Is the FY25 guidance already conservative?

Unsurprisingly, The Platform Group posted a very strong first quarter with revenue of 160.8 million, up 49% (PZP 157 million), on GMV of 356.3 million, up 87%, and adjusted EBITDA of 15.9 million, up 87%, representing a margin of 9.9%, up 200 basis points (PZP 13.8 million, or 8.8%).

Continued strong top line momentum

Growth momentum continues to be driven by very strong acquisition activity – 59% organic and 41% M&A – of new partners (15,348, up 28%) and active customers (5.7 million, up 30%). TPG therefore continues to be largely unaffected by macroeconomic and market considerations and posted GMV of €356.3 million, up 87%. The latest FY25 guidance of €1.3 billion GMV and €680-700 million revenue is therefore confirmed. We are not changing our scenarios for the time being, which include the impact of the four acquisitions announced to date (the latest, Joli Closet, is expected to be finalised in June 2025).

It is important to note that management expects to complete at least four other transactions by the end of the financial year, which would have a direct impact on the top line.

Strong improvement in margins

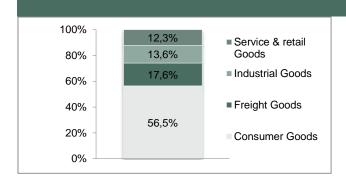

TPG posted adjusted EBITDA of €15.9 million, up 9.9% (+200bp) (and reported EBITDA of €19.6 million), a significant increase thanks to the significant impact of optimising the operational performance of the acquired companies through 1/ the full integration of central functions such as HR and Finance, 2/ significant synergies in key operational functions such as marketing and BI, and 3/ rapid onboarding of new partners in order to accelerate growth and fully benefit from favourable operational leverage. TPG also recently announced that it would centralise its order fulfilment operations by launching an integrated and centralised solution operated from a 12,000 m² logistics centre in Gladbeck. This development is in line with the group's full-service approach and also allows for the pooling of logistics efforts currently carried out individually by each subsidiary, at a time when logistics costs remain the biggest detractor from TPG's operational performance (although stabilisation seems to be starting to materialise). Management anticipates a gain of €1-1.5 million from FY26.

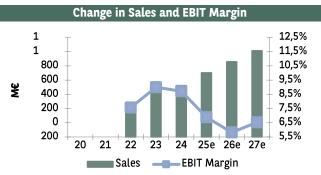

Management is therefore reiterating its latest adjusted EBITDA guidance of €47-50 million, although this now appears somewhat conservative given that profitability ratios should logically continue to improve sequentially.

Operating cash flow generation remains very strong at €18.2 million, up 94%. It covers CapEx and (almost entirely) self-finances M&A transactions in the first quarter: cash position of €21.3 million at 31 March 2025 vs. €22.1 million at 31 December 2024.

We are maintaining our scenarios unchanged for the time being and reiterating our Strong Buy (1) recommendation on the stock, with a target price of €18.
