

A Best-in-Class Industrial Growth Enterprise

August 2022

SAFE HARBOR

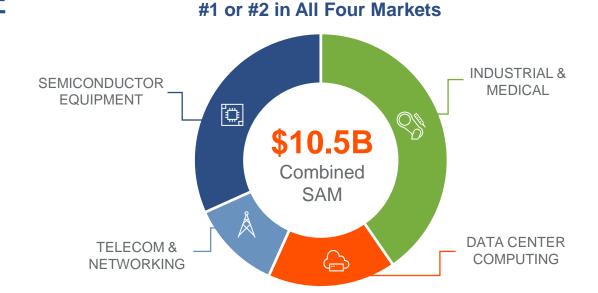

The company's guidance with respect to anticipated financial results, potential future growth and profitability, guidance on possible future results, future business mix, expectations regarding future market trends, future performance within specific markets and other statements herein or made on the above-announced conference call that are not historical information are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are subject to known and unknown risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. These risks are described in Advanced Energy's Form 10-K, Form 10-Q and other reports and statements filed with the Securities and Exchange Commission (SEC), which can be obtained from the SEC's website or from our Investors page at ir.advancedenergy.com. Forward-looking statements are made and based on information available to us as of August 3, 2022. Aspirational goals and targets should not be interpreted in any respect as guidance. We assume no obligation to update the information in this presentation.

ADVANCED ENERGY AT A GLANCE

Headquartered in Denver Colorado,

Advanced Energy (NASDAQ: AEIS) is a global leader in design and manufacture of highly engineered precision power conversion, measurement and control solutions for mission-critical applications and processes

BY THE NUMBERS

11,000 Global Employees

PRECISION POWER LEADER FOR THE DIGITAL ECONOMY

PURE PLAY POWER LEADER

Strategic focus on precision power ensures sustainable advantage and scale

OUTPERFORMING MARKETS

Track record of broadening market reach, growing share and adding content

PROPRIETARY SOLUTIONS

Lead with differentiated, highly-engineered, high value products and technologies

ACCELERATING EARNINGS

Capture long life-cycle revenues and optimize margins to grow EPS >2X faster than revenue

