## Photos total

in millions
-9.3\%

Target 2017:
$-5 \%$ to 0\%

- Structural change in revenue in favour of, e.g., wall art reduces picture count

## CEWE PHOTOBOOK volume Q1

in thousands

- Divestment of Smilebooks US-volume and discontinuation of low margin retail partner reduce volume
- Volume reduction probably also partly due to the increase in value added tax imposed on photo books in Germany and Austria

## Photos Total by Quarter

Saisonal distribution: CEWE 2013 to 2017
Total share of photos per quarter as a percentage

Rounding differences may occur.

## Value of Photos Q1

- In Q1, value per photo compensates decrease in print volume and stabilizes photofinishing turnover

## Shares in Turnover by Quarter - Photofinishing

Seasonal distribution: CEWE 2013 to 2017

## Photofinishing Segment in Q1

- Growth in CEWE WALL PICTURES in particular and other CEWE brand products offset the decline in sales of the CEWE PHOTO BOOK
- Trend towards these "brand added-value products" slightly increases photofinishing sales overall
- Strong level in previous year thus confirmed
- Business with a retail partner with margins that are hardly sufficient discontinued
- Smilebooks still contributed to growth in the previous year
- Higher proportion of added-value products slightly improves EBIT to 1.3 m . euros
- Before one-off effects (2016 Q1: +0.4 million-euro Smilebooks USA sales revenue and -0.1 million-euro DeinDesign PPA effects; 2017 Q1: -0.1 million euros in DeinDesign PPA effects) improves EBIT operatively by 0.6 million euros to 1.5 million euros
- The first quarter shows consistent development, thus confirming the strong level of the previous year

# EBIT before Restructuring by Quarter - Photofinishing

## CEWE's Commercial Online-Print activities in Europe

- CEWE operates with webshops in 10 different countries

## Commercial Online-Print Segment in Q1

in Euro millions

- Among other things, 2017 Q1 sees turnover growing by only $0.6 \%$ due to a Brexit-induced drop in demand and currency losses in the UK
- If UK business had been the same as in the previous year, the 2017 Q1 COP would have generated a middle-range single-digit growth rate
- Growth in January and February 2016 seasonally uncharacteristic and exceptionally strong
- Brand conversion in Netherland and Belgium from CEWE PRINT to Saxoprint sees sales in these countries stagnating temporarily
- Q1 EBIT 0.4 million euros below that of previous year: 0.1 million euros (2016 Q1: 0.5 million euros)
- Commercial online printing has to compensate Brexit-induced decline in the UK

## Commercial Online-Print

Turnover (in Euro millions)

- Commercial Online-Print is also expected to grow in sales in 2017 in most markets, an exception could be the British market after the Brexit decision

## Business Segment Other

in Euro millions
Structural and corporate costs and profits arising from real estate property and the acquisition of stocks are shown in the "Other" business segment.

Since August 2015 (date of initial consolidation), futalis has been reported in this business segment since the business activities cannot be allocated to the other business segments.

- The 0.7 m . euro in reported turnover is to be exclusively allocated to futalis (2016 Q1: 0.5 million euros)

- EBIT slightly improved
- EBIT-contribution from segment "Other" slightly improved compared to previous year
