Discussion of Forward-Looking Statements by BGC Partners

Statements in this document regarding BGC Partners' business that are not historical facts are "forward-looking statements" that involve risks and uncertainties. Except as required by law, BGC undertakes no obligation to release any revisions to any forward-looking statements. For a discussion of additional risks and uncertainties, which could cause actual results to differ from those contained in the forward-looking statements, see BGC's Securities and Exchange Commission filings, including, but not limited to, the risk factors set forth in our public filings, including our most recent Form 10-K and any updates to such risk factors contained in subsequent Form 10-Q or Form 8-K filings.

Note Regarding Financial Tables and Metrics

Excel files with the Company's quarterly financial results and metrics from full year 2008 through 2Q2013 are accessible in the various financial results press releases at the "Investor Relations" section of http://www.bgcpartners.com. They are also available directly at inbgcpartners.com/news-releases/news-releases.

Distributable Earnings

This presentation should be read in conjunction with BGC's most recent financial results press release. Unless otherwise stated, throughout this presentation we refer to our results only on a distributable earnings basis. For a complete description of this term and how, when and why management uses it, see the final page of this presentation. For both this description and a reconciliation to GAAP, see the sections of BGC's most recent financial results press release entitled "Distributable Earnings Defined," "Distributable Earnings Results Compared with GAAP Results", "Reconciliation of GAAP Income to Adjusted EBITDA", and "Reconciliation of GAAP Income to Distributable Earnings", which are incorporated by reference, and available in the "Investor Relations" section of our website at http://www.bgcpartners.com.

Adjusted EBITDA

See the sections of BGC's most recent financial results press release release titled "Adjusted EBITDA Defined" and "Reconciliation of GAAP Income to Adjusted EBITDA (and Comparison to Pre-Tax Distributable Earnings)"

ESPEED TRANSACTION DETAILS

- On June 28, 2013 BGC completed the sale of its fully electronic trading platform for U.S. Treasury Notes and Bonds ("eSpeed") to the NASDAQ OMX Group, Inc. This platform generated \$99 MM in revenues for BGC in 2012, less than 6% of overall BGC revenues.
- The purchase price includes \$750 MM in cash, plus approximately 14.9 MM shares of NASDAQ OMX common stock to be paid ratably over 15 years following the closing, provided that NASDAQ OMX as a whole produces \$25 MM in gross revenues each year. Because of the low earn-out we expect to receive the entire share earn out, which as of the 7/31/2013 close = \$482 MM.
- BGC will retain its other voice, hybrid, and fully electronic trading, market data, and software businesses, including voice, hybrid and electronic brokerage of off-the-run U.S. Treasuries, as well as Treasury Bills, Treasury Swaps, Treasury Repos, Treasury Spreads, and Treasury Rolls.
- The remaining technology-based businesses in BGC's Financial Services segment had a 27% CAGR for the three year period ending December 31, 2012, grew 11% YoY in 1Q 2013 to \$22.7MM, and grew 12% YoY in 2Q 2013 to \$21.9MM.

