcovering products and in the loss of market share to hard surface products. As a result, competition from providers of other soft surfaces has intensified and may result in decreased demand for our products. In addition, we face, and will continue to face, competitive pressures on our sales price and cost of our products. As a result of any of these factors, there could be a material adverse effect on our sales and profitability.

If we are unable to anticipate consumer preferences and successfully develop and introduce new, innovative and updated products, we may not be able to maintain or increase our net revenues and profitability.

Our success depends on our ability to identify and originate product trends as well as to anticipate and react to changing consumer demands in a timely manner. All of our products are subject to changing consumer preferences that cannot be predicted with certainty. In addition, long lead times for certain products may make it hard for us to quickly respond to changes in consumer demands. New products may not receive consumer acceptance as consumer preferences could shift rapidly to different types of flooring products or away from these types of products altogether, and our future success depends in part on our ability to anticipate and respond to these changes. Failure to anticipate and respond in a timely manner to changing consumer preferences could lead to, among other things, lower sales and excess inventory levels, which could have a material adverse effect on our financial condition.

Raw material prices will vary and the inability to either offset or pass on such cost increases or avoid passing on decreases larger than the cost decrease to our customers could have a material adverse effect on our business, results of operations and financial condition.

We require substantial amounts of raw materials to produce our products, including nylon and polyester yarn, as well as wool yarns, synthetic backing, latex, and dyes. Substantially all of the raw materials we require are purchased from outside sources. The prices of raw materials and fuel-related costs have increased significantly due to market conditions and inflationary pressures, the duration and extent of which is difficult to predict. The fact that we source a significant amount of raw materials means that several months of raw materials and work in process are moving through our supply chain at any point in time. We are sourcing the majority of our new luxury vinyl flooring and wood product lines from overseas. We are not able to predict whether commodity costs will significantly increase or decrease in the future. If commodity costs continue to increase in the future and we are not able to reduce or eliminate the effect of the cost increases by reducing production costs or implementing price increases, our profit margins could decrease. If commodity costs decline, we may experience pressures from customers to reduce our selling prices. The timing of any price reductions and decreases in commodity costs may not align. As a result, our margins could be affected.

Disruption to suppliers of raw materials could have a material adverse effect on us.

Nylon yarn is the principal raw material used in our floorcovering products. One of the leading fiber suppliers within the industry had been the exclusive supplier of certain branded fibers upon which we formerly relied. Access to these branded fibers is no longer available. We have developed and are developing products and product offerings using fiber systems from other fiber suppliers, but there can be no certainty as to the success of our efforts to develop and market such products. Additionally, the supply of all nylon yarn and yarn systems has been negatively impacted by a variety of overall market factors. The cost of nylon yarns has risen significantly and availability of nylon yarns has been restricted. Our efforts to develop alternate sources and to diversify our yarn suppliers has been met with success to date; however, supply constraints may impact our ability to successfully develop products and effectively service our customers. An interruption in the supply of these or other raw materials or sourced products used in our business or in the supply of suitable substitute materials or products would disrupt our operations, which could have a material adverse effect on our business. We continually evaluate our sources of yarn and other raw materials for competitive costs, performance characteristics, brand value, and diversity of supply.

We rely on information systems in managing our operations and any system failure or deficiencies of such systems may have an adverse effect on our business.

Our businesses rely on sophisticated systems to obtain, rapidly process, analyze and manage data. We rely on these systems to, among other things, facilitate the purchase, manufacture and distribution of our products; receive, process and ship orders on a timely basis; and to maintain accurate and up-to-date operating and financial data for the compilation of management information. We rely on our computer hardware, software and network for the storage, delivery and transmission of data to our sales and distribution systems, and certain of our production processes are managed and conducted by computer. Any damage by unforeseen events or system failure which causes interruptions to the input, retrieval and transmission of data or increase in the service time, whether caused by human error, natural disasters, power loss, computer viruses, intentional acts of vandalism, various forms of cybercrimes including and not limited to hacking, ransomware, intrusions and malware or otherwise, could disrupt our normal operations. Depending upon the severity of the incident, there can be no assurance that we can effectively carry out our disaster recovery plan to handle a failure of our information systems, or that we will be able to restore our operational capacity within sufficient time to avoid material disruption to our business. The occurrence of any of these events could cause unanticipated disruptions in service, decreased customer service and customer satisfaction and harm to our reputation, which could result in loss of customers, increased operating expenses and financial losses. Any such events could in turn have a material adverse effect on our business, financial condition, results of operations, and prospects.

On April 17, 2021, we detected a ransomware attack on portions of our information technology systems. We initiated recovery efforts and implemented additional security measures in response. All companies are subject to such attacks by cyber criminals as they become more frequent and their ability to circumvent security measures become more sophisticated.

The long-term performance of our business relies on our ability to attract, develop and retain qualified personnel.

To be successful, we must attract, develop and retain qualified and talented personnel in management, sales, marketing, product design and operations. We compete with other floorcovering companies for these employees and invest resources in recruiting, developing, motivating and retaining them. The failure to attract, develop, motivate and retain key employees could negatively affect our business, financial condition and results of operations.

We are subject to various governmental actions that may interrupt our supply of materials.

We import most of our luxury vinyl flooring ("LVF"), some of our wood offering, some of our rugs and broadloom offerings. Though currently a small part of our business, the growth in LVF products is an important product offering to provide our customers a complete selection of flooring alternatives. There have been trade proposals that threatened these product categories with added tariffs which would make our offerings less competitive compared to those manufactured in other countries or produced domestically. These proposals, if enacted, or if expanded, or imposed for a significant period of time, would materially interfere with our ability to successfully enter into these product categories and could have a material adverse effect upon the company's cost of goods and results of operations.

Regulatory efforts to monitor political, social, and environmental conditions in foreign countries that produce products or components of products purchased by the Company will necessarily add complexity and cost to the Company's products and processes and may reduce the availability of certain products. Regulatory efforts to prevent or reduce the risk that certain flooring products or elements of such products are produced in regions where forced or involuntary labor are known or believed to occur will result in increased cost to the Company as it attempts to ensure that none of its products or components of its products are produced in such regions. Such increased cost may make the Company's products less competitive.

We may experience certain risks associated with internal expansion, acquisitions, joint ventures and strategic investments.

We continually look for strategic and tactical initiatives, including internal expansion, acquisitions and investment in new products, to strengthen our future and to enable us to return to sustained growth and to achieve profitability. Growth through expansion and acquisition involves risks, many of which may continue to affect us after the acquisition or expansion. An acquired company, operation or internal expansion may not achieve the levels of revenue, profitability and production that we expect. The combination of an acquired company's business with ours involves risks. Further, internally generated growth that involves expansion involves risks as well. Such risks include the integration of computer systems, alignment of human resource policies and the retention of valued talent. Reported earnings may not meet expectations because of goodwill and intangible asset impairment, other asset impairments, increased interest costs and issuance of additional securities or debt as a result of these acquisitions. We may also face challenges in consolidating functions and integrating our organizations, procedures, operations and product lines in a timely and efficient manner.

The diversion of management attention and any difficulties encountered in the transition and integration process could have a material adverse effect on our revenues, level of expenses and operating results. Failure to successfully manage and integrate an acquisition with our existing operations or expansion of our existing operations could lead to the potential loss of customers of the acquired or existing business, the potential loss of employees who may be vital to the new or existing operations, the potential loss of business opportunities or other adverse consequences that could have a material adverse effect on our business, financial condition and results of operations. Even if integration occurs successfully, failure of the expansion or acquisition to achieve levels of anticipated sales growth, profitability or productivity, or otherwise perform as expected, may have a material adverse effect on our business, financial condition and results of operations.

We are subject to various environmental, safety and health regulations that may subject us to costs, liabilities and other obligations, which could have a material adverse effect on our business, results of operations and financial condition.

We are subject to various environmental, safety and health and other regulations that may subject us to costs, liabilities and other obligations which could have a material adverse effect on our business. The applicable requirements under these laws are subject to amendment, to the imposition of new or additional requirements and to changing interpretations of agencies or courts. We could incur material expenditures to comply with new or existing regulations, including fines and penalties and increased costs of our operations. Additionally, future laws, ordinances, regulations or regulatory guidelines could give rise to additional compliance or remediation costs that could have a material adverse effect on our business, results of operations and financial condition. For example, producer responsibility regulations regarding end-of-life disposal could impose additional cost and complexity to our business.

The Environmental Protection Agency has declared an intent to focus on perceived risks posed by certain chemicals (principally PFOA and PFOAS) previously used by the carpet industry. New or revised regulatory actions could result in requirements that industry participants, including the Company, incur costs related to testing and clean up of areas affected by such chemical usage. Other chemicals or materials historically used by the industry and the Company could become the focus of similar governmental action.

Various federal, state and local environmental laws govern the use of our current and former facilities. These laws govern such matters as:

- Discharge to air and water;
- Handling and disposal of solid and hazardous substances and waste, and
- Remediation of contamination from releases of hazardous substances in our facilities and off-site disposal locations.

The Company is a manufacturer and distributor of flooring products which require processes and materials that necessarily utilize substantial amounts of carbon-based energy and accordingly involve the emission of "greenhouse gasses." Regulatory monitoring, reporting and, more generally, efforts to eliminate or substantially reduce "greenhouse gasses" will necessarily add complexity and cost to the Company's products and processes decreasing profitability and consumer demand. Additionally, consumer preferences may be affected by publicly announced issues related to "greenhouse gasses" which may negatively affect demand for the Company's products. There can be no assurance that the Company can cost effectively respond to any such regulatory efforts or that demand for the Company's products can be sustained under such pressures.

Our operations also are governed by laws relating to workplace safety and worker health, which, among other things, establish noise standards and regulate the use of hazardous materials and chemicals in the workplace. We have taken, and will continue to take, steps to comply with these laws. If we fail to comply with present or future environmental or safety regulations, we could be subject to future liabilities. However, we cannot ensure that complying with these environmental or health and safety laws and requirements will not adversely affect our business, results of operations and financial condition.

We may be exposed to litigation, claims and other legal proceedings in the ordinary course of business relating to our products or business, which could have a material adverse effect on our business, results of operations and financial condition.

In the ordinary course of business, we are subject to a variety of work-related and product-related claims, lawsuits and legal proceedings, including those relating to product liability, product warranty, product recall, personal injury, and other matters that are inherently subject to many uncertainties regarding the possibility of a loss to our business. Such matters could have a material adverse effect on our business, results of operations and financial condition if we are unable to successfully defend against or resolve these matters or if our insurance coverage is insufficient to satisfy any judgments against us or settlements relating to these matters. Although we have product liability insurance, the policies may not provide coverage for certain claims against us or may not be sufficient to cover all possible liabilities. Further, we may not be able to maintain insurance at commercially acceptable premium levels. Additionally, adverse publicity arising from claims made against us, even if the claims are not successful, could adversely affect our reputation or the reputation and sales of our products.

Our business operations could suffer significant losses from natural disasters, catastrophes, fire or other unexpected events.

Many of our business activities involve substantial investments in manufacturing facilities and many products are produced at a limited number of locations. These facilities could be materially damaged by natural disasters, such as floods, tornadoes, hurricanes and earthquakes, or by fire or other unexpected events such as adverse weather conditions or other disruptions to our facilities, supply chain or our customer's facilities. We could incur uninsured losses and liabilities arising from such events, including damage to our reputation, and/or suffer material losses in operational capacity, which could have a material adverse impact on our business, financial condition and results of operations.

Item 2. PROPERTIES

The following table lists our facilities according to location, type of operation and approximate total floor space as of February 24, 2023:

Location	Type of Operation	Approximate Square Feet
Administrative:		
Saraland, AL*	Administrative	29,000
Santa Ana, CA*	Administrative	4,000
Calhoun, GA	Administrative	10,600
Dalton, GA*	Administrative	50,800
	Total Administrative	94,400
Manufacturing and Distribution:		
Atmore, AL	Distribution	610,000
Roanoke, AL	Carpet Yarn Processing	204,000
Saraland, AL*	Distribution	384,000
Porterville, CA*	Carpet Yarn Processing	249,000
Santa Ana, CA*	Carpet and Rug Manufacturing, Distribution	200,000
Adairsville, GA	Samples and Rug Manufacturing, Distribution	292,000
Calhoun, GA	Carpet Dyeing & Processing	193,300
Eton, GA	Carpet Manufacturing, Distribution	408,000
Chatsworth, GA*	Samples Warehouse and Distribution	161,400
	Total Manufacturing and Distribution	2,701,700
* Leased properties	TOTAL	2,796,100

In our opinion, our manufacturing facilities are well maintained and our machinery is efficient and competitive. Operations of our facilities generally vary between 120 and 168 hours per week. Substantially all of our owned properties are subject to mortgages, which secure the outstanding borrowings under our senior credit facilities.

Item 3. LEGAL PROCEEDINGS

We have been sued, together with approximately 90 other defendants, in a lawsuit styled: Brenda E. Bostian, individually and as representative of the Estate of Hoyle Steven Bostian, deceased, case number 2021-CP-40-04877 South Carolina Court of Common Pleas, Fifth Judicial Circuit- Richland County (Columbia SC), alleging that indirect exposure to asbestos at a plant in North Carolina contributed to the wrongful death of Mr. Bostian. The complaint alleges that Mr. Hoyle Bostian's father worked at a facility in North Carolina where he was exposed to asbestos and that Mr. Bostian's exposure indirectly caused Mr. Bostian (the decedent) to be exposed to asbestos. The plaintiff's "secondary" exposure allegedly occurred in the 1950s - prior to our 1987 acquisition of China Grove Cotton Mills, the company that owned the facility. No damage amount has been alleged. We have denied liability and are vigorously defending the matter.

We have been sued together with several other defendants, in a lawsuit styled: James Franklin Davis and Vera C. Davis v. 3M Company, et al., in the court of Common Pleas, Fifth Judicial Circuit, County of Richmond, State of South Carolina (C/A NO. 2022-CP-40-02381) alleging various health related and economic damages resulting from alleged exposure to asbestos at a plant in North Carolina formerly owned by our Company. No specific amount of damages is claimed. We have denied liability and are vigorously defending the matter.

(1) On August 3, 2022, the Company's Board of Directors approved the repurchase of up to \$3.0 million of the Company's common stock. Purchases, as reported in the table above, were made under a plan pursuant to Rule 10b-5-1 of the Securities and Exchange Act ("10b-5-1 Plan"). Purchases under the 10b-5-1 Plan were conducted to come within Rule 10b-18 and were managed by Raymond James & Associates. The 10b-5-1 Plan ended on December 31, 2022. The board authorization to repurchase shares remains in effect, and the dollar value of shares that may yet be purchased reflects that authorization.

Dividends and Price Range of Common Stock

There is a restriction on the payment of dividends under our revolving credit facility and we have not paid any dividends in the years ended December 31, 2022 and December 25, 2021.

The following table provides the price range of common stock for the four fiscal quarterly periods in the years ended December 31, 2022 and December 25, 2021.

Shareholder Return Performance Presentation

We compare our performance to two different industry indices published by Dow Jones, Inc. The first of these is the Dow Jones US Furnishings Index, which is composed of publicly traded companies classified by Dow Jones in the furnishings industry. The second is the Dow Jones US Building Materials & Fixtures Index, which is composed of publicly traded companies classified by Dow Jones in the building materials and fixtures industry.

Set forth below is a line graph comparing the yearly change in the cumulative total shareholder return on our Common Stock against the total return of the Standard & Poor's Small Cap 600 Stock Index, plus both the Dow Jones US Furnishings Index and the Dow Jones US Building Materials & Fixtures Index, in each case for the five year period ended December 31, 2022. The comparison assumes that \$100.00 was invested on December 30, 2017, in our Common Stock, the S&P Small Cap 600 Index, and each of the two Peer Groups, and assumes the reinvestment of dividends.

The foregoing shareholder performance presentation shall not be deemed "soliciting material" or to be "filed" with the Commission subject to Regulation 14A, or subject to the liabilities of Section 18 of the Exchange Act.

Item 6. [RESERVED]

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report.

OVERVIEW

Our business consists principally of marketing, manufacturing and selling floorcovering products to high-end customers through our various sales forces and brands. We focus primarily on the upper end of the floorcovering market where we believe we have strong brands and competitive advantages with our style and design capabilities and customer relationships. Our Fabrica, Masland, and Dixie Home brands have a significant presence in the high-end residential floorcovering markets. Dixie International sells all of our brands outside of the North American market.

Historically, we participated in the upper end specified commercial flooring marketplace through our Atlas | Masland Contract brand. On September 13, 2021, we sold our Commercial business. As a result of the transaction, we have effectively exited the Commercial Business and now focus exclusively on our residential floorcovering markets. The results of our Commercial business activity are included in discontinued operations in the included financial statements.

RESULTS OF OPERATIONS

Net Sales. Net sales for the year ended December 31, 2022 were \$303.6 million compared with \$341.2 in the year-earlier period, a decrease of 11.0% for the year-over-year comparison. The decrease in net sales in 2022 was primarily the result of the loss of sales through our largest mass merchant customer after the first quarter and lower demand in the second half of the year.

