FACT SHEET

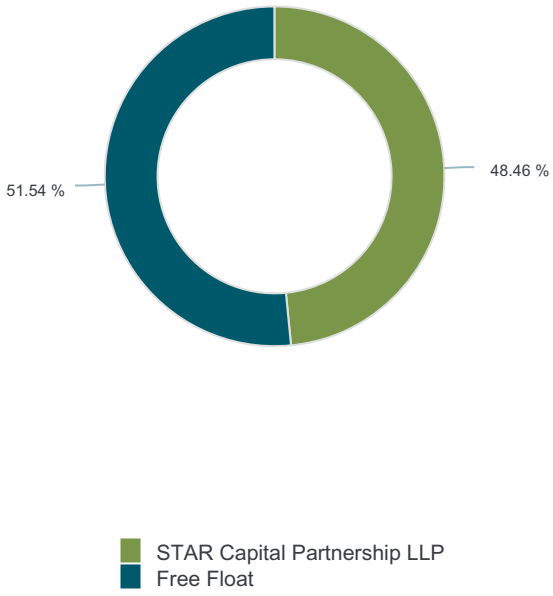

COMPANY PROFILE

VINCORION SE is a leading developer and manufacturer of power and mechatronic solutions for defense platforms and advanced aviation systems. The company is specialized on innovative power systems, including generators, electric motors and drives, gensets, power electronics, and hybrid power systems. As a partner to the defense and aviation industries, VINCORION develops and manufactures solutions tailored to its customers' specific requirements on the basis of an in-depth dialog. A high-performance customer support team provides assistance and service to users of the company's own products and those from third parties throughout the entire product life cycle. With approximately 900 employees at sites in Germany, and the United States, VINCORION generated revenues of approximately €240 million in financial year 2025.
