Endnotes

- 1) Per share amounts and weighted average shares outstanding are basic. The basic weighted average shares outstanding for the three months ended June 30, 2023, March 31, 2023, December 31, 2022, September 30, 2022 and June 30, 2022 were approximately 547 million, 534 million, 514 million, 503 million and 494 million, respectively. The basic weighted average shares outstanding for the six months ended June 30, 2023 and June 30, 2022 were approximately 541 million and 487 million, respectively.
- 2) Ares Capital's diluted GAAP net income per share for the three months ended June 30, 2023, March 31, 2023, December 31, 2022, September 30, 2022 and June 30, 2022 was \$0.59, \$0.51, \$0.34, \$0.21 and \$0.22, respectively. The weighted average shares outstanding for the purpose of calculating the diluted GAAP net income per share for the three months ended June 30, 2023, March 31, 2023, December 31, 2022, September 30, 2022 and June 30, 2022 were approximately 567 million shares, 555 million shares, 534 million shares, 523 million shares and 514 million shares, respectively, which includes approximately 20 million shares, 21 million shares, 20 million shares, 20 million shares and 20 million shares, respectively, related to the assumed conversion of outstanding convertible notes. Ares Capital's diluted GAAP net income per share for the six months ended June 30, 2023 and June 30, 2022 was \$1.10 and \$0.65, respectively. The weighted average shares outstanding for the purpose of calculating the diluted GAAP net income per share for the six months ended June 30, 2023 and June 30, 2022 were approximately 561 million shares and 507 million shares, respectively, which includes 20 million shares and 20 million shares, respectively, related to the assumed conversion of outstanding convertible notes.
- 3) Core EPS is a non-GAAP financial measure. Core EPS is the net increase (decrease) in stockholders' equity resulting from operations, and excludes net realized and unrealized gains and losses, any capital gains incentive fees attributable to such net realized and unrealized gains and losses, and any income taxes related to such net realized gains and losses, divided by the basic weighted average shares outstanding for the relevant period. GAAP net income (loss) per share is the most directly comparable GAAP financial measure. Ares Capital believes that Core EPS provides useful information to investors regarding financial performance because it is one method Ares Capital uses to measure its financial condition and results of operations. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of GAAP net income per share, the most directly comparable GAAP financial measure, to Core EPS are set forth on slide 23 hereof.
- 4) Includes investment commitments to IHAM, a wholly-owned portfolio company of Ares Capital, or vehicles managed by IHAM. Q2-23, Q1-23, Q4-22, Q3-22 and Q2-22 include investment commitments to IHAM of \$0, \$283 million, \$283 million, \$342 million and \$570 million, respectively.
- 5) Q2-23, Q1-23, Q4-22, Q3-22 and Q2-22 include sales of loans to IHAM or vehicles managed by IHAM of \$39 million, \$652 million, \$943 million, \$860 million and \$379 million, respectively. Q2-23 and Q1-23 also include investment commitments repaid by IHAM of \$171 million and \$192 million, respectively.
- 6) The weighted average yields on debt and other income producing securities are computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount or premium earned on accruing debt and other income producing securities (including the annualized amount of the dividend received by Ares Capital related to its equity investment in IHAM during the most recent quarter end), divided by (b) total accruing debt and other income producing securities at amortized cost or at fair value (including the amortized cost or fair value of Ares Capital's equity investment in IHAM, as applicable), as applicable.
- 7) The weighted average yields on total investments are computed as (a) annual stated interest rate or yield earned plus the net annual amortization of original issue discount and market discount or premium earned on accruing debt and other income producing securities (including the annualized amount of the dividend received by Ares Capital related to its equity investment in IHAM during the most recent quarter end), divided by (b) total investments at amortized cost or at fair value, as applicable.
- 8) Computed as total principal debt outstanding less available cash divided by stockholders' equity. Available cash excludes restricted cash as well as cash held for uses specifically designated for paying interest and expenses on certain debt.
- 9) Computed as (a) the annual stated interest expense on our debt obligations divided by (b) total debt obligations at principal amount outstanding. Stated interest expense on debt excludes facility and other fees and the amortization of original issue discount or premium, market discounts and debt issuance costs.
- 10) Net interest and dividend margin represents the difference between interest and dividend income (including dividend income from IHAM) and interest and credit facility fees expense for the last twelve month period divided by average total investments at amortized cost during the same period.