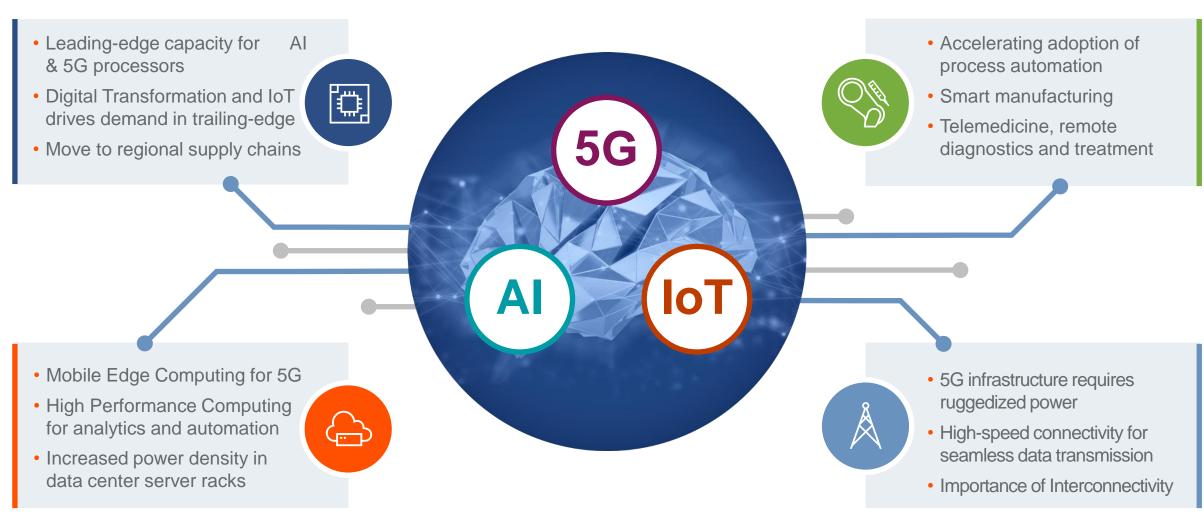

WE ARE THE PURE PLAY POWER LEADER

AE provides precision power conversion and control solutions for a wide range of high value **SEMICONDUCTOR TELECOM & INDUSTRIAL &** and long life-cycle **DATA CENTER EQUIPMENT NETWORKING MEDICAL** COMPUTING applications Grid Power **Process** Custom Server Radio Power Power Power Power **Facility Power**