Gross Profit. Gross profit, as a percentage of net sales, decreased 4.9 percentage points in 2022 compared with 2021. In the fourth quarter of 2021, the Company's primary supplier of raw materials for its nylon broadloom products announced an abrupt exit from the business and imposed exorbitantly high price increases on the Company at levels that we were unable to pass on to our customers. The Company completed its conversion to new lower cost raw materials from multiple suppliers in the first part of the third quarter of 2022, but gross profit margins were negatively impacted throughout 2022 as we processed through the higher cost inventory produced in prior periods.

In addition, our gross profit margins in 2022 were negatively impacted by extreme increases in the cost of ocean freight for our imported inventory. Costs for import containers reached levels multiple times the average cost in 2021. The rapid pace and high level of the increases prevented us from being able to pass along all of the costs through our pricing to customers. These rates had returned to lower, more expected levels by the end of 2022.

Inflationary pressure also negatively impacted our gross profit margins in 2022. The costs of our raw materials increased through the first half of 2022 before we started to see some relief in the later part of the year.

Selling and Administrative Expenses. Selling and administrative expenses were \$77.0 million in 2022 compared with \$67.9 million in 2021. Selling and administrative expenses as a percent of the net sales for 2022 and 2021 were 25.4% and 19.9% respectively. Higher investment in samples to support the introduction of our new decorative line of business drove much of the cost increase. The new decorative products were not available to customers until the fourth quarter of 2022 which limited the return on the investment in 2022.

Other Operating (Income) Expense, Net. Net other operating expense was \$239 thousand in 2022 compared with an income of \$927 thousand in 2021. In 2022, the expense was primarily the result of loss on impairment of assets and retirement expenses net of additional insurance proceeds related to a claim at our Roanoke, Alabama facility. In 2021, the income was primarily the result of \$1.7 million in insurance proceeds related to a claim at our Roanoke, Alabama facility partially offset by \$1.1 million in legal expenses.

Facility Consolidation and Severance Expenses, Net. Facility consolidation expenses were \$4.6 million in 2022 compared with \$0.3 million in 2021. The facility consolidation expenses incurred during 2022 were primarily related to our plan for the consolidation of our east coast manufacturing. Subsequent to the divestiture of our commercial business in the third quarter of 2021, we began consolidating our manufacturing facilities on the east coast to better align our production capacity with our sales volume. The expenses in 2021 were primarily related to residual expense activity from the Profit Improvement Plan.

Operating Income (Loss). The operating loss in 2022 was \$28.2 million compared to income of \$10.0 million in 2021. The 2022 loss was the result of lower sales volume due to lower demand and the loss of our largest mass merchant customer, higher costs related to our former primary fiber supplier exiting the business, higher freight cost on imported goods, higher material costs as a result of inflation, increased sample costs and high restructuring expenses from our plan to consolidate the east coast manufacturing.

Interest Expense. Interest expense was \$5.3 million in 2022 compared with \$4.7 million in 2021. The increase is the result of higher interest rates and higher debt incurred in 2022 in order to fund operations.

Income Tax Provision (Benefit). Our effective income tax rate was a benefit of 0.26% in 2022. The benefit relates to federal and state cash taxes paid offset by certain federal and state credits and also includes a benefit for the termination of certain derivative contracts for which there existed stranded tax effects within other comprehensive income. In 2022, we increased our valuation allowance by \$8.5 million related to our net deferred tax asset and specific federal and state net operating losses and federal and state tax credit carryforwards.

Our effective income tax rate was a provision of 2.00% in 2021. The provision relates to federal and state cash taxes paid offset by certain federal and state credits and also includes a benefit for the termination of certain derivative contracts for which there existed stranded tax effects within other comprehensive income.

Net Income (Loss). Continuing operations reflected a loss of \$33.4 million, or \$2.21 per diluted share in 2022, compared with income from continuing operations of \$5.2 million, or \$0.32 per diluted share in 2021. Our discontinued operations reflected a loss of \$1.7 million, or \$0.11 per diluted share in 2022 compared with a loss of \$3.5 million, or \$0.23 per diluted share in 2021. Including discontinued operations, we had a net loss of \$35.1 million, or \$2.32 per diluted share, in 2022 compared with net income of \$1.6 million, or \$0.09 per diluted share, in 2021.

LIQUIDITY AND CAPITAL RESOURCES

During the year ended December 31, 2022, cash used in continuing operations was \$17.5 million driven by reduction of receivables of \$15.2 million, an increase of inventories by \$1.0 million and decrease in accounts payable and other accrued expenses of \$9.6 million.

Net cash used in investing activities was \$4.5 million during the year ended December 31, 2022. This amount was primarily the result of the purchase of property, plant and equipment of \$4.6 million.

During the year ended December 31, 2022, cash provided by financing activities was \$19.9 million. We had net borrowings of \$18.6 million on the revolving credit facility. Borrowings on notes payable, net of payments was \$4.8 million and finance leases were reduced by payments of \$1.1 million. The balance in amount of checks outstanding in excess of cash at year end 2022 decreased from prior year resulting in a cash outflow of \$1.4 million. Repurchases of Common Stock were \$0.7 million during 2022.

We believe, after having reviewed various financial scenarios, our operating cash flows, credit availability under our revolving credit facility and other sources of financing are adequate to finance our anticipated liquidity requirements under current operating conditions. We have specifically considered the impact of continued operating losses on our liquidity position and our ability to comply with financial covenants by our primary lenders. As part of our evaluation, we considered cost reductions that began in 2022 related to our change to lower cost raw materials, decreased freight expense on imported goods and cost reductions implemented under our East Coast Consolidation Plan, as well as plans for the sale and leaseback of existing assets. Availability under the new Senior Secured Revolving Credit Facility on December 31, 2022 was \$15.3 million. Significant additional cash expenditures above our normal liquidity requirements, significant deterioration in economic conditions or continued operating losses could affect our business and require supplemental financing or other funding sources. There can be no assurance that the sale leaseback transaction, other such supplemental financing or other sources of funding can be obtained or will be obtained on terms favorable to us. We cannot predict, and are unable to know, the long-term impact of the COVID-19 pandemic and the related economic consequences or how these events may affect our future liquidity.

Debt Facilities

Revolving Credit Facility. On October 30, 2020, we entered into a \$75.0 million Senior Secured Revolving Credit Facility with Fifth Third Bank National Association as lender. The loan is secured by a first priority security interest on all accounts receivable, cash, and inventory, and provides for borrowing limited by certain percentages of values of the accounts receivable and inventory. The revolving credit facility matures on October 30, 2025.

We have transitioned our benchmark rate LIBOR to SOFR during fourth quarter of 2022. At our election, advances of the revolving credit facility bear interest at annual rates equal to either (a) SOFR (plus a 0.10% SOFR adjustment) for 1 or 3 month periods, as defined with a floor of 0.75% or published SOFR and previously LIBOR, plus an applicable margin ranging between 1.50% and 2.00%, or (b) the higher of the prime rate plus an applicable margin ranging between 0.50% and 1.00%. The

applicable margin is determined based on availability under the revolving credit facility with margins increasing as availability decreases. The applicable margin can be increased by 0.50% if the fixed charge coverage ratio is below a 1.10 to 1.00 ratio. As of December 31, 2022, the applicable margin on our revolving credit facility was 2.50% for SOFR and 1.50% for Prime due to the fixed charge coverage ratio being below 1.10 to 1.00. We pay an unused line fee on the average amount by which the aggregate commitments exceed utilization of the revolving credit facility equal to 0.25% per annum. The weighted-average interest rate on borrowings outstanding under the revolving credit facility was 6.81% at December 31, 2022 and 3.00% for December 25, 2021.

The agreement is subject to customary terms and conditions and annual administrative fees with pricing varying on excess availability and a fixed charge coverage ratio. The agreement is also subject to certain compliance, affirmative, and financial covenants. As of the reporting date, we are in compliance with all such applicable financial covenants or have obtained an appropriate waiver for such applicable financial covenants. We are only subject to the financial covenants if borrowing availability is less than \$8.9 million, which is equal to 12.5% of the lesser of the total loan availability of \$75.0 million or total collateral available, and remains until the availability is greater than 12.5% for thirty consecutive days. As of December 31, 2022, the unused borrowing availability under the revolving credit facility was \$15.3 million.

Term Loans. Effective October 28, 2020, we entered into a \$10.0 million principal amount USDA Guaranteed term loan with AmeriState Bank as lender. The term of the loan is 25 years and bears interest at a minimum 5.00% rate or 4.00% above 5-year treasury, to be reset every 5 years at 3.5% above 5-year treasury. The loan is secured by a first mortgage on our Atmore, Alabama and Roanoke, Alabama facilities. The loan requires certain compliance, affirmative, and financial covenants and, as of the reporting date, we are in compliance with or have received waivers for all such financial covenants.

Effective October 29, 2020, we entered into a \$15.0 million principal amount USDA Guaranteed term loan with the Greater Nevada Credit Union as lender. The term of the loan is 10 years and bears interest at a minimum 5.00% rate or 4.00% above 5-year treasury, to be reset after 5 years at 3.5% above 5-year treasury. Payments on the loan are interest only over the first three years and principal and interest over the remaining seven years. The loan is secured by a first lien on a substantial portion of our machinery and equipment, a certificate of deposit and a second lien on our Atmore and Roanoke facilities. The loan requires certain compliance, affirmative, and financial covenants and, as of the reporting date, we are in compliance with or have received waivers for all such financial covenants.

Notes Payable - Buildings. On March 16, 2022, we entered into a twenty-year \$11.0 million note payable to refinance our existing note payable on our distribution center in Adairsville, Georgia (the "Property"). The note payable bears interest at a fixed annual rate of 3.81%. The note is secured by the Property and a guarantee of the Company. Concurrent with the closing of this note, we paid off existing loans secured by the Property in the amount of \$5,456 and terminated an existing interest rate swap agreement.

Notes Payable - Equipment and Other. Our equipment and other financing notes have terms up to 1 year, bear interest ranging from 3.99% to 4.75% and are due in monthly installments through their maturity dates. Our equipment and other notes do not contain any financial covenants.

Finance Lease - Buildings. On January 14, 2019, we entered into a purchase and sale agreement (the "Purchase and Sale Agreement") with Saraland Industrial, LLC, an Alabama limited liability company (the "Purchaser"). Pursuant to the terms of the Purchase and Sale Agreement, we sold our Saraland facility, and approximately 17.12 acres of surrounding property located in Saraland, Alabama (the "Property") to the Purchaser for a purchase price of \$11.5 million. Concurrent with the sale of the Property, we and the Purchaser entered into a twenty-year lease agreement (the "Lease Agreement"), whereby we leased back the Property at an annual rental rate of \$977 thousand, subject to annual rent increases of 1.25%. Under the Lease Agreement, we have two (2) consecutive options to extend the term of the Lease by ten years for each such option. This transaction was recorded as a failed sale and leaseback as the present value of lease payments exceeded 90% of its fair value. We recorded a liability for the amounts received, continued to depreciate the asset, and imputed an interest rate so that the net carrying amount of the financial liability and remaining assets will be zero at the end of the lease term.

Finance Lease Obligations. Our finance lease obligations are due in monthly installments through their maturity dates. Our finance lease obligations are secured by the specific equipment leased. (See Note 10 to our Consolidated Financial Statements).

Stock-Based Awards

We recognize compensation expense related to share-based stock awards based on the fair value of the equity instrument over the period of vesting for the individual stock awards that were granted. At December 31, 2022, the total unrecognized compensation expense related to unvested restricted stock awards was \$1.8 million with a weighted-average vesting period of 6.0 years.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements at December 31, 2022 or December 25, 2021.

Income Tax Considerations

For the year ended December 31, 2022, we increased our valuation allowances by \$8.5 million related to our net deferred tax asset and specific federal and state net operating losses and federal and state credit carryforwards.

During 2023 and 2024, we do not anticipate any cash outlays for income taxes to exceed \$100 thousand. This is due to our tax loss carryforwards and tax credit carryforwards that will be used to partially offset taxable income. At December 31, 2022, we were in a net deferred tax liability position of \$91 thousand, which was included in other long-term liabilities in our Consolidated Balance Sheets.

Discontinued Operations - Environmental Contingencies

We have reserves for environmental obligations established at four previously owned sites that were associated with our discontinued textile businesses. We have a reserve of \$2.2 million for environmental liabilities at these sites as of December 31, 2022. The liability established represents our best estimate of loss and is the reasonable amount to which there is any meaningful degree of certainty given the periods of estimated remediation and the dollars applicable to such remediation for those periods. The actual timeline to remediate, and thus, the ultimate cost to complete such remediation through these remediation efforts, may differ significantly from our estimates. Pre-tax cost for environmental remediation obligations classified as discontinued operations were primarily a result of specific events requiring action and additional expense in each period.

Fair Value of Financial Instruments

At December 31, 2022, we had no assets or liabilities measured at fair value that fall under a level 3 classification in the hierarchy (those subject to significant management judgment or estimation).

Certain Related Party Transactions

We purchase a portion of our product needs in the form of fiber, yarn and carpet from Engineered Floors, an entity substantially controlled by Robert E. Shaw, a shareholder of our Company. An affiliate of Mr. Shaw holds approximately 7.8% of our Common Stock, which represents approximately 3.0% of the total vote of all classes of our Common Stock. Engineered Floors is one of several suppliers of such materials to us. Total purchases from Engineered Floors for 2022 and 2021 were approximately \$917 thousand and \$3.9 million, respectively; or approximately 0.4% and 1.4% of our cost of sales in 2022 and 2021, respectively. Purchases from Engineered Floors are based on market value, negotiated prices. We have no contractual commitments with Mr. Shaw associated with our business relationship with Engineered Floors. Transactions with Engineered Floors are reviewed annually by our board of directors.

Recent Accounting Pronouncements

See Note 2 to our Consolidated Financial Statements of this Form 10-K for a discussion of new accounting pronouncements which is incorporated herein by reference.

Critical Accounting Policies

Certain estimates and assumptions are made when preparing our financial statements. Estimates involve judgments with respect to, among other things, future economic factors that are difficult to predict. As a result, actual amounts could differ from estimates made when our financial statements are prepared.

The Securities and Exchange Commission requires management to identify its most critical accounting policies, defined as those that are both most important to the portrayal of our financial condition and operating results and the application of which requires our most difficult, subjective, and complex judgments. Although our estimates have not differed materially from our experience, such estimates pertain to inherently uncertain matters that could result in material differences in subsequent periods.

We believe application of the following accounting policies require significant judgments and estimates and represent our critical accounting policies. Other significant accounting policies are discussed in Note 1 to our Consolidated Financial Statements.

- **Revenue recognition.** We derive our revenues primarily from the sale of floorcovering products and processing services. Revenues are recognized when control of these products or services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those products and services. Sales, value add, and other taxes we collect concurrent with revenue-producing activities are excluded from revenue. Shipping and handling fees charged to customers are reported within revenue. Incidental items that are immaterial in the context of the contract are recognized as expense. We do not have any significant financing components as payment is received at or shortly after the point of sale. We determine revenue recognition through the following steps:
 - Identification of the contract with a customer
 - Identification of the performance obligations in the contract
 - Determination of the transaction price
 - Allocation of the transaction price to the performance obligations in the contract
 - Recognition of revenue when, or as, the performance obligation is satisfied
- **Variable Consideration.** The nature of our business gives rise to variable consideration, including rebates, allowances, and returns that generally decrease the transaction price, which reduces revenue. These variable amounts are generally credited to the customer, based on achieving certain levels of sales activity, product returns, or price concessions.

Variable consideration is estimated at the most likely amount that is expected to be earned. Estimated amounts are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration are estimated based upon historical experience and known trends.

- **Customer claims and product warranties.** We generally provide product warranties related to manufacturing defects and specific performance standards for our products for a period of up to two years. We accrue for estimated future assurance warranty costs in the period in which the sale is recorded. The costs are included in Cost of Sales in the Consolidated Statements of Operations and the product warranty reserve is included in accrued expenses in the Consolidated Balance Sheets. We calculate our accrual using the portfolio approach based upon historical experience and known trends. We do not provide an additional service-type warranty.
- **Inventories.** Inventories are stated at the lower of cost or market. Cost is determined using the last-in, first-out method (LIFO), which generally matches current costs of inventory sold with current revenues, for substantially all inventories. Reserves are also established to adjust inventories that are off-quality, aged or obsolete to their estimated net realizable value. Additionally, rates of recoverability per unit of off-quality, aged or obsolete inventory are estimated based on historical rates of recoverability and other known conditions or circumstances that may affect future recoverability. Actual results could differ from assumptions used to value our inventory.
- **Self-insured accruals.** We estimate costs required to settle claims related to our self-insured medical, dental and workers' compensation plans. These estimates include costs to settle known claims, as well as incurred and unreported claims. The estimated costs of known and unreported claims are based on historical experience. Actual results could differ from assumptions used to estimate these accruals.
- **Income taxes.** Our effective tax rate is based on income, statutory tax rates and tax planning opportunities available in the jurisdictions in which we operate. Tax laws are complex and subject to different interpretations by the taxpayer and respective governmental taxing authorities. Deferred tax assets represent amounts available to reduce income taxes payable on taxable income in a future period. We evaluate the recoverability of these future tax benefits by assessing the adequacy of future expected taxable income from all sources, including reversal of taxable temporary differences, forecasted operating earnings and available tax planning strategies. These sources of income inherently rely on estimates, including business forecasts and other projections of financial results over an extended period of time. In the event that we are not able to realize all or a portion of our deferred tax assets in the future, a valuation allowance is provided. We recognize such amounts through a charge to income in the period in which that determination is made or when tax law changes are enacted. We had valuation allowances of \$21.3 million at December 31, 2022 and \$12.9 million at December 25, 2021. At December 31, 2022, we were in a net deferred tax liability position of \$91 thousand. For further information regarding our valuation allowances, see Note 14 to the Consolidated Financial Statements.
- **Loss contingencies.** We routinely assess our exposure related to legal matters, environmental matters, product liabilities or any other claims against our assets that may arise in the normal course of business. If we determine that it is probable a loss has been incurred, the amount of the loss, or an amount within the range of loss, that can be reasonably estimated will be recorded.

