Safe Harbor Statement

Statements contained herein or in prior press releases which are not historical fact, such as statements regarding our future operating and financial performance, are forward-looking statements for purposes of the safe harbor provisions under the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that may cause our actual results to be materially different from the future results expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially from those expectations include, but are not limited to, our ability to manage wireless network rationalization to lower our costs without causing disruption of service to our customers; our ability to retain key management personnel and to attract and retain talent within the organization; the productivity of our sales organization and our ability to deliver effective customer support; our ability to identify potential acquisitions, finance, consummate and successfully integrate such acquisitions, and achieve the expected benefits of such acquisitions; economic conditions, such as recessionary economic cycles, the impact of trade disputes, tariffs and other trade protection measures, higher interest rates, inflation and higher levels of unemployment; risks related to our overall business strategy, including maximizing revenue and cash generation from our established businesses and returning capital to stockholders through dividends and repurchases of shares of our common stock; competition for our services and products from new technologies or those offered and/or developed from firms that are substantially larger and have much greater financial and human capital resources; continuing decline in the number of paging units we have in service with customers, commensurate with a continuing decline in our wireless revenue; our ability to address changing market conditions with new or revised software solutions; undetected defects, bugs, or security vulnerabilities in our products; our dependence on the United States healthcare industry; long sales cycle of our software solutions and services; our reliance on third-party vendors to supply us with wireless paging equipment; our ability to maintain successful relationships with our channel partners; our ability to protect our rights in intellectual property that we own and develop and the potential for material litigation claiming intellectual property infringement by us; our use of open source software, third-party software and other intellectual property; our reliance on data centers and other computer systems, hardware, software and satellite networks and telecommunications systems infrastructure (collectively, "IT Systems") and technologies provided by third parties, and technology systems and electronic networks supplied and managed by third parties; cyberattacks, data breaches, system disruptions or other compromises to our or our critical third parties' IT Systems, data, products or services; our ability to realize the benefits associated with our deferred income tax assets; future impairments of our long-lived assets or goodwill; risks related to data privacy and protection-related laws and regulation; and our ability to manage changes related to regulation, including laws and regulations affecting hospitals and the healthcare industry generally, as well as other risks described from time to time in our periodic reports and other filings with the Securities and Exchange Commission. Although Spok believes the expectations reflected in the forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be attained. Spok disclaims any intent or obligation to update any forward-looking statements.

Business Strategy

Overall Strategy

Critical Communications Purpose Built Over Time

1

Grow software revenue and bookings through effective delivery of existing solutions

- Acquiring new customers by further penetrating the hospitals domestically with significant opportunity outside the U.S.
- Continuing to expand relationships within the existing customer base with additional R&D spend in Spok Care Connect to tackle technical debt and development of enhanced features

2

Minimize churn and revenue erosion in wireless products

- Valuable wireless presence in the healthcare market, particularly in larger hospitals
 - Comprehensive suite of wireless messaging products and services focused on healthcare
- Network reliability and customer service minimizes the rate of revenue attrition
- Decreasing wireless cost structure and consolidated operations ensures the lowest cost operational platform for the business
- Development of the GenA pager to increase functionality, drive retention, and increase ARPU.

3

Maximize Free Cash Flow

- Maximize existing revenue sources in both our Software and Wireless businesses
- Eliminated all expenses related to the discontinued Spok Go product
- At current, reduce all costs associated with scaling of the business

Software Strategy

Spok Care Connect...

- With Spok Care Connect, the contact center is the base, with products like Messenger and Spok Mobile® sold as accessories to our contact center solution, which are all on-premise solutions
- The core services such as the directory, on-call scheduling, and message routing are embedded within all the contact center solutions
- Spok has been successful in selling upgrades and multi-year engagements to lock in our Blue Chip customer base for the long haul

...Product Direction

- With the pivot from Spok Go, renewed work on enhancements of the Product suite to drive meaningful value for customers while taking advantage of the valuable franchise built with large hospitals
- Development of a hosted version of Spok Care Connect Suite to better serve the smaller sized hospitals
- Over time, development of more efficient architecture for our Spok Care Connect solutions to drive efficiency across the entire organization, including Product & Development, Professional Services and Customer Support

Wireless Integration

- Wireless is compatible with Spok Care Connect, providing a comprehensive communication strategy for hospitals
- Use smartphone, Wi-Fi phone, or tablet to access the organization's directory and send secure messages to any staff member, including the right on-call clinicians
- Support a wide variety of smartphones, pagers, and other devices for maximum flexibility

Wireless Strategy

Maximize Margins Through Cost Savings

Network Rationalization Plan

The Company has ongoing efforts to manage network capacity and to improve overall network efficiency by consolidating subscribers onto fewer, higher capacity networks with increased transmission speeds

Overhead

Cost management effort focused on rightsizing and headcount reduction

Maximize Margins Through Rate Increases

Nominal Rate Increases

Balance risk of returns, inflation, margin erosion with periodic small rate increases

Release New Products

- To mitigate wireless subscriber erosion and provide uplift to ARPU, the Company launched a new pager (GenA™ Pager)
 - New user interface is intuitive to users with smartphone UI
- Development started mid-2020 of a next generation one-way pager to replace the current T5 and a very modest investment

GenA Pager

Spok continues to maximize Wireless cash flow by pursuing a strategy of simultaneously minimizing churn and revenue erosion while maximizing margins through network cost reduction efforts