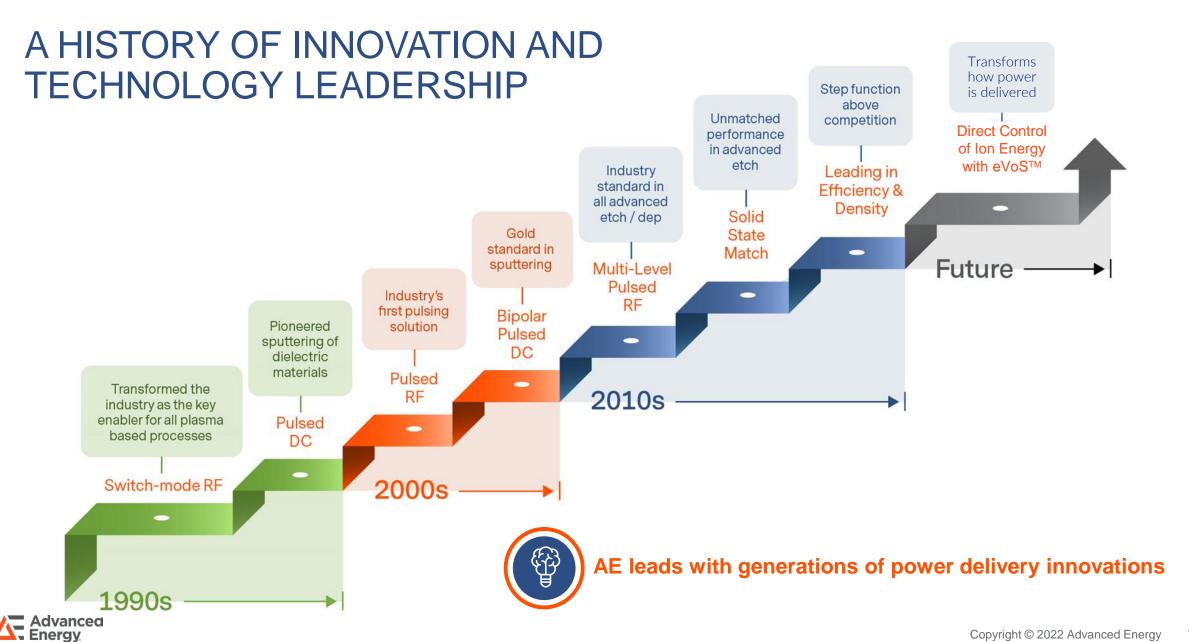

>70% of Revenue Comes from Proprietary Products

DIGITAL ECONOMY DRIVES GROWTH ACROSS OUR 4 VERTICALS

FOCUS ON PROPRIETARY DESIGNS TO ACCELERATE GROWTH

AE TARGETED GROWTH STRATEGIES

GROW SHARE

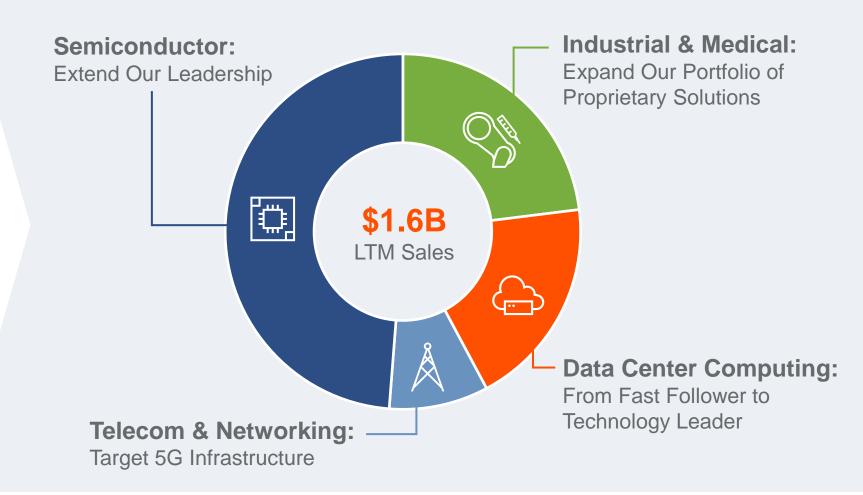

Across Mission-Critical Precision Power Verticals

Invest in **INNOVATION** and Technology Leadership

Leverage Strong Financials and Increased Scale to Capitalize on NEW OPPORTUNITIES

SEMICONDUCTOR: EXTENDING OUR LEADERSHIP

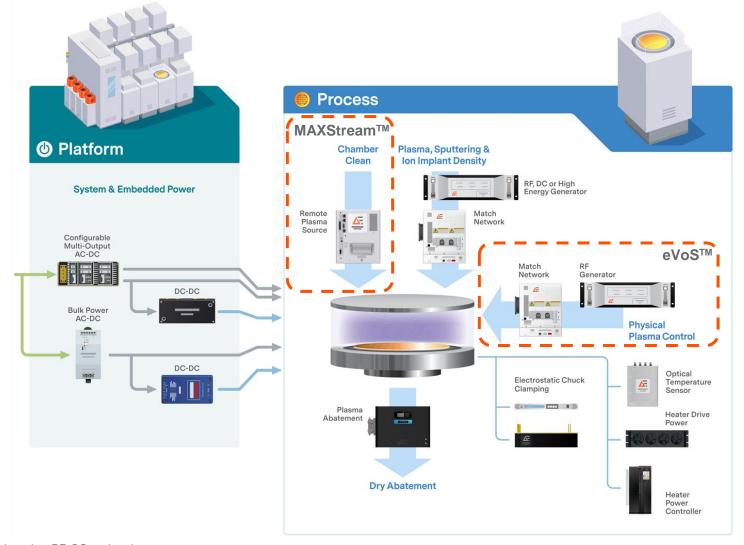

MARKET LEADER WITH PROVEN TRACK RECORD

Market share every year for over 10 years in Process Power and RF Power⁽¹⁾

16% 10-year Semi Product Revenue CAGR⁽²⁾

TARGET TO CONTINUE TO OUTGROW OUR MARKET

>1.2X AE targeted Semi revenue CAGR over WFE CAGR

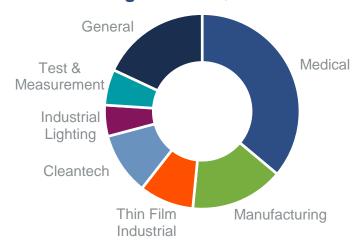

⁽¹⁾ AEIS market share per VLSI Research; Process Power is based on RF+DC market share

INDUSTRIAL & MEDICAL: EXPANDING OUR PORTFOLIO OF PROPRIETARY SOLUTIONS

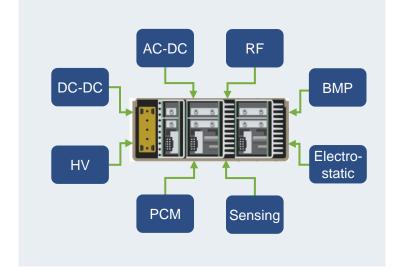

LARGE MARKET WITH WIDE RANGE OF NICHE OPPORTUNITES

Large SAM of \$4.3B

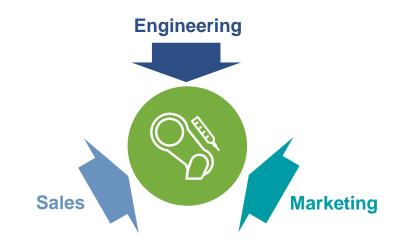

- Large SAM consists of many small and medium high-value opportunities
- Target long-life cycle and proprietary applications to capture sole-source positions