Item 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK (Dollars in thousands)

Our earnings, cash flows and financial position are exposed to market risks relating to interest rates, among other factors. It is our policy to minimize our exposure to adverse changes in interest rates and manage interest rate risks inherent in funding our Company with debt. We address this financial exposure through a risk management program that includes maintaining a mix of fixed and floating rate debt and the occasional use of interest rate swap agreements (See Note 12 to the Consolidated Financial Statements).

At December 31, 2022, \$76,341, or approximately 76% of our total debt, was subject to floating interest rates. A one-hundred basis point fluctuation in the variable interest rates applicable to this floating rate debt would have an annual pre-tax impact of approximately \$763. Included in the \$76,341, is the amount outstanding for term loans of \$24,547. Both loans are currently set to bear interest of 5% for five years. Every five years, these rates will be reset to reflect the then current 5-year treasury rate plus a margin. A one-hundred basis point fluctuation in the interest rates applicable to the term loans debt would have an annual pre-tax impact of approximately \$245. See Note 9 for further discussion of these loans.

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The supplementary financial information required by ITEM 302 of Regulation S-K is included in PART II, ITEM 5 of this report and the Financial Statements are included in a separate section of this report.

Item 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Item 9A. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures. We maintain disclosure controls and procedures to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and is accumulated and communicated to management, including our principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management, under the supervision and with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such terms are defined in Rules 13(a)-15(e) and 15(d)-15(e)) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of December 31, 2022, the date of the financial statements included in this Form 10-K (the "Evaluation Date"). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of the Evaluation Date.

(b) Changes in Internal Control over Financial Reporting. No changes in our internal control over financial reporting occurred during the quarter covered by this report that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures, as well as diverse interpretation of U. S. generally accepted accounting principles by accounting professionals. It is also possible that internal control over financial reporting can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. These inherent limitations are known features of the financial reporting process; therefore, while it is possible to design into the process safeguards to reduce such risk, it is not possible to eliminate all risk.

Our management report on internal control over financial reporting is contained in Item 15(a)(1) of this report.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures, as well as diverse interpretation of U. S. generally accepted accounting principles by accounting professionals. It is also possible that internal control over financial reporting can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. Furthermore, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. These inherent limitations are known features of the financial reporting process; therefore, while it is possible to design into the process safeguards to reduce such risk, it is not possible to eliminate all risk.

Management, including our principal executive officer and principal financial officer, has used the criteria set forth in the report entitled "*Internal Control - Integrated Framework*" published by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) to evaluate the effectiveness of its internal control over financial reporting. Management has concluded that its internal control over financial reporting was effective as of December 31, 2022, based on those criteria.

Report of Independent Registered Public Accounting Firm

To the Shareholders, Board of Directors, and Audit Committee of
The Dixie Group, Inc.

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of The Dixie Group, Inc. (the "Company") as of December 31, 2022 and December 25, 2021, the related consolidated statements of operations, comprehensive income (loss), stockholders' equity, and cash flows for each of the years in the two-year period ended December 31, 2022, and the related notes and schedule listed in the Index at Item 15 (collectively referred to as the "financial statements"). In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and December 25, 2021, and the results of its operations and its cash flows for each of the years in the two-year period ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that were communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Critical Audit Matter – LIFO Reserve

As disclosed in Notes 1 and 5 to the consolidated financial statements, the Company recognizes its inventory using the last-in, first-out ("LIFO") method, which requires a reserve to adjust the historical cost carrying value of inventory to the lower of LIFO or market. As of December 31, 2022, the LIFO reserve was approximately \$25,622,000. There is inherent complexity in the accounting for the LIFO reserve including complex calculations based on inventory pools, changes in those pools, and lower of cost or market adjustments.

We identified the LIFO reserve as a critical audit matter. The principal considerations for that determination included the complexity of the calculations, the judgment required for market adjustments, and the nature and extent of audit effort required to address the matter.

Our audit procedures to test the appropriateness of the LIFO Reserve, among others:

- We tested the completeness of the LIFO reserve by evaluating whether all appropriate inventory items were included in the LIFO reserve calculation and in the appropriate category. This included reconciling the inventory used to calculate the LIFO reserve to the inventory subledger.
- We independently recalculated management's LIFO pool calculation, including pool increases or inventory liquidations.
- We tested the aggregation of the pools used to arrive at the LIFO reserve, and considered whether methodologies were consistently applied, or that changes, if any, were in accordance with U.S. GAAP.
- We tested a sample of inventory items and tested whether the lower of cost or market adjustments made by management were in accordance with U.S. GAAP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business

The Company's businesses consist principally of marketing, manufacturing and selling finished carpet, rugs, luxury vinyl flooring and engineered wood flooring in the domestic floorcovering market. Additionally, the Company provides manufacturing support to its carpet businesses through its separate processing operations.

On September 13, 2021, the Company acting by and through its wholly owned operating subsidiary, TDG Operations, LLC, sold its Atlas|Masland commercial business (the "Commercial Business"). As a result of entering into a definitive agreement, the Company has classified the related assets and liabilities associated with its Commercial Business as held for discontinued operations in the Consolidated Balance Sheet. The results of the Commercial Business have been presented as discontinued operations in the Consolidated Statement of Operations for all periods presented as the sale represented a shift in the Company's business that had a major effect on its operations and financial results. Interest expense and general and administrative expenses were not allocated to discontinued operations. See Note 22 for further detail of the Company's discontinued operations reporting.

Based on applicable accounting standards, the Company has determined that it has one reportable segment, Floorcovering. Prior to the sale of the Commercial Business, the Company had two operating segments, Residential and Commercial that was aggregated into one reportable segment. The Company's Floorcovering products have similar economic characteristics and are similar in all of the following areas: (a) the nature of the products and services; (b) the nature of the production processes; (c) the type or class of customer for their products and services; (d) the methods used to distribute their products or provide their services; and (e) the nature of the regulatory environment.

Unless specifically noted otherwise, footnote disclosures reflect the results of continuing operations only. The results of discontinued operations are presented in Note 22.

Principles of Consolidation

The Consolidated Financial Statements include the accounts of The Dixie Group, Inc. and its wholly-owned subsidiaries (the "Company"). Significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates in the Preparation of Financial Statements

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates and these differences could be material.

Fiscal Year

The Company ends its fiscal year on the last Saturday of December. All references herein to "2022" and "2021" mean the fiscal years ended December 31, 2022 and December 25, 2021 respectively. Fiscal year 2022 contained 53 weeks and Fiscal year 2021 contained 52 weeks.

Discontinued Operations

The consolidated financial statements separately report discontinued operations and the results of continuing operations (See Note 22).

Cash and Cash Equivalents

Highly liquid investments with original maturities of three months or less when purchased are reported as cash equivalents.

Market Risk

The Company sells carpet to floorcovering retailers, the interior design, architectural and specifier communities and supplies carpet yarn and carpet dyeing and finishing services to certain manufacturers. The Company's customers are located principally throughout the United States. No customer accounted for more than 10% of net sales in 2022 or 2021, nor did the Company make a significant amount of sales to foreign countries during 2022 or 2021.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

Credit Risk

The Company grants credit to its customers with defined payment terms, performs ongoing evaluations of the credit worthiness of its customers and generally does not require collateral. Accounts receivable are carried at their outstanding principal amounts, less an anticipated amount for discounts and an allowance for doubtful accounts, which management believes is sufficient to cover potential credit losses based on historical experience and periodic evaluation of the financial condition of the Company's customers. As a percentage of customers trade accounts receivable, one customer accounted for approximately 0% in 2022 and 20% in 2021. Notes receivable are carried at their outstanding principal amounts, less an allowance for doubtful accounts to cover potential credit losses based on the financial condition of borrowers and collateral held by the Company.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the last-in, first-out ("LIFO") method, which generally matches current costs of inventory sold with current revenues, for substantially all inventories.

Property, Plant and Equipment

Property, plant and equipment are stated at the lower of cost or impaired value. Provisions for depreciation and amortization of property, plant and equipment have been computed for financial reporting purposes using the straight-line method over the estimated useful lives of the related assets, ranging from 10 to 40 years for buildings and improvements, and 3 to 10 years for machinery and equipment. Costs to repair and maintain the Company's equipment and facilities are expensed as incurred. Such costs typically include expenditures to maintain equipment and facilities in good repair and proper working condition.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment when circumstances indicate that the carrying value of an asset may not be fully recoverable. When the carrying value of the asset exceeds the value of its estimated undiscounted future cash flows, an impairment charge is recognized equal to the difference between the asset's carrying value and its fair value. Fair value is estimated using discounted cash flows, prices for similar assets or other valuation techniques.

Self-Insured Benefit Programs

The Company records liabilities to reflect an estimate of the ultimate cost of claims related to its self-insured medical and dental benefits and workers' compensation. The amounts of such liabilities are based on an analysis of the Company's historical experience for each type of claim.

Income Taxes

The Company recognizes deferred income tax assets and liabilities for the future tax consequences of the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. The Company evaluates the recoverability of these future tax benefits by assessing the adequacy of future expected taxable income from all sources. In the event that the Company is not able to realize all or a portion of the deferred tax assets in the future, a valuation allowance is provided. The Company recognizes such amounts through a charge to income in the period in which that determination is made or when tax law changes are enacted. The Company accounts for uncertainty in income tax positions according to FASB guidance relating to uncertain tax positions. The Company recognizes interest and penalties related to uncertain tax positions, if any, in income tax expense.

Derivative Financial Instruments

The Company does not hold speculative financial instruments, nor does it hold or issue financial instruments for trading purposes. The Company used derivative instruments, interest rate swaps, to minimize the effects of interest rate volatility.

The Company recognizes all derivatives at fair value. Derivatives that are designated as cash flow hedges are linked to specific liabilities on the Company's Balance Sheet. The Company assesses, both at inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows of the hedged items. When it is determined that a derivative is not highly effective or the derivative expires, is sold, terminated, or exercised, the Company discontinues hedge accounting for that specific hedge instrument. Changes in the fair value of effective cash flow hedges are deferred in accumulated other comprehensive income (loss) ("AOCIL") and reclassified to earnings in the same periods during which the hedge transaction affects earnings. Changes in the fair value of derivatives that are not effective cash flow hedges are recognized in results of operations.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

Treasury Stock

The Company classifies treasury stock as a reduction to Common Stock for the par value of such shares acquired and the difference between the par value and the price paid for each share recorded either entirely to retained earnings or to additional paid-in-capital for periods in which the Company does not have retained earnings. This presentation reflects the repurchased shares as authorized but unissued as prescribed by state statute.

Revenue Recognition

The Company derives its revenues primarily from the sale of floorcovering products and processing services. Revenues are recognized when control of these products or services is transferred to its customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those products and services. Sales, value add, and other taxes the Company collects concurrent with revenue-producing activities are excluded from revenue. Shipping and handling fees charged to customers are reported within revenue. Incidental items that are immaterial in the context of the contract are recognized as expense. The Company does not have any significant financing components as payment is received at or shortly after the point of sale. The Company determined revenue recognition through the following steps:

- Identification of the contract with a customer
- Identification of the performance obligations in the contract
- Determination of the transaction price
- Allocation of the transaction price to the performance obligations in the contract
- Recognition of revenue when, or as, the performance obligation is satisfied

Performance Obligations

For performance obligations related to residential floorcovering products, control transfers at a point in time. To indicate the transfer of control, the Company must have a present right to payment, legal title must have passed to the customer and the customer must have the significant risks and rewards of ownership. The Company's principal terms of sale are FOB Shipping Point and FOB Destination and the Company transfers control and records revenue for product sales either upon shipment or delivery to the customer, respectively. Revenue is allocated to each performance obligation based on its relative stand-alone selling prices. Stand-alone selling prices are based on observable prices at which the Company separately sells the products or services.

Variable Consideration

The nature of the Company's business gives rise to variable consideration, including rebates, allowances, and returns that generally decrease the transaction price, which reduces revenue. These variable amounts are generally credited to the customer, based on achieving certain levels of sales activity, product returns, or price concessions.

Variable consideration is estimated at the most likely amount that is expected to be earned. Estimated amounts are included in the transaction price to the extent it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Estimates of variable consideration are estimated based upon historical experience and known trends.

Advertising Costs

The Company engages in promotional and advertising programs. Expenses relating to these programs are charged to results of operations during the period of the related benefits. These arrangements do not require significant estimates of costs. Costs related to cooperative advertising programs are normally recorded as selling and administrative expenses when the Company can reasonably identify the benefit associated with the program and can reasonably estimate that the fair value of the benefit is equal to or greater than its cost. The amount of advertising and promotion expenses included in selling and administrative expenses was not significant for the years 2022 and 2021.

Warranties

The Company generally provides product warranties related to manufacturing defects and specific performance standards for its products for a period of up to two years. The Company accrues for estimated future assurance warranty costs in the period in which the sale is recorded. The costs are included in cost of sales in the Consolidated Statements of Operations and the product warranty reserve is included in accrued expenses in the Consolidated Balance Sheets. The Company calculates its accrual using the portfolio approach based upon historical experience and known trends (See Note 8). The Company does not provide an additional service-type warranty.

(amounts in thousands, except per share data)

Cost of Sales

Cost of sales includes all costs related to manufacturing the Company's products, including purchasing and receiving costs, inspection costs, warehousing costs, freight costs, internal transfer costs or other costs of the Company's distribution network.

Selling and Administrative Expenses

Selling and administrative expenses include all costs, not included in cost of sales, related to the sale and marketing of the Company's products and general administration of the Company's business.

Operating Leases

The Company determines if an arrangement is an operating lease or a financing lease at inception. A lease exists if the Company obtains substantially all of the economic benefits of, and has the right to control the use of, an asset for a period of time. Right-of-use assets represent the Company's right to use an underlying asset for the lease term, and lease liabilities represent the Company's obligation to make lease payments arising from the lease agreement. Lease assets and obligations are recognized at the lease commencement date based on the present value of lease payments over the term of the lease. Right-of-use assets may also be adjusted to reflect any prepayments made or any incentive payments received. Generally, the Company's leases do not provide a readily determinable implicit interest rate, therefore, the Company uses its incremental borrowing rate, which is based on information available at the lease commencement date, to determine the present value of lease payments.

The Company has operating leases primarily for real estate and equipment used in manufacturing. Operating lease expense is recognized in continuing operations on a straight-line basis over the lease term within cost of sales and selling and administrative expenses. Financing lease expense is comprised of both interest expense, which is recognized using the effective interest method, and amortization of the right-of-use assets. These expenses are presented consistently with the presentation of other interest expense and amortization or depreciation of similar assets. In determining lease asset values, the Company considers fixed and variable payment terms, prepayments, incentives, and options to extend, terminate or purchase. Renewal, termination, or purchase options affect the lease term used for determining lease asset value only if the option is reasonably certain to be exercised. The Company does not recognize a right-of-use asset and lease liability for leases with a term of twelve months or less.

Stock-Based Compensation

The Company recognizes compensation expense relating to stock-based payments based on the fair value of the equity or liability instrument issued. Restricted stock grants with pro-rata vesting are expensed using the straight-line method. (Terms of the Company's awards are specified in Note 16). The Company accounts for forfeitures when they actually occur.

NOTE 2 - RECENT ACCOUNTING PRONOUNCEMENTS

Accounting Standards Yet to Be Adopted

In June 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which was further amended by additional accounting standards updates issued by the FASB. The new standard replaced the incurred loss impairment methodology for recognizing credit losses with a new methodology that requires recognition of lifetime expected credit losses when a financial asset is originated or purchased, even if the risk of loss is remote. The new methodology (referred to as the current expected credit losses model, or "CECL") applies to most financial assets measured at amortized cost, including trade receivables, and requires consideration of a broader range of reasonable and supportable information to estimate expected credit losses. The Company will adopt the new standard effective January 1, 2023 using a modified retrospective transition approach, with the cumulative impact being immaterial to the financial statements.

