- Furthermore, price pressure inhibits stronger growth in Germany

# CEWE Concludes Agreement to Purchase Wall Art Specialist “WhiteWall”

BEST IN CLASS

- The core business of WhiteWall lies in sophisticated **gallery-quality wall art**
- WhiteWall will remain an **independent brand** with its **own production**
- CEWE expects the acquisition to have a sustained positive effect on the value of the company as a whole
- CEWE will probably take over WhiteWall for a purchase price based on an enterprise value of 30 million euros as at 1 June 2019
- The transaction values the enterprise at around 0.9 times the turnover achieved on 2018 by the part of the enterprise to be taken over
- In 2019 CEWE Board of Management expects the takeover – including the purchase price allocation and the transaction costs – to initially still have a negative impact on the EBIT in the amount of around one million euros
- Completion of the transaction still also depends on approval by the relevant Monopoly and Merger commissions

➤ **CEWE expands in the prime segment for wall art**

# First time adoption of IFRS 16

## Balance sheet was adjusted as of January 01, 2019

The new standard for accounting of leasing agreements (IFRS 16) has been applied in the CEWE Group since January 1, 2019. Under IFRS 16, for lease agreements with a term of more than twelve months lessees are obliged to report assets for the respective right of use and also leasing liabilities. CEWE has exercised the option to exclude low-value assets, intangible assets and short-term leases beginning after December 31, 2018 from the scope of IFRS 16. CEWE applies IFRS 16 for the first time using the simplification available for lessees (“modified retrospective method”), an adjustment of the previous year's figures does not take place.