LEVERAGE BROAD PORTFOLIO OF STANDARD PRODUCTS TO DELIVER CUSTOM SOLUTIONS

- Most comprehensive portfolio of standard power products
- Develop modified standard or full custom solutions to solve customers' challenging power delivery problems

ACCELERATING INVESTMENTS TO DRIVE GROWTH

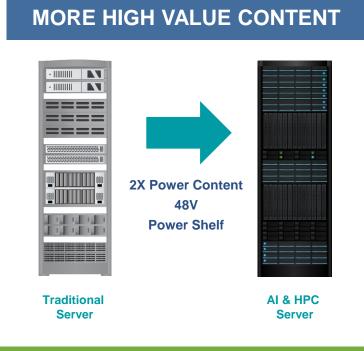

- Allocate more engineering, sales and marketing resources to I&M applications
- Grow design win funnel, accelerate cross selling and drive profitable revenue growth

DATA CENTER COMPUTING: FROM FAST FOLLOWER TO TECHNOLOGY LEADER

(\$ in billions) Hyperscale CAPEX(1) \$140 \$120 \$100 \$80 \$60 \$40 \$20 \$0 2017 2018 2019 2020 2021 2022 2023

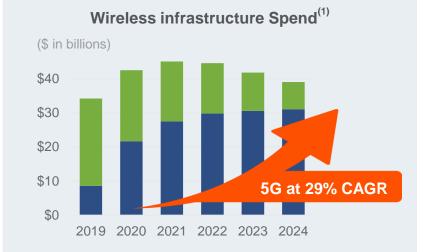

OUR WINNING STRATEGIES

- **Technologies** to address the most difficult power delivery problems
- Win high value applications at Tier-I and Tier-II hyperscale customers
- Capture additional opportunities with 48V transition
- Deliver **best-in-class** quality and performance

TELECOM & NETWORKING: TARGETING 5G INFRASTRUCTURE

5G INFRASTRUCTURE MARKET GROWTH TREND

- Growth returning to wireless infrastructure with
 5G launch
- Increased capacity demand driven by expanding use cases

GROWTH STRATEGY

- Win proprietary designs in 5G radio power for both macro and small cells
- Target high value opportunities in Data Center Networking

WHY WE WIN

- Industry-leading high density, rugged power supplies for outdoor radio
- Deep application knowledge necessary in 5G radio design
- 20+ years of customer intimacy with leading OEMs

Powering many of the largest wireless networks across the world

High reliability ruggedized power supply for the harshest environments

INORGANIC GROWTH: GROWING SCOPE AND LEVERAGING SCALE

Track Record

Deployed >\$700M
Across 11 Acquisitions
All Accretive

Well-Defined Acquisition Criteria

- Precision Power and Controls
- Expand SAM, portfolio & technology
- Synergistic with current organization

Building a Solid Funnel

- · Large and fragmented power market
- Plenty of differentiated high-value targets
- Extend our leadership

Discipline and Value Creation

- Analytical and deliberate
- · Accretive within first year
- Target ROIC > 10%

Q2 2022 RESULTS SURPASSED HIGH END OF GUIDANCE

STRONG DEMAND AND RECORD BACKLOG

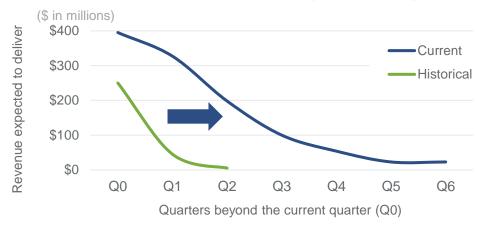

STRENGTH OF THE BACKLOG

- Proprietary products represent approximately 80% of the backlog
- ~2/3 of the backlog has customer request date in the next two quarters
- Channel inventories of AE products well below normalized levels