Total net sales, continuing and discontinued operations	<u>\$ 311,360</u>	<u>\$ 389,317</u>

Residential floorcovering products. Residential floorcovering products include broadloom carpet, rugs, luxury vinyl flooring and engineered hardwood. These products are sold into the designer, retailer, mass merchant and builder markets.

Commercial floorcovering products. Commercial floorcovering products include broadloom carpet, carpet tile, rugs, and luxury vinyl flooring. These products are sold into the corporate, hospitality, healthcare, government, and education markets through the use of designers, architects, flooring contractors and independent retailers.

Other services. Other services include carpet yarn processing and carpet dyeing services.

Contract Balances

Other than receivables that represent an unconditional right to consideration, which are presented separately (See Note 4), the Company does not recognize any contract assets which give conditional rights to receive consideration, as the Company does not incur costs to obtain customer contracts that are recoverable. The Company often receives cash payments from customers in advance of the Company's performance for limited production run orders resulting in contract liabilities. These contract liabilities are classified in accrued expenses in the Consolidated Balance Sheets based on the timing of when the Company expects to recognize revenue, which is typically less than a year. The net decrease or increase in the contract liabilities is primarily driven by order activity for limited runs requiring deposits offset by the recognition of revenue and application of deposit on the receivables ledger for such activity during the period. The activity in the advanced deposits for continuing operations are as follows:

	<u>2022</u>	<u>2021</u>
Beginning contract liability	\$ 1,285	\$ 1,005
Revenue recognized from contract liabilities included in the beginning balance	(1,104)	(927)

Revolving Credit Facility

On October 30, 2020, the Company entered into a \$75,000 Senior Secured Revolving Credit Facility with Fifth Third Bank National Association as lender. The loan is secured by a first priority security interest on all accounts receivable, cash, and inventory, and provides for borrowing limited by certain percentages of values of the accounts receivable and inventory. The revolving credit facility matures on October 30, 2025.

The Company has transitioned its benchmark rate LIBOR to SOFR during fourth quarter of 2022. At the Company's election, advances of the revolving credit facility bear interest at annual rates equal to either (a) SOFR (plus a 0.10% SOFR adjustment) for 1 or 3 month periods, as defined with a floor of 0.75% or published SOFR and previously LIBOR, plus an applicable margin ranging between 1.50% and 2.00%, or (b) the higher of the prime rate plus an applicable margin ranging between 0.50% and 1.00%. The applicable margin is determined based on availability under the revolving credit facility with margins increasing as availability decreases. The applicable margin can be increased by 0.50% if the fixed charge coverage ratio is below a 1.10 to 1.00 ratio. As of December 31, 2022, the applicable margin on the Company's revolving credit facility was 2.50% for SOFR and 1.50% for Prime due to the fixed charge coverage ratio being below 1.10 to 1.00. The Company pays an unused line fee on the average amount by which the aggregate commitments exceed utilization of the revolving credit facility equal to 0.25% per annum. The weighted-average interest rate on borrowings outstanding under the revolving credit facility was 6.81% at December 31, 2022 and 3.00% for December 25, 2021.

The agreement is subject to customary terms and conditions and annual administrative fees with pricing varying on excess availability and a fixed charge coverage ratio. The agreement is also subject to certain compliance, affirmative, and financial covenants. As of the reporting date, the Company is in compliance with all such applicable financial covenants or has obtained an appropriate waiver for such applicable financial covenants. The Company is only subject to the financial covenants if borrowing availability is less than \$8,919, which is equal to 12.5% of the lesser of the total loan availability of \$75,000 or total collateral available, and remains until the availability is greater than 12.5% for thirty consecutive days. As of December 31, 2022, the unused borrowing availability under the revolving credit facility was \$15,347.

Term Loans

Effective October 28, 2020, the Company entered into a \$10,000 principal amount USDA Guaranteed term loan with AmeriState Bank as lender. The term of the loan is 25 years and bears interest at a minimum 5.00% rate or 4.00% above 5-year treasury, to be reset every 5 years at 3.5% above 5-year treasury. The loan is secured by a first mortgage on the Company's Atmore, Alabama and Roanoke, Alabama facilities.

Effective October 29, 2020, the Company entered into a \$15,000 principal amount USDA Guaranteed term loan with the Greater Nevada Credit Union as lender. The term of the loan is 10 years and bears interest at a minimum 5.00% rate or 4.00% above 5-year treasury, to be reset after 5 years at 3.5% above 5-year treasury. Payments on the loan are interest only over the first three years and principal and interest over the remaining seven years. The loan is secured by a first lien on a substantial portion of the Company's machinery and equipment and a second lien on the Company's Atmore and Roanoke facilities.

Notes Payable - Buildings

On November 7, 2014, the Company entered into a ten-year \$8,330 note payable to purchase a previously leased distribution center in Adairsville, Georgia (the "Property"). The note payable was scheduled to mature on November 7, 2024, and was secured by the Property. The note payable bears interest at a variable rate equal to one-month LIBOR plus 2.0% and was payable in equal monthly installments of principal of \$35, plus interest calculated on the declining balance of the note, with a final payment of \$4,165 due on maturity. In addition, the Company entered into an interest rate swap with an amortizing notional amount effective November 7, 2014 which effectively fixed the interest rate at 4.50%. On March 16, 2022, the Company entered into a twenty-year \$11,000 note payable to refinance its existing note payable on the Property. The refinanced note payable bears interest at a fixed annual rate of 3.81%. Concurrent with the closing of this note, the Company paid off the existing note secured by the Property in the amount of \$5,456 and terminated the existing interest rate swap agreement. The refinanced note is secured by the Property and a guarantee of the Company.

Debt Covenant Compliance and Liquidity Considerations

The Company's agreements for its Revolving Credit Facility and its term loans include certain compliance, affirmative, and financial covenants and, as of the reporting date, the Company is in compliance with or has received waivers for all such financial covenants.

In the Company's self-assessment of going concern, with reflection on the Company's operating loss in 2022, the Company considered its future ability to comply with the financial covenants in its existing debt agreements. Accounting Standards Update 2014-15 as issued by the Financial Accounting Standards Board requires Company management to perform a going concern self-assessment each annual and interim reporting period. In performing its evaluation, management considered known and reasonably knowable information as of the reporting date. The Company also considered the significant unfavorable impact if it were unable to maintain compliance with financial covenants by its primary lenders. As part of the evaluation, the Company considered cost reductions that began in 2022 related to its change to lower cost raw materials, decreased freight expense on imported goods and cost reductions implemented under its East Coast Consolidation Plan, as well as plans for the sale and leaseback of existing assets. The financial statements do not include any adjustments that might result from the outcome of the uncertainty of the ability to maintain compliance with the financial covenants.

Notes Payable - Equipment and Other

The Company's equipment and other financing notes have terms up to 1 year, bear interest ranging from 3.99% to 4.75% and are due in monthly installments through their maturity dates. The Company's equipment and other notes do not contain any financial covenants.

Finance Lease - Buildings

On January 14, 2019, the Company, entered into a purchase and sale agreement (the "Purchase and Sale Agreement") with Saraland Industrial, LLC, an Alabama limited liability company (the "Purchaser"). Pursuant to the terms of the Purchase and Sale Agreement, the Company sold its Saraland facility, and approximately 17.12 acres of surrounding property located in Saraland, Alabama (the "Property") to the Purchaser for a purchase price of \$11,500. Concurrent with the sale of the Property, the Company and the Purchaser entered into a twenty-year lease agreement (the "Lease Agreement"), whereby the Company will lease back the Property at an annual rental rate of \$977, subject to annual rent increases of 1.25%. Under the Lease Agreement, the Company has two (2) consecutive options to extend the term of the Lease by ten years for each such option. This transaction was recorded as a failed sale and leaseback. The Company recorded a liability for the amounts received, will continue to depreciate the asset, and has imputed an interest rate so that the net carrying amount of the financial liability and remaining assets will be zero at the end of the lease term.

Finance Lease Obligations

The Company's financed lease obligations are due in monthly installments through their maturity dates. The Company's finance lease obligations are secured by the specific equipment leased.

NOTE 11 - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange value of an asset or a liability in an orderly transaction between market participants. The fair value guidance outlines a valuation framework and establishes a fair value hierarchy in order to increase the consistency and comparability of fair value measurements and disclosures. The hierarchy consists of three levels as follows:

Level 1 - Quoted market prices in active markets for identical assets or liabilities as of the reported date;

Level 2 - Other than quoted market prices in active markets for identical assets or liabilities, quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and other than quoted prices for assets or liabilities and prices that are derived principally from or corroborated by market data by correlation or other means; and

Level 3 - Measurements using management's best estimate of fair value, where the determination of fair value requires significant management judgment or estimation.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

The following table reflects the fair values of assets and liabilities measured and recognized at fair value on a recurring basis on the Company's Consolidated Balance Sheets:

	<u>2022</u>	<u>2021</u>	<u>Fair Value Hierarchy Level</u>
Liabilities:			
Interest rate swaps (1)	\$ —	\$ 210	Level 2

(1) The Company used certain external sources in deriving the fair value of the interest rate swaps. The interest rate swaps were valued using observable inputs (e.g., LIBOR yield curves, credit spreads). Valuations of interest rate swaps may fluctuate considerably from period-to-period due to volatility in underlying interest rates, which are driven by market conditions and the duration of the instrument. Credit adjustments could have a significant impact on the valuations due to changes in credit ratings of the Company or its counterparties.

The carrying amounts and estimated fair values of the Company's financial instruments are summarized as follows:

	<u>2022</u>		<u>2021</u>	
	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Carrying Amount</u>	<u>Fair Value</u>
Financial assets:				
Cash and cash equivalents	\$ 363	\$ 363	\$ 1,471	\$ 1,471
Financial liabilities:				
Long-term debt, including current portion	86,638	76,684	63,275	61,721
Finance leases, including current portion	12,660	11,576	13,787	16,389
Interest rate swaps	—	—	210	210

The fair values of the Company's long-term debt and finance leases were estimated using market rates the Company believes would be available for similar types of financial instruments and represent level 2 measurements. The fair values of cash and cash equivalents and notes receivable approximate their carrying amounts due to the short-term nature of the financial instruments.

NOTE 12 - DERIVATIVES

The Company's earnings, cash flows and financial position are exposed to market risks relating to interest rates. It is the Company's policy to minimize its exposure to adverse changes in interest rates and manage interest rate risks inherent in funding the Company with debt. The Company addresses this risk by maintaining a mix of fixed and floating rate debt and occasionally entering into interest rate swaps for a portion of its variable rate debt to minimize interest rate volatility.

As of December 31, 2022, the Company had no interest rate swaps outstanding. The following is a summary of the Company's interest rate swaps as of December 25, 2021:

<u>Type</u>	<u>Notional Amount</u>	<u>Effective Date</u>	<u>Fixed Rate</u>	<u>Variable Rate</u>

- (1) The amount of gain (loss) reclassified from AOCIL is included in interest expense on the Company's Consolidated Statements of Operations.
- (2) The amount of gain (loss) expected to be reclassified from AOCIL into earnings during the next 12 months subsequent to December 31, 2022 is \$0.
- (3) The amount of gain (loss) recognized in income on the dedesignated and terminated portions of interest rate swaps is included in interest expense on the Company's Consolidated Statements of Operations.

On March 16, 2022, the Company terminated an interest rate swap agreement tied to a note payable secured by its facility in Adairsville, Georgia. The settlement payment to terminate the swap agreement was \$73. Because it was probable that none of the remaining forecasted interest payments that were being hedged would occur, the related losses in the amount of \$177, net of tax, that had been deferred in AOCIL were reclassified into interest expense.

NOTE 13 - EMPLOYEE BENEFIT PLANS

Defined Contribution Plans

The Company sponsors a 401(k) defined contribution plan that covers a significant portion, or approximately 89% of the Company's associates. This plan includes a mandatory Company match on the first 1% of participants' contributions. The Company matches the next 2% of participants' contributions if the Company meets prescribed earnings levels. The plan also provides for additional Company contributions above the 3% level if the Company attains certain additional performance targets. Matching contribution expense for this 401(k) plan was \$254 in 2022 and \$1,176 in 2021.

Additionally, the Company sponsors a 401(k) defined contribution plan that covers those associates at one facility who are under a collective-bargaining agreement, or approximately 11% of the Company's associates. Under this plan, the Company generally matches participants' contributions, on a sliding scale, up to a maximum of 2.75% of the participant's earnings. Matching contribution expense for the collective-bargaining 401(k) plan was \$67 in 2022 and \$101 in 2021.

Non-Qualified Retirement Savings Plan

The Company sponsors a non-qualified retirement savings plan that allows eligible associates to defer a specified percentage of their compensation. The obligations for continuing operations owed to participants under this plan were \$12,346 at December 31, 2022 and \$15,794 at December 25, 2021 and are included in other long-term liabilities in the Company's Consolidated Balance Sheets. The obligations for discontinued operations owed to participants under this plan were \$1,304 at December 31, 2022 and \$2,218 at December 25, 2021 and are included in long term liabilities of discontinued operations in the Company's Consolidated Balance Sheets. The obligations are unsecured general obligations of the Company and the participants have no right, interest or claim in the assets of the Company, except as unsecured general creditors. The Company utilizes a Rabbi Trust to hold, invest and reinvest deferrals and contributions under the plan. Amounts are invested in Company-owned life insurance in the Rabbi Trust and the cash surrender value of the policies for continuing operations was \$12,296 at December 31, 2022 and \$16,608 at December 25, 2021 and is included in other assets in the Company's Consolidated Balance Sheets. The cash surrender value of the policies for discontinued operations was \$1,304 at December 31, 2022 and \$2,218 at December 25, 2021 and is included in long-term assets of discontinued operations in the Company's Consolidated Balance Sheets.

Multi-Employer Pension Plan

Recognized within discontinued operations, the Company contributes to a multi-employer pension plan under the terms of a collective-bargaining agreement that covers its union-represented employees. These union-represented employees represented approximately 11% of the Company's total employees. The risks of participating in multi-employer plans are different from single-employer plans. If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers. If the Company chooses to stop participating in the multi-employer plan, the Company may be required to pay the plan an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

The Company's participation in the multi-employer pension plan for 2022 is provided in the table below. The "EIN/Pension Plan Number" column provides the Employee Identification Number (EIN) and the three digit plan number. The most recent Pension Protection Act (PPA) zone status available in 2022 and 2021 is for the plan's year-end at 2021 and 2020, respectively. The zone status is based on information that the Company received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded and plans in the green zone are at least 80% funded. The "FIP/RP Status Pending/Implemented" column indicates a plan for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. The last column lists the expiration date of the collective-bargaining agreement to which the plan is subject.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

During the fourth quarter of 2017, the Company recorded a full valuation allowance against its deferred tax assets, which remains in effect as of December 31, 2022. The Company intends to maintain this position until there is sufficient evidence to support the reversal of all or some portion of these allowances. The Company also has certain assets with indefinite lives for which the basis is different for book and tax. In accordance with ASC 740-10-30-18, the deferred tax liability related to these intangible assets cannot be used to offset deferred tax assets when determining the amount of the valuation allowance for deferred tax assets which are not more-likely-than-not to be realized. The result is that the Company is in a net deferred tax liability position of \$91 at December 31, 2022 and December 25, 2021, which is recorded in other long-term liabilities in the Company's Consolidated Balance Sheets.

Due to its full valuation allowance against its deferred tax balances, the Company is only able to recognize refundable credits, a small amount of federal and state taxes, and benefits for the recognition of stranded tax effects within other comprehensive income (loss) related to the termination of certain derivative contracts in the tax provision (benefit) for 2021 and 2022.

Significant components of the Company's deferred tax assets and liabilities are as follows:

	2022	2021
Deferred tax assets:		
Inventories	\$ 2,759	\$ 2,316
Retirement benefits	407	824
State net operating losses	4,306	3,033
Federal net operating losses	4,852	—
State tax credit carryforwards	1,669	1,669
Federal tax credit carryforwards	4,590	4,136
Allowances for bad debts, claims and discounts	1,680	1,779
Other	5,167	3,958
Total deferred tax assets	25,430	17,715
Valuation allowance	(21,345)	(12,851)
Net deferred tax assets	4,085	4,864
Deferred tax liabilities:		
Property, plant and equipment	4,176	4,955
Total deferred tax liabilities	4,176	4,955
Net deferred tax liability	\$ (91)	\$ (91)

At December 31, 2022, the Company had approximately \$31,180 of federal net operating loss carryforwards and approximately \$79,312 of state net operating loss carryforwards available from both continuing and discontinued operations. In addition, \$4,590 of federal tax credit carryforwards and \$1,669 of state tax credit carryforwards were available to the Company. The federal tax credit carryforwards will expire between 2029 and 2043. The federal net operating loss carryforwards generated in 2022 have no expiration date. The state net operating loss carryforwards and the state tax credit carryforwards will expire between 2022 and 2042. A valuation allowance of \$21,345 is recorded to reflect the estimated amount of deferred tax assets attributable to continuing operations that are estimated not to be realizable based on the available evidence. At December 31, 2022, the Company is in a net deferred tax liability position of \$91 which is included in other long-term liabilities in the Company's Consolidated Balance Sheets.