Endnotes (cont'd)

- 11) Excludes realized and unrealized gains (losses), incentive fees attributable to net realized and unrealized gains (losses) and income tax expense, including excise taxes. Fixed charges include interest and credit facility fees expense and amortization of debt issuance costs.
- 12) Includes portfolio companies for which there are outstanding commitments, but for which no amounts were funded at the end of the period.
- 13) First lien senior secured loans include certain loans that Ares Capital classifies as "unitranche" loans, which are loans that combine both senior and subordinated debt, generally in a first lien position. As of June 30, 2023, the total amortized cost and fair value of loans that Ares Capital classified as "unitranche" loans were \$4.9 billion and \$4.7 billion, respectively.
- 14) Represents Ares Capital's portion of co-investments with Varagon Capital Partners and its clients in first lien senior secured loans, including certain loans that the Senior Direct Lending Program LLC (the "SDLP") classifies as "unitranche" loans, to U.S. middle-market companies. See Note 4 to Ares Capital's consolidated financial statements included in the quarterly report on Form 10-Q for the quarter ended June 30, 2023 for information regarding the SDLP.
- 15) Includes Ares Capital's subordinated loan and equity investments in IHAM, as applicable. IHAM is an asset management services company and an SEC-registered investment adviser. See Note 4 to Ares Capital's consolidated financial statements included in the quarterly report on Form 10-Q for the quarter ended June 30, 2023 for more information regarding IHAM.
- 16) As of June 30, 2023, excluding Ares Capital's investment in the subordinated certificates of the SDLP, 95% of the floating rate investments at fair value contained interest rate floor features.
- 17) Represents gross commitments or fundings less commitments or investments exited, respectively.
- 18) The portfolio weighted average EBITDA and average EBITDA for the underlying borrowers includes information solely in respect of corporate investments in Ares Capital's portfolio and the weighted average total net leverage multiple and interest coverage ratio data includes information solely in respect of corporate portfolio companies in which Ares Capital has a debt investment (in each case, subject to the exclusions described in the following sentence). Excluded from the data above is information in respect of the following: (i) the SDLP (and the underlying borrowers in the SDLP), (ii) portfolio companies that do not report EBITDA, including IHAM, (iii) portfolio companies with negative or de minimis EBITDA, (iv) investment funds/vehicles, (v) discrete projects in the project finance/power generation sector, (vi) certain oil and gas companies, (vii) venture capital backed companies and (viii) commercial real estate finance companies. The portfolio weighted average EBITDA for the underlying borrowers in the SDLP was \$93.6 million, \$92.2 million, \$93.4 million, \$92.3 million and \$95.8 million as of June 30, 2022, September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023, respectively. The portfolio average EBITDA for the underlying borrowers in the SDLP was \$79.7 million, \$80.1 million, \$82.6 million, \$82.1 million and \$86.1 million as of June 30, 2022, September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023, respectively.
- 19) Weighted average EBITDA amounts are weighted based on the fair value of the portfolio company investments. EBITDA amounts are estimated from the most recent portfolio company financial statements, have not been independently verified by Ares Capital and may reflect a normalized or adjusted amount. Accordingly, Ares Capital makes no representation or warranty in respect of this information.
- 20) EBITDA is a non-GAAP financial measure. For a particular portfolio company, EBITDA is generally defined as net income before net interest expense, income tax expense, depreciation and amortization. EBITDA amounts are estimated from the most recent portfolio company financial statements, have not been independently verified by Ares Capital and may reflect a normalized or adjusted amount. Accordingly, Ares Capital makes no representation or warranty in respect of this information.
- 21) The net leverage multiple represents Ares Capital's last dollar of invested debt capital (net of cash) as a multiple of EBITDA. The portfolio weighted average net leverage multiple is weighted based on the fair value of the portfolio company investments. In addition to the data presented for the entire portfolio, the weighted average net leverage multiple for the underlying borrowers in the SDLP was 5.9x, 5.8x, 5.8x, 6.0x and 5.9x as of June 30, 2022, September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023, respectively, which excludes certain portfolio companies with negative or de minimis EBITDA. Net leverage multiples for the underlying borrowers in the SDLP represent the SDLP's last dollar of invested debt capital (net of cash) as a multiple of EBITDA. The SDLP portfolio weighted average net leverage multiple is weighted based on the fair value of the underlying portfolio company investments. Portfolio company credit statistics for Ares Capital and the SDLP are derived from the most recently available portfolio company financial statements, have not been independently verified by Ares Capital and may reflect a normalized or adjusted amount. Accordingly, Ares Capital makes no representation or warranty in respect of this information.