FROM LIMITED VISIBILITY TO EXTENDED VISIBILITY

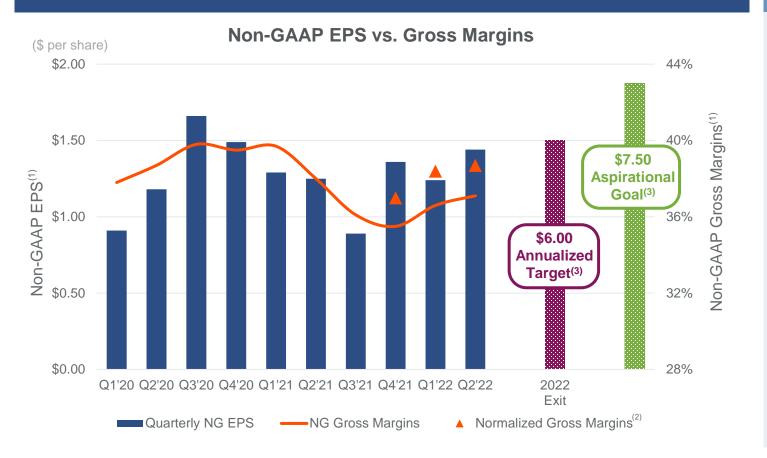

Illustrative Delivery Timing of Backlog⁽¹⁾

REACCELERATING EARNINGS GROWTH ON SUPPLY IMPROVEMENT

EARNINGS AND MARGINS TO ACCELERATE AS SUPPLY IMPROVES

COST & SUPPLY MITIGATION ACTIONS

- Recover a portion of high material premiums from customers, which temporary impacts margins
- Pass along structural inflation in material costs
- · Expand strategic sourcing with key suppliers
- Secure long-term agreements directly with suppliers of critical ICs
- Requalify alternative ICs by partnering with customers
- Redesign boards when necessary

- (1) Detailed explanations of non-GAAP financials and reconciliations of GAAP to non-GAAP financials can be found at the end of this presentation
- 2) Normalized gross margins are estimates excluding the impact of premium recoveries
- (3) These figures represent our aspirational goals and should not be treated as guidance

⁽¹⁾ All figure presented here are non-GAAP financials; detailed explanations of non-GAAP financials and reconciliations of GAAP to non-GAAP financials can be found at the end of this presentation

NON-GAAP MEASURES

Advanced Energy's non-GAAP measures exclude the impact of non-cash related charges such as stock-based compensation and amortization of intangible assets, as well as discontinued operations, and non-recurring items such as acquisition-related costs and restructuring expenses. The non-GAAP measures included in this presentation are not in accordance with, or an alternative for, similar measures calculated under generally accepted accounting principles and may be different from non-GAAP measures used by other companies. In addition, these non-GAAP measures are not based on any comprehensive set of accounting rules or principles. We believe that these non-GAAP measures provide useful information to management and investors to evaluate business performance without the impacts of certain non-cash charges, non-economic foreign currency remeasurements, and other cash charges which are not part of our usual operations. We use these non-GAAP measures to assess performance against business objectives, make business decisions, develop budgets, forecast future periods, assess trends, and evaluate financial impacts of various scenarios. In addition, management's incentive plans include these non-GAAP measures as criteria for achievements. Additionally, we believe that these non-GAAP measures, in combination with its financial results calculated in accordance with GAAP, provide investors with additional perspective. To gain a complete picture of all effects on our financial results from any and all events, management does (and investors should) rely upon the GAAP measures as well, as the items excluded from non-GAAP measures may contribute to not accurately reflecting the underlying performance of the company's continuing operations for the period in which they are incurred. Furthermore, the use of non-GAAP measures has limitations in that such measures do not reflect all of the amounts associated with our results of operations as determined in accordance with GAAP, and these measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP measures.