Tax Uncertainties

The Company accounts for uncertainty in income tax positions according to FASB guidance relating to uncertain tax positions. Unrecognized tax benefits were \$518 at December 31, 2022 and \$494 at December 25, 2021. Such benefits, if recognized, would affect the Company's effective tax rate. There were no significant interest or penalties accrued as of December 31, 2022 or December 25, 2021.

The following is a summary of the change in the Company's unrecognized tax benefits:

	2022	2021
Balance at beginning of year	\$ 494	\$ 487
Additions based on tax positions taken during a current period	24	7
Balance at end of year	\$ 518	\$ 494

The Company and its subsidiaries are subject to United States federal income taxes, as well as income taxes in a number of state jurisdictions. The tax years subsequent to 2018 remain open to examination for U.S. federal income taxes. The majority of state jurisdictions remain open for tax years subsequent to 2018. A few state jurisdictions remain open to examination for tax years subsequent to 2017.

NOTE 15 - COMMON STOCK AND EARNINGS (LOSS) PER SHARE

Common & Preferred Stock

The Company's charter authorizes 80,000,000 shares of Common Stock with a \$3 par value per share and 16,000,000 shares of Class B Common Stock with a \$3 par value per share. Holders of Class B Common Stock have the right to twenty votes per share on matters that are submitted to Shareholders for approval and to dividends in an amount not greater than dividends declared and paid on Common Stock. Class B Common Stock is restricted as to transferability and may be converted into Common Stock on a one share for one share basis. The Company's charter also authorizes 200,000,000 shares of Class C Common Stock, \$3 par value per share, and 16,000,000 shares of Preferred Stock. No shares of Class C Common Stock or Preferred Stock have been issued.

Repurchases of Common Stock

On August 3, 2022, the Company's Board of Directors approved the repurchase of up to \$3,000 of the Company's Common Stock. A portion of such purchases was under a plan pursuant to Rule 10b-5-1 of the Securities and Exchange Act ("Plan"). The Company repurchased 605,749 shares under the Plan at a cost of \$642.

Earnings (Loss) Per Share

The Company's unvested stock awards that contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, are considered participating securities and are included in the computation of earnings per share. The accounting guidance requires additional disclosure of EPS for common stock and unvested share-based payment awards, separately disclosing distributed and undistributed earnings. Undistributed earnings represent earnings that were available for distribution but were not distributed. Common stock and unvested share-based payment awards earn dividends equally. All earnings were undistributed in all periods presented.

Aggregate shares, in thousands, excluded were 130 in 2022 and 4 in 2021.

NOTE 16 - STOCK PLANS AND STOCK COMPENSATION EXPENSE

The Company recognizes compensation expense relating to share-based payments based on the fair value of the equity instrument issued and records such expense in selling and administrative expenses in the Company's Consolidated Statements of Operations. The Company's stock compensation expense was \$766 in 2022 and \$477 in 2021.

Omnibus Equity Incentive Plan

On May 4, 2022, the Company's shareholders' approved and adopted the Company's Omnibus Equity Incentive Plan (the "Omnibus Equity Incentive Plan" or the "2022 Plan") which provides for the issuance of a maximum of 1,300,000 shares of Common Stock and/or Class B Common Stock for the grant of options, and/or other stock-based or stock-denominated awards to employees, officers, directors and agents of the Company and its participating subsidiaries.

2016 Incentive Compensation Plan

On May 3, 2016, the Company's shareholders' approved and adopted the Company's 2016 Incentive Compensation Plan (the "2016 Incentive Compensation Plan") which provided for the issuance of a maximum of 800,000 shares of Common Stock and/or Class B Common Stock for the grant of options, and/or other stock-based or stock-denominated awards to employees, officers, directors, and agents of the Company and its participating subsidiaries. The 2016 Incentive Compensation Plan and the allocation of shares thereunder superseded and replaced The Dixie Group, Inc. Stock Awards Plan, as amended (the "2006 Plan") and the allocation of shares thereunder. Awards previously granted under the 2006 Plan continue to be governed by the terms of that plan and are not affected by its termination. On May 6, 2020, the board approved an amendment of the Company's 2016 Incentive Compensation Plan to increase the original number of shares by an additional 500,000. All remaining shares available for issuance under the 2016 Incentive Plan have been granted, subject to possible forfeiture or cancellation of unvested awards outstanding under that plan.

2006 Stock Awards Plan

The Company had a Stock Awards Plan, ("2006 Plan"), as amended, which provided for the issuance of up to 1,800,000 shares of Common Stock and/or Class B Common Stock as stock-based or stock-denominated awards to directors of the Company and to salaried employees of the Company and its participating subsidiaries. The 2006 Plan was terminated with respect to new awards.

Restricted Stock Awards

Each executive officer has the opportunity to earn a Primary Long-Term Incentive Award of restricted stock and separately receive an award of restricted stock denominated as "Career Shares." The number of shares issued, if any, is based on the market price of the Company's Common Stock at the time of grant of the award, subject to a \$5.00 per share minimum value. Primary Long-Term Incentive Awards vest over three years. For participants over age 60, Career Shares awards fully vest when the participant becomes (i) qualified to retire from the Company and (ii) has retained such shares two years following the grant date. For the participants under age 60, Career Shares vest ratably over five years beginning on the participant's 61st birthday.

On March 12, 2022, the Company issued 284,954 shares of restricted stock to certain key employees. The grant-date fair value of the awards was \$863, or \$3.03 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 5.5 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

On June 1, 2022, the Company issued 78,957 shares of restricted stock to certain key employees. The grant-date fair value of the awards was \$150, or \$1.90 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 3.0 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

On June 6, 2022, the Company issued 24,000 shares of restricted stock to certain key employees. The grant-date fair value of the awards was \$48, or \$2.00 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 4.0 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

On May 5, 2022, the Company issued 40,000 shares of restricted stock to Company's non-employee directors. The grant-date fair value of the awards was \$107, or \$2.67 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 1.0 year from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

On February 1, 2021, the Company issued 22,000 shares of restricted stock to certain key employees. The grant-date fair value of the awards was \$86, or \$3.89 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 2.5 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each share of restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

On March 10, 2021, the Company issued 325,680 shares of restricted stock to certain key employees. The grant-date fair value of the awards was \$984, or \$3.02 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 5.3 years from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each share of restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

On May 10, 2021, the Company issued 40,000 shares of restricted stock to the Company's non-employee directors. The grant-date fair value of the awards was \$138, or \$3.46 per share, and is expected to be recognized as stock compensation expense over a weighted-average period of 1.0 year from the date the awards were granted. Each award is subject to a continued service condition. The fair value of each restricted stock awarded was equal to the market value of a share of the Company's Common Stock on the grant date.

Forfeited	(2,000)	3.02
Outstanding at December 31, 2022	943,706	\$ 3.14

As of December 31, 2022, unrecognized compensation cost related to unvested restricted stock was \$1,811. That cost is expected to be recognized over a weighted-average period of 6.0 years. The total fair value of shares vested was approximately \$399 and \$243 during 2022 and 2021, respectively.

Stock Performance Units

Prior to 2021, the Company's non-employee directors received an annual retainer of \$18 in cash and \$18 in value of Stock Performance Units (subject to a \$5.00 minimum per unit). If market value at the date of the grants was above \$5.00 per share; there was no reduction in the number of units issued. However, if the market value at the date of the grants was below \$5.00, units would be reduced to reflect the \$5.00 per share minimum. Upon retirement, the Company will issue the number of shares of Common Stock equivalent to the number of Stock Performance Units held by non-employee directors at that time. As of December 31, 2022, 130,320 Stock Performance Units were outstanding under this plan. As of December 31, 2022, there was no unrecognized compensation cost related to Stock Performance Units.

Stock Options

Options granted under the Company's 2006 Plan and the 2016 Plan were exercisable for periods determined at the time the awards are granted. Effective 2009, the Company established a \$5.00 minimum price for calculating the number of options to be granted.

On May 30, 2017, the Company granted 203,000 options with a market condition to certain key employees of the Company at a weighted-average exercise price of \$4.30. The grant-date fair value of these options was \$306. These options vested over a two-year period and required the Company's stock to trade at or above \$7.00 for five consecutive trading days after the two-year period and within five years of issuance to meet the market condition. On May 30, 2022, the remaining 141,000 stock options expired.

The fair value of each option was estimated on the date of grant using a lattice model. Expected volatility was based on historical volatility of the Company's stock, using the most recent period equal to the expected life of the options. The risk-free interest rate was based on the U.S. Treasury yield for a term equal to the expected life of the option at the time of grant. The Company used historical exercise behavior data of similar employee groups to determine the expected lives of options.

No options were granted during the years ended December 31, 2022 and December 25, 2021.

NOTE 18 - COMMITMENTS AND CONTINGENCIES

Commitments

The Company had purchase commitments of \$332 at December 31, 2022, primarily related to machinery and equipment. The Company enters into fixed-price contracts with suppliers to purchase natural gas to support certain manufacturing processes in prior years. The Company had no contract purchases in 2022 or 2021. At December 31, 2022, the Company has no commitments to purchase natural gas for 2023.

THE DIXIE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(amounts in thousands, except per share data)

Contingencies

The Company assesses its exposure related to legal matters, including those pertaining to product liability, safety and health matters and other items that arise in the regular course of its business. If the Company determines that it is probable a loss has been incurred, the amount of the loss, or an amount within the range of loss, that can be reasonably estimated will be recorded.

Environmental Remediation

The Company accrues for losses associated with environmental remediation obligations when such losses are probable and estimable. Remediation obligations are accrued based on the latest available information and are recorded at undiscounted amounts. The Company regularly monitors the progress of environmental remediation. If studies indicate that the cost of remediation has changed from the previous estimate, an adjustment to the liability would be recorded in the period in which such determination is made. (See Note 22).

Legal Proceedings

The Company has been sued, together with approximately 90 other defendants, in a lawsuit styled: Brenda E. Bostian, individually and as representative of the Estate of Hoyle Steven Bostian, deceased, case number 2021-CP-40-04877 South Carolina Court of Common Pleas, Fifth Judicial Circuit- Richland County (Columbia SC), alleging that indirect exposure to asbestos at a plant in North Carolina contributed to the wrongful death of Mr. Bostian. The complaint alleges that Mr. Hoyle Bostian's father worked at a facility in North Carolina where he was exposed to asbestos and that Mr. Bostian's exposure indirectly caused Mr. Bostian (the decedent) to be exposed to asbestos. The plaintiff's "secondary" exposure allegedly occurred in the 1950s - prior to the Company's 1987 acquisition of China Grove Cotton Mills, the company that owned the facility. No damage amount has been alleged. The Company has denied liability and is vigorously defending the matter.

The Company has been sued together with several other defendants, in a lawsuit styled: James Franklin Davis and Vera C. Davis v. 3M Company, et al., in the court of Common Pleas, Fifth Judicial Circuit, County of Richmond, State of South Carolina (C/A NO. 2022-CP-40-02381) alleging various health related and economic damages resulting from alleged exposure to asbestos at a plant in North Carolina formerly owned by the Company. No specific amount of damages is claimed. The Company has denied liability and is vigorously defending the matter.

NOTE 20 - INVESTMENT IN JOINT VENTURE

On August 11, 2022, TruCor LLC, a Georgia limited liability company ("TruCor"), a wholly-owned subsidiary of TDG Operations, LLC, a Georgia limited liability company, which is a wholly-owned subsidiary of the Company, entered into a Joint Venture Agreement (the "JVA") with Alabama Manufacturing Investment LLC, a Delaware limited liability company ("AMI"), pursuant to which the two companies agreed to form and become the two members of Rigid Core Manufacturing LLC, a Delaware limited liability company (the "JV"), for the purpose of manufacturing luxury vinyl tile. Each of TruCor and AMI agreed to contribute to the JV initial capital in the amount of \$6,000, respectively. The capital contributions to the JV would be made in \$1,000 installments. The JV would be governed by a board of managers. Each member would appoint two (2) managers of the LLC for a total of four (4) managers. Certain significant actions would be subject to unanimous approval of the managers. Upon an unresolved deadlock between the members, either member may trigger a buy-sell provision in the LLC Agreement. The Company agreed to guarantee the obligations of TruCor provided under the JVA.

Pursuant to the JVA, the following ancillary agreements were entered into by the parties: (1) TDG Operations, LLC, a Georgia limited liability company ("TDG Operations"), a wholly-owned subsidiary of the Company, entered into that certain Administrative Services and Loaned Employee Agreement with the JV for the provision of certain administrative services at cost plus an allocation of overhead; (2) AMI entered into that certain Technical Services Agreement with the JV for the provision of technical services and the license of certain technical know-how to manufacture luxury vinyl tile products; (3) TDG Operations agreed to use reasonable commercial efforts to enter into a lease with the JV for a portion of the Company's existing Atmore facility in Alabama; and (4) TruCor and AMI entered into that certain Limited Liability Company Operating Agreement (the "LLC Agreement"). TruCor and AMI also each agreed to enter into supply agreements with the JV for the manufacture of certain luxury vinyl tile products, with no minimum obligation to purchase by either member. There were no purchases during 2022. In addition, no lease agreement between TDG Operations and the JV had been entered into as of December 31, 2022.

During the third quarter of 2022, each partner contributed the first \$1,000 installment. During the fourth quarter of 2022, the partners agreed to postpone the activities within the JV due to current economic conditions. The JV returned \$950 to each partner during the fourth quarter of 2022. The partners will continue to monitor future economic conditions to determine the next steps.

In determining whether the Company has a controlling interest in a joint venture and the requirement to consolidate the entity, management considers factors such as ownership interest, authority to make decisions and contractual and substantive participating rights of the other partners or members as well as whether the entity is a variable interest entity for which the Company is the primary beneficiary. This investment is being accounted for by the equity method of accounting under which the Company's share of net income (loss) is recognized as income (loss) in the Company's Statements of Operations and added to the investment account as the Company has significant influence over the joint venture but does not control its operations. Distributions or dividends received from the investment will be treated as a reduction of the investment account. The investment in the JV of \$50 was recorded in Other Assets on the Company's Consolidated Balance Sheet. There was a net loss of \$4 reported in other expense, net in the Company's Statement of Operations for 2022.

2017 Profit Improvement Plan

During the fourth quarter of 2017, the Company announced a Profit Improvement Plan to improve profitability through lower cost and streamlined decision making and aligning processes to maximize efficiency. The plan included consolidating the management of the Company's two former commercial brands, Atlas Carpet Mills and Masland Contract, under one management team, sharing operations in sales, marketing, product development and manufacturing. Specific to this plan, the Company had focused nearly all commercial solution dyed make-to-order production in its Atmore, Alabama operations where the Company has developed such make-to-order capabilities over the last 5 years. Further, the Company aligned its west coast production facilities, better utilizing its west coast real estate by moving production to its Santa Ana, California and Atmore, Alabama operations to more efficiently distribute its west coast products. Furthermore, the Company re-configured its east coast distribution facilities to provide more efficient distribution of its products. In addition, the Company realized reductions in related support functions such as accounting and information services. The plan is now complete.

2020 COVID-19 Continuity Plan

As the extent of the COVID-19 pandemic became apparent, the Company implemented a continuity plan to maintain the health and safety of associates, preserve cash, and minimize the impact on customers. The response has included restrictions on travel, implementation of telecommuting where appropriate and limiting contact and maintaining social distancing between associates and with customers. In line with demand, running schedules have been reduced for most facilities to one shift while simultaneously reducing inventories to align them with the lower customer demand. Cost reductions have been implemented including cutting non-essential expenditures, reducing capital expenditures, rotating layoffs and furloughs, selected job

eliminations and temporary salary reductions. The Company has also deferred new product introductions and reduced sample and marketing expenses for 2020. Initiatives were taken with suppliers, lenders and landlords to extend payment terms in the second quarter for existing agreements. The Company is taking advantage of payment deferrals and credits related to payroll taxes under the Coronavirus Aid, Relief, and Economic Security ("CARES") Act as well as deferring payments into its defined contribution retirement plan. The CARES Act also provides for an employee retention credit, which is a refundable tax credit against certain employment taxes of up to \$5 per employee for eligible employers. The tax credit is equal to 50% of qualified wages paid to employees, capped at \$10 of qualified wages per employee throughout the year. The Company qualified for the tax credit in the second, third and fourth quarters of 2020 and recognized \$2,100 in the fourth quarter of 2020, related to the Employee Retention Credit. Of the \$2,100 credit, \$1,500 million was recorded to Cost of Sales and the remaining \$600 was recorded to Selling and Administrative Expenses. The plan is now complete.

2022 Consolidation of East Coast Manufacturing Plan

During 2022, the Company implemented a plan to consolidate its East Coast manufacturing in order to reduce its manufacturing costs. Under this plan, the Company will consolidate its East Coast tufting operations into one plant in North Georgia, convert a portion of the Atmore, Alabama facility from carpet manufacturing to luxury vinyl tile manufacturing and relocate the distribution of luxury vinyl flooring from its Saraland, Alabama facility to its Atmore, Alabama facility. On August 11, 2022, the Company entered into a joint venture to manufacture luxury vinyl tile (See Note 20). A portion of the Company's Atmore, Alabama facility will be leased to the joint venture for luxury vinyl floor manufacturing. Costs for the plan will include machinery and equipment relocation, inventory relocation, staff reductions and unabsorbed fixed costs during conversion of the Atmore facility.