Endnotes (cont'd)

- 22) The interest coverage ratio represents portfolio companies' LTM EBITDA as a multiple of implied annualized cash interest expense based on the borrowing levels and market rates at quarter end. The portfolio weighted average interest coverage ratio is weighted based on the fair value of the portfolio company investments. In addition to the data presented for the entire portfolio, the weighted average interest coverage ratio for the underlying borrowers in the SDLP was 2.2x, 1.9x, 1.7x, 1.7x and 1.6x as of June 30, 2022, September 30, 2022, December 31, 2022, March 31, 2023 and June 30, 2023, respectively, which excludes certain portfolio companies with negative or de minimis EBITDA. The SDLP portfolio weighted average interest coverage ratio is weighted based on the fair value of the underlying portfolio company investments. Portfolio company credit statistics for Ares Capital and the SDLP are derived from the most recently available portfolio company financial statements, have not been independently verified by Ares Capital and may reflect a normalized or adjusted amount. Accordingly, Ares Capital makes no representation or warranty in respect of this information.
- 23) The EBITDA growth rate for each included portfolio company is calculated as the percentage change for the most recently reported fiscal year to date comparable periods and is weighted based on the fair value of the portfolio company investments to calculate the portfolio weighted average EBITDA growth rate. For a particular portfolio company, EBITDA is generally defined as net income before net interest expense, income tax expense, depreciation and amortization. EBITDA amounts used in the calculation are estimated from the most recent portfolio company financial statements, have not been independently verified by Ares Capital and may reflect a normalized or adjusted amount. Accordingly, Ares Capital makes no representation or warranty in respect of this information.
- 24) Based on our investment adviser's internal investment rating system scale from 1 to 4. Investments with a grade of 4 involve the least amount of risk to our initial cost basis and the trends and risk factors for these investments since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments with a grade of 3 involve a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. Investments with a grade of 2 indicate that the risk to our ability to recoup the initial cost basis of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. Investments with a grade of 1 indicate that the risk to our ability to recoup the initial cost basis of such investment has substantially increased since origination or acquisition and our investment adviser does not anticipate that we will recoup our initial cost basis and we may realize a substantial loss on our initial cost basis upon exit. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3.
- 25) Investment backlog includes transactions approved by our investment adviser's investment committee and/or for which a formal mandate, letter of intent or a signed commitment has been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment has been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, Ares Capital may sell all or a portion of these investments and certain of these investments may result in the repayment of existing investments. Ares Capital cannot assure you that we will make any of these investments or that we will sell all or any portion of these investments.
- 26) Requires periodic payments of interest and may require repayments of a portion of the outstanding principal once their respective reinvestment periods end but prior to the applicable stated maturity.
- 27) Subject to borrowing base and other restrictions. Represents total aggregate amount committed or outstanding, as applicable, under such instrument.
- 28) Represents the aggregate principal amount of the notes outstanding adjusted for the unaccreted discount or premium initially recorded at the time of issuance.
- 29) Effective stated rate as of June 30, 2023.

Endnotes (cont'd)

- 30) See Note 5 to Ares Capital's consolidated financial statements included in the quarterly report on Form 10-Q for the quarter ended June 30, 2023 for more information regarding each of Ares Capital's secured revolving facilities.
- 31) Declared. The third quarter 2023 regular dividend of \$0.48 per share to be paid on September 29, 2023 to stockholders of record on September 15, 2023.
- 32) The amount of excess 2022 U.S. federal taxable income available for carry over into 2023 is only an estimate based on estimated 2022 U.S. federal taxable income. The calculation of estimated 2022 U.S. federal taxable income includes a number of estimated inputs, including information received from third parties, and as a result, actual 2022 U.S. federal taxable income will not be finally determined until Ares Capital's 2022 tax return is filed in 2023. Consequently, both 2022 U.S. federal taxable income and the amount of excess U.S. federal taxable income available for carry over into 2023 are subject to change. See Note 11 to Ares Capital's consolidated financial statements included in the annual report on Form 10-K for the year ended December 31, 2022 for more information.
- 33) The estimated taxable income per share carried forward from 2022 for distribution to stockholders in 2023 is based on the approximately 545 million shares outstanding as of March 15, 2023.