Costs related to the facility consolidation plans are summarized as follows:

NOTE 22 - DISCONTINUED OPERATIONS

The Company has either sold or discontinued certain operations that are accounted for as "Discontinued Operations" under applicable accounting guidance. Discontinued operations are summarized as follows:

	<u>2022</u>	<u>2021</u>
Workers' compensation costs from former textile operations	\$ (29)	\$ (172)
Environmental remediation costs from former textile operations	(346)	(146)
Commercial business operations	(1,289)	(3,308)
Loss from discontinued operations, before taxes	\$ (1,664)	\$ (3,626)
Income tax benefit	—	(89)
Loss from discontinued operations, net of tax	<u>\$ (1,664)</u>	<u>\$ (3,537)</u>

Workers' compensation costs from former textile operations

Undiscounted reserves are maintained for the self-insured workers' compensation obligations related to the Company's former textile operations. These reserves are administered by a third-party workers' compensation service provider under the supervision of Company personnel. Such reserves are reassessed on a quarterly basis. Pre-tax cost incurred for workers' compensation as a component of discontinued operations primarily represents a change in estimate for each period from unanticipated medical costs associated with the Company's obligations.

Environmental remediation costs from former textile operations

Reserves for environmental remediation obligations are established on an undiscounted basis. The Company has an accrual for environmental remediation obligations related to discontinued operations of \$2,205 as of December 31, 2022 and \$1,913 as of December 25, 2021. The liability established represents the Company's best estimate of possible loss and is the reasonable amount to which there is any meaningful degree of certainty given the periods of estimated remediation and the dollars applicable to such remediation for those periods. The actual timeline to remediate, and thus, the ultimate cost to complete such remediation through these remediation efforts, may differ significantly from the Company's estimates. Pre-tax cost for environmental remediation obligations classified as discontinued operations were primarily a result of specific events requiring action and additional expense in each period.

Commercial business operations

In accordance with the Asset Purchase Agreement dated September 13, 2021, the Company sold assets that include certain inventory, certain items of machinery and equipment used exclusively in the Commercial Business, and related intellectual property for a purchase price of \$20,500. The Purchaser also assumed the liability to fulfill the orders represented by advance customer deposit liabilities of \$3,127.

The Company retained the Commercial Business' cash deposits, all accounts receivable, and certain inventory and equipment. Additionally, the Company agreed not to compete with the specified commercial business and the Atlas|Masland markets for a period of five years following September 13, 2021. The agreement allowed for the Company to sell the commercial inventory retained by the company after the divestiture.

At closing, \$2,100 of the proceeds were withheld and deposited in escrow to cover any claims arising with respect to the Commercial business for which the Company may be liable. The \$2,100 was agreed to be released to the Company (net of claims paid, if any) in two installments with 50% of the escrow paid in 90 days from closing and the remaining amount paid 18 months from the closing date. The Company has received payment of the first installment and, as of December 31, 2022, the remaining unpaid portion of \$1,025 is recognized within current assets. As of December 31, 2022, the Company has not recognized amounts for potential indemnification settlements as those amounts cannot be reasonably estimated.

In order to release liens on certain fixed assets included in the Asset Purchase Agreement, the Company placed \$2,100 in cash collateral in an account with the lender (Greater Nevada Credit Union). The remaining proceeds were applied to the Company's debt with its senior credit facility (Fifth Third Bank). In January 2023, the lender released the funds to the Company.

Adjustments to accruals, reserves and allowances	\$	(8,462) ¹
Transaction costs		(1,032) ²
Total other transaction related costs	\$	<u>(9,494)</u>
Gain on sale of discontinued operations, before tax	\$	<u><u>2,660</u></u>

1) For the remaining retained commercial inventory and fixed assets, the Company recorded an adjustment to recognize the effects of the transaction. For inventory, the Company recognized lower of cost or market adjustments of approximately \$6,600. The Company's remaining fixed assets will be disposed of by sale and the Company recognized an adjustment of approximately \$1,800 to reflect the lower of its carrying value or estimated fair value less cost to sell. For these assets, the Company suspended the associated depreciation and will recognize changes in the fair value less cost to sell as gains or losses in future periods until the date of sale.

2) Transaction costs were legal expenses and involuntary employee termination costs related to one-time benefit arrangements.

The Company reclassified the following assets and liabilities for discontinued operations in the accompanying Consolidated Balance Sheets:

The Company and the Purchaser simultaneously entered into a transition services agreement pursuant to which the Company assisted Mannington in transitioning the AtlasMasland business to Mannington, by, among other things, assisting in filling open orders and completing the manufacture of work in progress that resulted in a temporary continued involvement in the Commercial Business until approximately December 31, 2021. The Company has shown the results of these operations as a component of discontinued operations.

NOTE 23 - RELATED PARTY TRANSACTIONS

The Company purchases a portion of its product needs in the form of fiber, yarn and carpet from Engineered Floors, an entity substantially controlled by Robert E. Shaw, a shareholder of the Company. An affiliate of Mr. Shaw holds approximately 7.8% of the Company's Common Stock, which represents approximately 3% of the total vote of all classes of the Company's Common Stock. Engineered Floors is one of several suppliers of such materials to the Company. Total purchases from Engineered Floors for 2022 and 2021 were approximately \$917 and \$3,875 respectively; or approximately 0.4% and 1.4% of the Company's cost of goods sold in 2022 and 2021, respectively. Purchases from Engineered Floors are based on market value, negotiated prices. The Company has no contractual commitments with Mr. Shaw associated with its business relationship with Engineered Floors. Transactions with Engineered Floors are reviewed annually by the Company's board of directors.

ANNUAL MEETING OF SHAREHOLDERS
May 2, 2023

PROXY STATEMENT

INTRODUCTION

The enclosed Proxy is solicited on behalf of the Board of Directors of the Company for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. This Proxy Statement and the enclosed Proxy will be mailed on or about March 17, 2023, to shareholders of record of the Company's Common Stock and Class B Common Stock as of the close of business on February 24, 2023.

At the Annual Meeting, holders of the Company's Common Stock, \$3.00 par value per share ("Common Stock"), and Class B Common Stock, \$3.00 par value per share ("Class B Common Stock"), will be asked to: (i) elect seven (7) individuals to the Board of Directors for a term of one year each, (ii) cast an advisory vote on the Company's executive compensation for its named executive officers; (iii) ratify the appointment of FORVIS, LLP to serve as independent registered public accountants of the Company for 2023, and (iv) transact any other business that may properly come before the meeting.

The Board of Directors recommends that the Company's shareholders vote (i) **FOR** electing the seven (7) nominees for director; (ii) **FOR** approving the Company's executive compensation of its named executive officers; and (iii) **FOR** ratifying the appointment of FORVIS, LLP to serve as independent registered public accountants of the Company for 2023.

RECORD DATE, VOTE REQUIRED AND RELATED MATTERS

The Board has fixed the close of business on February 24, 2023, as the Record Date for the determination of shareholders entitled to notice of, and to vote at, the Annual Meeting. In accordance with the Company's Charter, each outstanding share of Common Stock is entitled to one vote, and each outstanding share of Class B Common Stock is entitled to 20 votes, exercisable in person or by properly executed Proxy, on each matter brought before the Annual Meeting. Cumulative voting is not permitted. As of February 24, 2023, 14,453,466 shares of Common Stock, representing 14,453,466 votes, were held of record by approximately 3,664 shareholders (including an estimated 3,000 shareholders whose shares are held in nominee names) and 1,129,158 shares of Class B Common Stock, representing 22,583,160 votes, were held by 10 individual shareholders, together representing an aggregate of 37,036,626 votes.

Shares represented at the Annual Meeting by properly executed Proxy will be voted in accordance with the instructions indicated therein unless such Proxy has previously been revoked. If no instructions are indicated, such shares will be voted (i) **FOR** electing the seven (7) nominees for director; (ii) **FOR** approving the Company's executive compensation of its named executive officers; and (iii) **FOR** ratifying the appointment of FORVIS, LLP to serve as independent registered public accountants of the Company for 2023.

Any Proxy given pursuant to this solicitation may be revoked at any time by the shareholder giving it by (i) delivering to the Corporate Secretary of the Company a written notice of revocation bearing a later date than the Proxy, (ii) submitting a later-dated, properly executed Proxy, or (iii) revoking the Proxy and voting in person at the Annual Meeting. Attendance at the Annual Meeting will not, in and of itself, constitute a revocation of a Proxy. Any written notice revoking a Proxy should be sent to The Dixie Group, Inc., P.O. Box 2007, Dalton, Georgia 30722-2007, Attention: Derek Davis.

The persons designated as proxies were selected by the Board of Directors and are Daniel K. Frierson, Lowry F. Kline and Michael L. Owens. The cost of solicitation of Proxies will be borne by the Company.

The presence, in person or by Proxy, of the holders of a majority of the aggregate outstanding vote of Common Stock and Class B Common Stock entitled to vote is necessary to constitute a quorum at the Annual Meeting. In accordance with Tennessee law, Directors are elected by the affirmative vote of a plurality of the votes cast in person or by Proxy at the Annual Meeting.

Approval of the Company's executive compensation for its named executive officers will be deemed to have been obtained if the number of votes properly cast in favor of such compensation exceeds the number of votes cast against such compensation.

Ratification of the appointment of FORVIS, LLP to serve as independent registered public accountants of the Company for 2023 will be approved if the number of votes properly cast favoring ratification exceeds the number of votes cast opposing ratification.

Shares covered by abstentions and broker non-votes, while counted for purposes of determining the presence of a quorum at the Annual Meeting, are not considered to be affirmative or negative votes for purposes of Proposal One. Abstentions and broker non-votes will have no effect upon the election of a nominee for director, so long as such nominee receives any affirmative votes.

A copy of the Company's Annual Report for the year-ended December 31, 2022, is enclosed herewith.

The Board is not aware of any other matter to be brought before the Annual Meeting for a vote of shareholders. If, however, other matters are properly presented, Proxies representing shares of Common Stock and Class B Common Stock will be voted in accordance with the best judgment of the proxy holders.

PRINCIPAL SHAREHOLDERS

Shareholders of record at the close of business on February 24, 2023, the Record Date, will be entitled to notice of and to vote at the Annual Meeting.

The following is information regarding beneficial owners of more than 5% of the Company's Common Stock or Class B Common Stock. Beneficial ownership information is also presented for (i) the executive officers named in the Summary Compensation Table (the "Named Executive Officers"); (ii) all directors and nominees; and (iii) all directors and executive officers, as a group, as of February 24, 2023 (except as otherwise noted).

	Class B Common Stock	1,129,158 (16)	100 %

* Percentage of shares beneficially owned does not exceed 1% of the Class.

** The total vote of Common Stock and Class B Common Stock represented by the shares held by all directors and executive officers as a group is 24,493,441 votes or 66.1% of the total vote.

- (1) Under the rules of the Securities and Exchange Commission and for the purposes of these disclosures, a person is deemed to be a "beneficial owner" of a security if that person has or shares "voting power," which includes the power to vote or to direct the voting of such security, or "investment power," which includes the power to dispose or to direct the disposition of such security. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities. The Class B Common Stock is convertible on a share-for-share basis into shares of Common Stock, and accordingly, outstanding shares of such stock are treated as having been converted to shares of Common Stock for purposes of determining both the number and percentage of class of Common Stock for persons set forth in the table who hold such shares.
- (2) Does not include 118,510 shares of Common Stock owned by The Dixie Group, Inc. 401(k) Retirement Savings Plan (the "401(k) Plan") for which Daniel K. Frierson is a fiduciary and for which Bank of America, N.A. serves as Trustee. Participants in the 401(k) Plan may direct the voting of all shares of Common Stock held in their accounts, and the Trustee must vote all shares of Common Stock held in the 401(k) Plan in the ratio reflected by such direction. Participants may also direct the disposition of such shares. Accordingly, for purposes of these disclosures, shares held for participants in the 401(k) Plan are reported as beneficially owned by the participants.
- (3) Mr. Daniel K. Frierson's beneficial ownership of Common Stock and Class B Common Stock may be summarized as follows:

	Number of Shares Common Stock		Number of Shares Class B Common Stock	
Shares held outright	32,994	(a)	495,182	(a)
Shares held in his Individual Retirement Account	3,567	(a)

Shares held by family Unitrust	—		5,486	(a)
Deemed conversion of his Class B Common Stock	1,129,158		—	
Total	1,286,776		1,129,158	

- (a) Sole voting and investment power
- (b) Shared voting and investment power
- (c) Sole voting and shared investment power

- (4) The 1,129,158 includes 528,364 shares of Class B Common Stock held subject to a Shareholder's Agreement among Daniel K. Frierson, his wife, two of their five children (including D. Kennedy Frierson, Jr., his son) and certain family trusts which hold Class B Common Stock, pursuant to which Daniel K. Frierson has been granted a proxy to vote such shares. The Shareholder's Agreement relates only to shares of Class B Common Stock held by each of the parties to the agreement. Pursuant to the agreement Daniel K. Frierson is granted a proxy to vote such shares of Class B Common Stock so long as they remain subject to the agreement. The Class B Common Stock is convertible on a share for share basis into shares of Common Stock; however, upon conversion such shares are no longer subject to the agreement. Nevertheless, the parties to the agreement may be deemed to be members of a "group" for purposes of Section 13(d) of the act and for purposes of reporting beneficial ownership of the Common Stock of The Dixie Group, Inc., and accordingly Daniel K. Frierson, and the other parties to the agreement have jointly filed a report on Schedule 13(d) reporting beneficial ownership of the Common Stock which they own.
- (5) Jeffrey L. Gendell. has reported the beneficial ownership of an aggregate of 1,446,782 shares of Common Stock for which he has 1,399,547 shared voting power and 1,399,547 shared dispositive power and 47,235 sole voting and sole dispositive power (with Tontine Asset Associates, LLC). The reported information is based upon the Schedule 13G filed by Tontine Asset Associates, LLC and Mr. Gendell, managing member of Tontine Asset Associates, LLC, with the Securities and Exchange Commission on February 11, 2022.

- (6) Hodges Capital Holdings, Inc., Craig Hodges, Hodges Capital Management, Inc., Hodges Fund, Hodges Small Intrinsic Value Fund, and First Dallas Securities, Inc. has reported beneficial ownership of an aggregate of 1,385,900 shares of Common Stock. Hodges Capital Holdings, Inc. reports having shared voting power of 1,127,845 and 1,385,900 shared dispositive power. The reported information is based upon the Schedule 13G filed by Hodges Capital Holdings, Inc. with the Securities and Exchange Commission on February 2, 2021.
- (7) Robert E. Shaw has reported the beneficial ownership of an aggregate of 1,125,000 shares of Common Stock for which he has 1,125,000 shared voting power and 1,125,000 shared dispositive power. The reported information is based upon the Schedule 13G filed by Mr. Shaw with the Securities and Exchange Commission on January 25, 2023.

PROPOSAL ONE ELECTION OF DIRECTORS

Information About Nominees for Director

Pursuant to the Company's Bylaws, all Directors are elected to serve a one year term, or until their successors are elected and qualified. The Board of Directors is permitted to appoint Directors to fill the unexpired terms of Directors who resign.

The names of the nominees for election to the Board, their ages, their principal occupation or employment (which has continued for at least the past five years unless otherwise noted), directorships held by them in other publicly-held corporations or investment companies, the dates they first became Directors of the Company, and certain other relevant information with respect to such nominees are as follows:

William F. Blue, Jr., age 64, is Chairman of the Board of The Hopeway Foundation in Charlotte, North Carolina. From 2008 until his retirement in 2014, he served as Vice Chairman of Investment Banking and Capital Markets, part of Wells Fargo Securities, LLC, in Charlotte. Throughout his 29-year investment banking career, he represented foreign and domestic corporations in financing and advisory assignments, including acquisitions, divestitures, recapitalizations, fairness opinions, and public and private equity and debt offerings. From 1998 until 2008, Mr. Blue served as group head of the Wachovia Consumer and Retail Investment Banking group. Before joining Wachovia, he was a managing director in the Mergers and Acquisitions group of NationsBanc Montgomery Securities, the predecessor firm to Banc of America Securities. Mr. Blue is a member of the Company's Audit Committee, Executive Committee and Chairman of the Company's Compensation/Nominations and Corporate Governance Committee. Mr. Blue serves as Lead Independent Director and chairs Executive Sessions of the Board. Mr. Blue has been a Director of the Company since October 2014

Charles E. Brock, age 58, is the owner of Brock Partnerships, an entrepreneurial advisory and investment firm. From 2013-2018, Mr. Brock served as President and Chief Executive Officer of Launch Tennessee, a public-private partnership, focused on the development of high-growth companies in Tennessee. Previously, he served as the Executive Entrepreneur of The Company Lab, a Chattanooga organization that serves as "the Front Door for Entrepreneurs" in Southeast Tennessee and one of Launch Tennessee's regional accelerators. Mr. Brock was a founding partner of the Chattanooga Renaissance Fund, a locally based angel investment group. Mr. Brock also serves as a director of Four Bridges Capital Advisors, a Chattanooga based boutique investment bank as well as director of Pinnacle Financial Partners. Mr. Brock is a member of the Company's Audit Committee and a member of the Company's Compensation/Nominations and Corporate Governance Committee. He has been a Director of the Company since 2012.

Daniel K. Frierson, age 81, is Chairman of the Board of the Company, a position he has held since 1987. He also has been Chief Executive Officer of the Company since 1980 and a Director of the Company since 1973. Mr. Frierson serves as a Director of Printpack, Inc., a world leading Flexible Packaging Company, headquartered in Atlanta, Georgia and serves as Chairman of its Compensation Committee. Mr. Frierson is Chairman of the Executive Committee.

D. Kennedy Frierson, Jr., age 56, is Chief Operating Officer of the Company, a position he has held since 2009. He has been President of Masland Residential, General Manager of Dixie Home, and President of Bretlin as well as various other positions in operations, sales and senior management of the Company since 1998. He has been a Director of the Company since 2012.

Lowry F. Kline, age 82, served as a director of Coca-Cola Enterprises, Inc. from April 2000 until April 2008, serving as Chairman from April 2002 until April 2008, and as Vice Chairman from April 2000 to April 2003. Mr. Kline served as Chief Executive Officer of Coca-Cola Enterprises, Inc. from April 2001 until January 2004 and from December 2005 to April 2006. Prior to becoming Chief Executive Officer for Coca-Cola Enterprises, Inc., he held a number of positions with said company, including Chief Administrative Officer, Executive Vice President and General Counsel. Mr. Kline is a former director of Jackson Furniture Industries, Inc., headquarter in Cleveland, Tennessee and McKee Foods Corporation, headquartered in Collegedale, Tennessee. Mr. Kline is a member of the Company's Compensation/Nominations and Corporate Governance Committee, a member of the Company's Audit Committee, and is a member of the Company's Executive Committee. He has been a Director of the Company since 2004.

Hilda S. Murray, age 68, is the Corporate Secretary and Executive Vice President of TPC Printing & Packaging, a specialty packaging and printing company in Chattanooga, TN. She is also founder and President of Greener Planet, LLC, an environmental compliance consultant to the packaging and printing industry. Ms. Murray has been a Director of the Company since 2012, is a member of the Company's Audit Committee, and is a member of the Company's Compensation/Nominations and Corporate Governance Committee.

Michael L. Owens, age 66, is Assistant Dean of Graduate Programs and Lecturer in the College of Business at the University of Tennessee at Chattanooga, Chattanooga, Tennessee. Prior to joining the University of Tennessee at Chattanooga, Mr. Owens was President of Coverdell & Company, Atlanta, Georgia. Prior to joining Coverdell, he was Senior Vice President

and Chief Operating Officer of Monumental Life Insurance Company. He has been a Director of the Company since 2014 and is Chairman of the Company's Audit Committee.

D. Kennedy Frierson, Jr., the Company's Vice President and Chief Operating Officer, is the son of Daniel K. Frierson. No other director, nominee, or executive officer of the Company has any family relationship, not more remote than first cousin, to any other director, nominee, or executive officer.

Considerations with Respect to Nominees

In selecting the slate of nominees for 2023, the independent Directors of the Board considered the familiarity of the Company's incumbent Directors with the business and prospects of the Company, developed as a result of their service on the Company's Board. The Board believes that such familiarity will be helpful in their service on the Company's Board. With respect to all nominees, the independent Directors of the Board noted the particular qualifications, experience, attributes and skills possessed by each nominee. These qualifications are reflected in the business experience listed under each nominee's name above. In order of the list of nominees, such information may be summarized as follows: Mr. Blue is an experienced investment banker having been Vice Chairman of Wells Fargo Securities and involved with capital formation, mergers, acquisitions and financing of various types of venture; he chairs the Company's Compensation/Nominations and Corporate Governance Committee. Mr. Brock is experienced in establishing new businesses having been involved in the establishment of both Foxmark Media and CapitalMark Bank and Trust. Mr. Daniel K. Frierson has served with the Company in several management and executive capacities his entire adult life, and has been Chief Executive Officer since 1980 and a Board member since 1973. In such capacity, he has been instrumental in planning and implementing the transition of the Company to its current position as a manufacturer of residential floorcovering products. Additionally, Mr. Frierson has experience as a board member of other public companies as well as significant trade group experience relevant to the Company's business. He is well known and respected throughout the industry. Mr. D. Kennedy Frierson, Jr. has served with the Company in various capacities since 1992. He is currently Chief Operating Officer. Mr. Kline has a long history of management and board level experience with the world's largest bottler and distributor of Coca Cola Products. Additionally, he has an extensive background in business, corporate and securities law. Mr. Kline has served as a Director of the Company for several years, as reflected above. Ms. Murray has a long history of executive management experience at TPC Printing and Packaging, a provider to the specialty packaging business as well as experience with environmental controls and footprint through Greener Planet. Mr. Owens has extensive business and management experience, having served as President of Coverdell & Company prior to joining the University of Tennessee at Chattanooga. In addition, he has auditing experience having been employed as a certified public accountant and is Chairman of the Company's Audit Committee.

The Board of Directors recommends that the Company's shareholders vote FOR electing the seven (7) nominees for director.

MEETINGS AND COMMITTEES OF THE BOARD OF DIRECTORS

Meetings of the Board of Directors

The Board of Directors of the Company met five (5) times in 2022.

Committees, Attendance, and Directors' Fees

The Company has a standing Executive Committee, Audit Committee and a Compensation/Nominations and Corporate Governance Committee. Copies of the Company's Audit Committee and Compensation/Nominations and Corporate Governance Committee charters, and the Company's resolution establishing the Executive Committee's authority may be found on the Company's website at www.dixiegroup.com/investor.

Members of the Executive Committee are Daniel K. Frierson, Chairman, William F. Blue, Jr. and Lowry F. Kline. Except as otherwise limited by law or by resolution of the Board of Directors, the Executive Committee has and may exercise all of the powers and authority of the Board of Directors for the management of the business and affairs of the Company, which power the Executive Committee exercises between the meetings of the full Board of Directors.

Members of the Audit Committee are Michael L. Owens, Chairman, William F. Blue, Jr., Charles E. Brock, Lowry F. Kline, and Hilda S. Murray. All of the members of the Audit Committee are "independent directors" as that term is defined by applicable regulations and rules of the National Association of Securities Dealers, Inc. ("NASD"). The Audit Committee evaluates audit performance, handles relations with the Company's independent auditors, and evaluates policies and procedures relating to internal accounting functions and controls. The Audit Committee has the authority to engage the independent accountants for the Company. The Audit Committee operates pursuant to an Audit Committee Charter adopted by the Board of Directors. The Audit Committee has implemented pre-approval policies and procedures related to the provision of audit and non-audit services performed by the independent auditors. Under these procedures, the Audit Committee approves the type of services to be provided and the estimated fees related to those services.

The Audit Committee met five (5) times in 2022.

Members of the Compensation/Nominations and Corporate Governance Committee are William F. Blue, Jr., Chairman, Charles E. Brock, Lowry F. Kline and Hilda S. Murray. In its role as a Compensation Committee it administers the Company's compensation plans, reviews and may establish the compensation of the Company's officers, and makes recommendations to the Board of Directors concerning such compensation and related matters. The Committee acts pursuant to a written Charter adopted by the Board of Directors.

The Committee may request recommendations from the Company's management concerning the types and levels of compensation to be paid to the Company's executive officers. Additionally, the Committee is authorized to engage compensation consultants and may review and consider information and recommendations of compensation consultants otherwise engaged by the Company or the Board of Directors in connection with the assessment, review and structuring of compensation plans and compensation levels. For a description of the Committee actions with respect to Compensation of Executive Officers for 2022, see **Compensation Discussion and Analysis - Compensation for 2022**.

Annually, the Committee reviews the performance of the Chief Executive Officer against goals and objectives established by the Committee as part of the process of determining his compensation. The Committee reports to the Board on its performance review.

The Compensation/Nominations and Corporate Governance Committee met two (2) times in 2022, in its role as a Compensation Committee and once in its role as a Nominations and Corporate Governance Committee. In its role as a Nominations and Corporate Governance Committee, the Committee develops and recommends for board approval corporate governance guidelines.

The Compensation/Nominations and Corporate Governance Committee's Charter includes the duties of a corporate governance committee and of a nominating committee. Nominees approved by a majority of the Committee are recommended to the full Board. In selecting and approving director nominees, the Committee considers, among other factors, the existing composition of the Board and the mix of Board members appropriate for the perceived needs of the Company. The Committee believes continuity in leadership and board tenure increase the Board's ability to exercise meaningful board oversight. Because qualified incumbent directors provide stockholders the benefit of continuity of leadership and seasoned judgment gained through experience as a director of the Company, the Committee will generally give priority as potential candidates to those incumbent directors interested in standing for re-election who have satisfied director performance expectations, including regular attendance at, preparation for and meaningful participation in Board and committee meetings.

The Committee also considers the following in selecting the proposed nominee slate:

- at all times at least a majority of directors must be “independent” in the opinion of the Board as determined in accordance with relevant regulatory and NASD standards;
- at all times at least three members of the Board must satisfy heightened standards of independence for Audit Committee members; and
- at all times the Board should have at least one member who satisfies the criteria to be designated by the Board as an “audit committee financial expert”.

In selecting the current slate of director nominees, the Committee considered overall qualifications and the requirements of the makeup of the Board of Directors. The Board considered the value of the incumbents’ familiarity with the Company and its business as well as the considerations outlined above under the heading **Considerations with Respect to Nominees**.

Board Leadership Structure

Mr. Daniel K. Frierson currently serves as the Chairman of the Board and the Chief Executive Officer of the Company. The positions of Chief Executive Officer and Chairman of the Board are combined. Executive Sessions of the Board are chaired by Director William F. Blue, Jr. Mr. Blue and the independent directors set their own agenda for meetings in Executive Session and may consider any topic relevant to the Company and its business. The Company believes that regular, periodic, meetings held in Executive Session, in the absence of management members or management directors, provide the Board an adequate opportunity to review and address issues affecting management or the Company that require an independent perspective. Additionally, the Company’s Audit Committee holds separate Executive Sessions with the Company’s independent registered public accounts, internal auditor and management. The Audit Committee also sets its own agenda and may consider any relevant topic in its executive sessions.

Director Attendance

During 2022, no director attended fewer than 75% of the total number of meetings of the Board of Directors and any Committee of the Board of Directors on which he or she served. All directors are invited and encouraged to attend the annual meeting of shareholders. In general, all directors attend the annual meeting of shareholders unless they are unable to do so due to unavoidable commitments or intervening events.

Director Compensation

Non-employee directors receive an annual retainer of \$40,000, payable in quarterly installments of \$10,000 each. Committee Chairs receive an additional annual retainer of \$10,000, also payable in quarterly installments. There are no additional individual Board or Committee meeting fees. Each non-employee director also receives an equity award of \$40,000 in value of restricted stock with such value determined by reference to the public share price (the closing price) as of the date of the annual meeting at which the individual is elected, or, if the individual is appointed to the Board, then with reference to the stock price as of the date of appointment (subject to a deemed minimum stock price of \$5 per share). The restricted stock award will vest five business days after the succeeding annual meeting.

Independent Directors

The Board has determined that William F. Blue, Jr., Charles E. Brock, Lowry F. Kline, Hilda S. Murray, and Michael L. Owens are independent within the meaning of the standards for independence set forth in the Company’s corporate governance guidelines, which are consistent with the applicable Securities and Exchange Commission (“SEC”) rules and NASDAQ standards.

Executive Sessions of the Independent Directors

The Company’s independent directors meet in executive session at each regularly scheduled quarterly meeting of the Board, with Director William F. Blue serving as chair of such executive sessions.

Management Succession

Periodically, the Board reviews a succession plan, developed by management, addressing the policies and principles for selecting successors to the Company's executive officers, including the Company's CEO. The succession plan includes an assessment of the experience, performance and skills believed to be desirable for possible successors to the Company's executive officers.

Certain Transactions between the Company and Directors and Officers

The Company's Compensation/Nominations and Corporate Governance Committee has adopted written policies and procedures concerning the review, approval or ratification of all transactions required to be disclosed under the SEC's Regulation S-K, Rule 404. These policies and procedures cover all related party transactions required to be disclosed under the SEC's rules as well as all material conflict of interest transactions as defined by relevant state law and the rules and regulations of NASDAQ that are applicable to the Company, and require that all such transactions be identified by management and disclosed to the Committee for review. If required and appropriate under the circumstances, the Committee will consider such transactions for approval or ratification. Full disclosure of the material terms of any such transaction must be made to the Committee, including:

- the parties to the transaction and their relationship to the Company, its directors and officers;
- the terms of the transaction, including all proposed periodic payments; and
- the direct or indirect interest of any related parties or any director, officer or associate in the transaction.

To be approved or ratified, the Committee must find any such transaction to be fair to the Company. Prior approval of such transactions must be obtained generally, if they are material to the Company. If such transactions are immaterial, such transactions may be ratified and prior approval is not required. Ordinary employment transactions may be ratified.

Certain Related Party Transactions

During its fiscal year ended December 31, 2022, the Company purchased a portion of its product needs in the form of fiber, yarn, and carpet from Engineered Floors, an entity substantially controlled by Robert E. Shaw, a shareholder of the Company. Mr. Shaw has reported holding approximately 7.8% of the Company's Common Stock, which, as of year-end, represented approximately 3.0% of the total vote of all classes of the Company's Common Stock. Engineered Floors is one of several suppliers of such products to the Company. Total purchases from Engineered Floors for 2022 were approximately \$0.9 million; or approximately 0.4% of the Company's cost of goods sold in 2022. In accordance with the terms of its Charter, the Compensation/Nominations and Corporate Governance Committee reviewed the Company's supply relationship with Engineered Floors. The dollar value of Mr. Shaw's interest in the transactions with Engineered Floors is not known to the Company.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee of the Board of Directors is composed of five members, each of whom is an independent, non-employee director. The Audit Committee operates under a written Audit Committee Charter adopted and approved by the Board of Directors. The Charter is reviewed at least annually by the Committee. While the Committee has the responsibilities and powers set forth in its written charter, it is not the duty of the Committee to plan or conduct audits. This function is conducted by the Company's management and its independent registered public accountants.

The Committee has reviewed and discussed with management the audited financial statements of the Company for the year ended December 31, 2022 (the "Audited Financial Statements"). In addition, the Committee has discussed with FORVIS, LLP all matters required by applicable auditing standards.

The Committee also has received the written report, disclosure and the letter from FORVIS, LLP required by PCAOB Rule 3526, "Communication with Audit Committees Concerning Independence", and the Committee has reviewed, evaluated, and discussed with that firm the written report and its independence from the Company. The Committee also has discussed with management of the Company and FORVIS, LLP such other matters and received such assurances from them as the Committee deemed appropriate.

Based on the foregoing review and discussions and relying thereon, the Committee has recommended to the Company's Board of Directors the inclusion of the Company's Audited Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2022, to be filed with the Securities and Exchange Commission.

THE AUDIT COMMITTEE

Michael L. Owens, Chairman
William F. Blue, Jr.
Charles E. Brock
Lowry F. Kline
Hilda S. Murray

AUDIT COMMITTEE FINANCIAL EXPERT

The Board has determined that Michael L. Owens, Chairman of the Audit Committee, is an audit committee financial expert as defined by Item 407(d)(5) of Regulation S-K of the Securities Exchange Act of 1934, as amended, and is independent within the meaning of Rule 10A-3(b)(1) of the Securities Exchange Act of 1934. For a brief list of Mr. Owens' relevant experience, please refer to Mr. Owens' biographical information as set forth in the Election of Directors section of this proxy statement. Additionally, the Board believes the remaining members of the Audit Committee would qualify as audit committee financial experts, within the meaning of applicable rules, based on each individual's qualification and expertise.

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation/Nominations and Corporate Governance Committee, acting in its capacity as a Compensation Committee, reviews and sets compensation for the Company's executive officers. The Committee currently consists of four independent directors (currently all independent directors with the exception of Michael L. Owens, Chairman of the Company's Audit Committee) chosen annually by the Board.

Compensation of the Company's executive officers is intended to be competitive with compensation offered by other companies generally similar to the Company in size and lines of business. In determining what types and levels of compensation to offer, the Committee may review relevant, publicly available data and, from time to time, it may receive advice and information from professional compensation consultants.

The Elements of Executive Officer Compensation

Compensation of the Company's Executive Officers consists generally of base salary, retirement plan benefits and other customary employment benefits, as well as potential cash incentive awards and stock plan awards pursuant to annual incentive plans reviewed and adopted by the Committee at the beginning of each year. The annual incentive plan is customarily structured so that a significant portion of each executive's potential annual compensation may consist of equity awards, the award value of which is tied to accomplishing both financial and non-financial goals and objectives.

Compensation for 2022. Effective March 2022, the Committee selected performance goals and objectives and a range of possible incentives for the annual 2022 Incentive Plan (the "2022 Plan"). Pursuant to the 2022 Plan, each executive officer had the opportunity to be granted a cash incentive award, a Primary Long-Term Incentive Award of restricted stock, and an award of restricted stock denominated as "Career Shares."

In addition to required levels of achievement of certain financial goals related to the Company as a whole and the Company's business units, the 2022 Plan established certain individual goals and objectives for each officer participating in the Plan. The Committee retained significant discretion in evaluating achievement of the financial and individual goals.

No cash incentive awards or stock awards were paid or granted under the 2022 Plan.

Compensation Paid under the 2021 Incentive Plan. Continued employment at the time of grant or payment were required under the incentive plan applicable to 2021 (the "2021 Plan"). Accordingly, all bonus and stock awards paid or awarded under the 2021 plan for performance during 2021 were paid or granted in 2022.

Incentive Compensation Applicable to 2023. Following year-end, the Committee adopted an incentive plan for 2023 (the "2023 Plan") providing for possible cash incentive awards and restricted stock awards in the form of Long-Term Incentive Share Awards and Career Share awards, as in prior years. The Committee has reserved to itself the discretion to increase as well as reduce awards based on its evaluation of various factors applicable to the Plan and each participant. The Committee is authorized to modify the Plan and the assessment of individual performance based on unusual or extraordinary items. Any such awards, if earned, will be paid, in the case of the cash award, or granted, in the case of the restricted stock awards, in March 2024.

Potential Awards for 2023. The CEO and the Chief Operating Officer have the opportunity to earn a cash payment ranging from 45% to not more than 105% of such executive's base salary. The Chief Financial Officer and all other officers whose responsibilities primarily relate to corporate level administration will have the opportunity to earn a cash payment ranging from 15% to 75% of such officer's base salary. Subject to Committee discretion, 100% percent of the potential amount will be based on achievement of specified levels of operating income from continuing operations of the Company, as adjusted for unusual items.

The President of the Company's residential business unit will have the opportunity to earn a cash payment ranging from 30% to 90% of his base salary. Subject to Committee discretion, 100% percent of the amount will be based on achievement of specified levels of the Company's consolidated operating income, as adjusted for unusual items.

The Primary Long-Term Incentive Share Award is designed as a possible award of restricted shares, in value equal to no more than 35% of the executive's base salary as of the beginning of 2023 (45% in the case of the Chief Executive Officer) plus any cash incentive award paid for such year. Any Primary Long-Term Incentive Share Awards, if earned, vest ratably over three years.

Career Shares are designed as a possible award of restricted stock valued at 20% of each executive officer's base salary as of the beginning of the year, excluding the Company's Chief Operating Officer. The level of potential career share awards was set at 35% of the Chief Operating Officer's base salary for 2023.

In accordance with past practice, any such award, if earned, will be granted in 2024. For participants age 61 or older, the Career Share Awards vest ratably over two years from the date of the grant. For the participants age 60 or younger, shares vest ratably over five years from the date of grant after the participant reaches age 61.

Additionally, all Share Awards are subject to vesting or forfeiture under certain conditions as follows: death, disability or a change in control will result in immediate vesting of all Share Awards; termination without cause will also result in immediate vesting of all Career Share Awards and in immediate vesting of that portion of Long-Term Incentive Share Awards that has been expensed; voluntary termination of employment prior to retirement, or termination for cause will result in forfeiture of all unvested awards; to the extent that the Company has recognized compensation expense related to the shares subject to the awards, such amounts vest at retirement age and are paid out by March 15th of the subsequent year.

All awards of restricted stock are subject to a \$5.00 minimum price per share when determining the number of shares awarded. The Compensation Committee has retained the discretion to reduce or increase any award otherwise earned based on the participant's achievement of individual performance goals set by the Committee.

Policies with Respect to Hedging Company Securities. All incentive Equity Awards issued to the Company's executives (including the Company's Named Executive Offices) expressly prohibit hedging or hypothecation of restricted stock awards prior to vesting.

Retirement Plans and Other Benefits. The Company's compensation for its executive officers also includes the opportunity to participate in two retirement plans, one qualified and one non-qualified for federal tax purposes, and certain health insurance, life insurance, relocation allowances, and other benefits. Such benefits are designed to be similar to the benefits available to other exempt, salaried associates of the Company, and to be comparable to and competitive with benefits offered by businesses with which the Company competes for executive talent.

Executive officers may elect to contribute a limited amount of their compensation to the qualified plan and make deferrals into the non-qualified plan (up to 90% of total compensation). Although the plans permit the Company to make discretionary contributions in an aggregate amount equal to up to 3% of the executive officer's cash compensation, for 2022 the Company made a contribution of 3% to the qualified plan, while no Company contributions were made to the non-qualified plan.

Compensation Considerations for 2022 and 2023. The tax effect of possible forms of compensation on the Company and on the executive officers is a factor considered in determining types of compensation to be awarded. Similarly, the accounting treatment accorded various types of compensation may be an important factor used to determine the form of compensation. The deductibility, for tax purposes, of compensation paid to named executive officers is subject to limits imposed by Section 162 of the Internal Revenue Code. Annual compensation exceeding \$1 million is non-deductible. Accordingly, all compensation in excess of \$1 million paid to any of the Company's Named Executive Officers (and the Chief Financial Officer) in any given year will be non-deductible.

The Company held a "Say on Pay" vote at its annual meeting in 2022. At that meeting, in excess of 98% of the votes were cast "For" approval of our executive compensation as described in the Proxy Statement for that meeting. The Committee intends to consider these results as part of its ongoing review of executive compensation.

Termination Benefits. Upon a Participant's reaching retirement age (as defined in the plan), all Long-Term Incentive Plan and Career Share restricted stock awards vest to the extent such awards have been expensed in the Company's financial statements. As of year-end, Daniel K. Frierson is the only Named Executive Officer eligible for retirement in accordance with the terms of the restricted stock awards. If Mr. Frierson had retired at year end, the number of shares subject to such awards that would have vested and the value of such shares would have been 69,650 shares and \$54,327. For purposes of valuing the foregoing awards, the Company used the year-end market value of the Company's Common Stock, which was \$0.78/share.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis, set forth above, with management.

Based on our review and the discussions we held with management, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Proxy Materials.

Respectfully submitted,

William F. Blue, Jr., Chairman
Charles E. Brock
Lowry F. Kline
Hilda S. Murray

PAY VS PERFORMANCE

The following is a tabular presentation of pay vs performance presenting certain information regarding the compensation earned by the Chief Executive Officer and the Named Executive Officers, and comparing such information to a "total shareholder return" (or "TSR") measure.

Year	Summary Compensation Table (SCT) Total for Principal Executive Officer (PEO)(1) (\$)	Compensation Actually Paid to PEO(2) (\$)	Average SCT Total for Non-PEO NEOS(3) (\$)	Value of Initial Fixed \$100 Investment Based on: Company TSR (\$)	Company Net Income (\$)
2022	976,093	271,437	498,379	30	(35,079)
2021	1,512,883	1,744,532	690,563	216	1,616

1. The Summary Compensation Table upon which this is based presents bonuses in the year in which they were accrued such that any bonus earned for performance in 2021 is shown for 2021 (although paid following year-end) while equity awards are shown for the year such awards were granted.

2. To determine amounts actually paid with respect to equity awards [as defined and required by applicable rules] the following amounts were **deducted** for 2022 and 2021: a) \$346,079 for 2022; \$363,877 for 2021, representing the value of awards granted and unvested in those years; b) \$310,298 for 2022, representing the **decrease** in fair value of awards granted in prior years outstanding as of year-end 2022 and valued as of year-end; and c) \$148,161 for 2021, and \$18,716 for 2021 representing the **decrease** in fair value of awards granted in prior years and vesting in 2022, and 2021 respectively, valued at vesting date. The following amounts were **added** for 2022 and 2021: a) \$99,881 for 2022 and \$575,493 for 2021, representing the value at year-end of awards granted and outstanding at year-end 2022 and 2021 respectively; and b) \$37,750 for 2021 representing the **increase** in fair value of awards granted in prior years and outstanding as of year-end 2021 and valued as of year-end.

3. For all years presented the Named Executive Officers were: Daniel K. Frierson (PEO); D. Kennedy Frierson, Jr. and T.M. Nuckols, Jr.

EXECUTIVE COMPENSATION INFORMATION

The following table sets forth information as to all compensation earned during the fiscal years ended December 25, 2021 and December 31, 2022 for (i) the Company's Chief Executive Officer; and (ii) the two other most highly compensated executive officers who served as such during the fiscal year ended December 31, 2022 (the "Named Executive Officers"). For a more complete discussion of the elements of executive compensation, this information should be read in conjunction with the other tabular information presented in the balance of this section.

- (1) Non-employee directors receive an annual retainer of \$40,000, payable in quarterly installments of \$10,000 each. Committee Chairs receive an additional annual retainer of \$10,000, also payable in quarterly installments. There are no additional individual Board or Committee meeting fees. Each non-employee director also receives an equity award of \$40,000 in value of restricted stock with such value determined by reference to the public share price (the closing price) as of the date of the annual meeting at which the individual is elected, or, if the individual is appointed to the Board, then with reference to the stock price as of the date of appointment (subject to a deemed minimum stock price of \$5 per share). The restricted stock award will vest five business days after the succeeding annual meeting.
- (2) The value presented is the aggregate grant date fair value computed in accordance with FASB ASC Topic 718, using the annual meeting date as the grant date.

PROPOSAL TWO

ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required under recent amendments to the Securities Exchange Act of 1934, our stockholders may cast an advisory vote on the compensation of our Named Executive Officers, as described in this proxy statement.

Our executive compensation programs are designed to attract, motivate and retain our Named Executive Officers, who are critical to our success. Please read the *Compensation Discussion and Analysis* for additional details about our executive compensation programs, including information about the fiscal 2022 compensation of our Named Executive Officers.

We are asking our Shareholders to indicate their approval of our Named Executive Officer compensation as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on our Named Executive Officers’ compensation.

We recommend that stockholders vote, on an advisory basis, “FOR” the following resolution:

“RESOLVED, that the Company’s stockholders approve, on an advisory basis, the compensation of the Company’s named executive officers, as discussed and disclosed in the *Compensation Discussion and Analysis*, the executive compensation tables and related narrative executive compensation disclosure in this proxy statement.”

The above resolution will be deemed to be approved if it receives the affirmative vote of a majority of the total votes cast on Proposal Two at the annual meeting. Abstentions and broker non-votes are not considered to be votes cast and, accordingly, will have no effect on the outcome of the vote. As this vote is an advisory vote, the outcome is not binding on us with respect to future executive compensation decisions, including those relating to our Named Executive Officers. Our Board of Directors and our Compensation Committee, however, value the opinions of our stockholders, and to the extent there is any significant vote against the Named Executive Officer compensation as disclosed in this proxy statement, the Compensation Committee will consider our stockholders’ concerns and will evaluate whether any actions are necessary to address those concerns.

The Board of Directors recommends that the Company’s shareholders vote FOR the approval of Proposal Two.

PROPOSAL THREE

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS FOR 2023

On June 1, 2022, The Dixie Group, Inc. (the “Company”) was informed by its independent registered accountants, Dixon Hughes Goodman, Certified Public Accountants (“DHG”), that it merged with BDK, LLP (“BDK”) effective June 1, 2022 in a merger of equals. FORVIS, LLP was the surviving firm and the merged entities will practice under that name. As a result of the merger, DHG effectively ceased being the Company’s independent registered public accounting firm and FORVIS, LLP, as the successor to DHG following the merger, became the Company’s independent registered public accounting firm. The engagement of FORVIS, LLP was approved by the Audit Committee of the Company’s Board of Directors on June 2, 2022. As a result, the reports previously issued by DHG with respect to the Company will be reissued by, and any consents to the use of such reports will be issued by FORVIS, LLP.

DHG’s report on the Company’s financial statements as of and for the years ended December 26, 2020 and December 25, 2021 did not contain any adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles. During the years ended December 26, 2020 and December 25, 2021 and the subsequent period through the effective date of this filing (i) there have been no disagreements with DHG, whether or not resolved, on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to the satisfaction of DHG, would have caused DHG to make reference to the subject matter of the disagreement in connection with its reports, (ii) no such disagreement was discussed with the Company’s Board of Directors or any committee of the Board of Directors of the Company, and (iii) there have been no “reportable events” as described in Item 304(a)(1)(v) of Regulation S-K.

Neither the Company nor anyone on behalf of the Company consulted BDK or FORVIS, LLP regarding either (a) the application of accounting principles to a specified transaction, either completed or contemplated, or the type of audit opinion that might be rendered on the financial statements of the Company, and no written or oral advice of BDK or FORVIS, LLP was provided with respect to any accounting, auditing, or financial reporting issue, or (b) any matter that was either the subject of a disagreement of the type described in Item 304(a)(iv) of Regulation S-K or any “reportable event” described in Item 304(a)(1)(v) of Regulation S-K.

On June 3, 2022 the Company filed a current report on Form 8-K reporting the change in its certifying accountant and provided FORVIS, LLP (as successor by merger to DHG) with a copy of the “Report” and requested FORVIS, LLP to review the disclosures contained in the Report and furnish the Company with a letter addressed to the Securities and Exchange Commission stating whether it agreed with the statements made therein. A copy of the FORVIS, LLP letter dated June 3, 2022, provided in response to that request, was filed as Exhibit 16.1 to that Report.

On June 2, 2022, the Audit Committee of the Company’s Board of Directors approved the engagement of FORVIS, LLP as the Company’s independent registered accounting firm, effective as of June 2, 2022.

Subject to ratification of its decision by the Company’s shareholders, the Company has selected the firm of FORVIS, LLP to serve as its independent registered public accountants for its 2023 fiscal year. A representative of FORVIS, LLP is expected to be present at the Annual Meeting and will have the opportunity to make a statement if he so desires and to respond to appropriate questions from shareholders.

The Board of Directors recommends that the Company’s shareholders vote FOR Proposal Three.

In the event that the Company’s shareholders do not ratify the selection of FORVIS, LLP as independent registered public accountants for fiscal 2023, the Board of Directors will consider other alternatives, including appointment of another firm to serve as independent registered public accountants for fiscal 2023.

AUDIT FEES DISCUSSION

The following table sets forth the fees paid to FORVIS, LLP and Dixon Hughes Goodman LLP for services provided during fiscal year 2021 and 2022:

	2022	2021
Audit fees paid (1)	\$ 696,005	\$ 849,364
Tax fees (2)	10,327	7,800
All other fees (3)	11,000	—
Total Audit Fees	<u>\$ 717,332</u>	<u>\$ 857,164</u>

Represents fees for professional services paid to FORVIS, LLP (for 2022) and Dixon Hughes Goodman LLP (for 2021) provided in connection with the audit of the Company's annual financial statements, review of the Company's quarterly financial statements, review of other SEC filings and technical accounting issues during 2021 and 2022.
2. Represents fees for tax compliance and tax planning services.
3. Represents fees related to an S-8 Registration Statement filing.

It is the policy of the Audit Committee to pre-approve all services provided by its independent registered public accountants. In addition, the Audit Committee has granted the Chairman of the Audit Committee the power to pre-approve any services that the Committee, as a whole, could approve. None of the fees were approved by the Audit Committee pursuant to the de minimis exception of Reg. S-X T Rule 2-01(c)(7)(i)(C).

SHAREHOLDER PROPOSALS FOR INCLUSION IN NEXT YEAR'S PROXY STATEMENT

In the event any shareholder wishes to present a proposal at the 2024 Annual Meeting of Shareholders, such proposal must be received by the Company on or before November 10, 2023, to be considered for inclusion in the Company's proxy materials. All shareholder proposals should be addressed to the Company at its principal executive offices, P.O. Box 2007, Dalton, Georgia 30722-2007, Attention: Corporate Secretary, and must comply with the rules and regulations of the Securities and Exchange Commission.

COMMUNICATIONS WITH THE BOARD OF DIRECTORS

Shareholders who wish to communicate with members of the Board, including the independent directors individually or as a group, may send correspondence to them in care of the Corporate Secretary at the Company's corporate headquarters, P.O. Box 2007, Dalton, Georgia 30722-2007.

ADDITIONAL INFORMATION

The entire cost of soliciting proxies will be borne by the Company. In addition to solicitation of proxies by mail, proxies may be solicited by the Company's directors, officers, and other employees by personal interview, telephone, and telegram. The persons making such solicitations will receive no additional compensation for such services. The Company also requests that brokerage houses and other custodians, nominees and fiduciaries forward solicitation materials to the beneficial owners of the shares of Common Stock held of record by such persons and will pay such brokers and other fiduciaries all of their reasonable out-of-pocket expenses incurred in connection therewith.

OTHER MATTERS

As of the date of this Proxy Material, the Board does not intend to present, and has not been informed that any other person intends to present, any matter for action at the Annual Meeting other than those specifically referred to herein. If other matters should properly come before the Annual Meeting, it is intended that the holders of the proxies will vote in accordance with their best judgment.