SELECT 2Q2013 RESULTS COMPARED TO 2Q2012

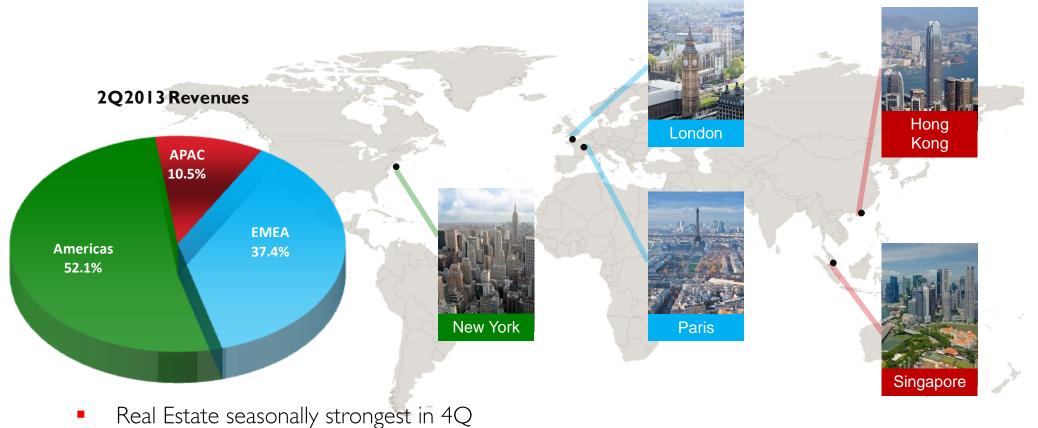

Highlights of Consolidated Results (\$ millions, except per share data)	<u>2Q2013</u>	<u> 2Q2012</u>	<u>Change</u> (%)
Revenues for distributable earnings	\$471.1	\$465.I	1.3
Pre-tax distributable earnings before non-controlling interest in subsidiaries and taxes	53.8	55.9	(3.7)
Pre-tax distributable earnings per share	0.16	0.20	(20.0)
Post-tax distributable earnings	44.9	46.5	(3.4)
Post-tax distributable earnings per share	0.13	0.17	(23.5)
Adjusted EBITDA	719.8	72.7	890.3
Effective tax rate	14.5%	14.5%	
Pre-tax earnings margin	11.4%	12.0%	
Post-tax earnings margin	9.5%	10.0%	

 BGC Partners' Board of Directors declared a quarterly cash dividend of \$0.12 per share payable on September 6, 2013 to Class A and Class B common stockholders of record as of August 23, 2013

BUSINESS OVERVIEW: RATES

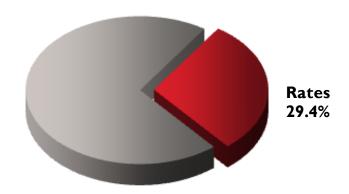

Example of Products

- Interest Rate Derivatives
- US Treasuries
- Global Government Bonds
- Agencies
- Interest Rate Futures
- Dollar Derivatives
- Repurchase Agreements
- Non-Deliverable Swaps
- Interest rate Swaps & Options

Drivers

- Global sovereign and corporate debt issuance cause long-term tailwinds in our Rates business
- Near-term headwinds due to quantitative easing
- Low interest rates in most major economies holding down volumes
- Interest rate volatility increased from recent lows in 2Q 2013 due to uncertainty over the timing of a reduction in quantitative easing

% of 2Q2013 Total Distributable Earnings Revenue

Real Estate Services Revenue

NGKF REVENUE ANALYSIS

On April 13, 2012, BGC purchased certain assets of Grubb & Ellis. Because of this, NGKF collected \$21.7 million during full year 2012 not related to the Company's ongoing Real Estate Services business, of which \$12.0 million was recognized as distributable earnings revenue in the second quarter of 2012. These revenues were primarily associated with the collection of receivables related to deals initiated by Grubb & Ellis brokers who left that company prior to the acquisition. As a result, NGKF's distributable earnings revenues were higher than they otherwise would have been in the second quarter of 2012. Excluding this \$12.0 million, Real Estate Services generated solid growth in the second quarter of 2013. The overall industry trends in commercial real estate remain positive, and NGKF continues to execute its plan for long-term growth. BGC therefore expects this segment's core business to continue to have solid improvement for the remainder of 2013.

BGC'S FRONT OFFICE OVERVIEW

Front Office Headcount

- For 2Q2013 Financial Services average revenue per front office employee was \$201k up 13.3% YoY, while Real Estate Services front office average revenue per front office employee was \$115k up 0.6% YoY
- Mixed overall industry volume trends across Financial Services
- Commercial Real Estate brokers generally have lower revenue per broker than IDBs

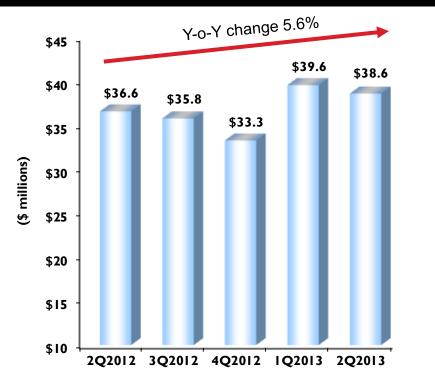

Note: Financial Services calculation includes revenues from "total brokerage revenues," "market data," "software solutions," and the portion of "fees from related parties" related to fully electronic trading. Real Estate figures exclude appraisers. The average revenues are approximate and based on the total revenues divided by the weighted-average number of salespeople and brokers for the quarter. These figures exclude the revenues related to the non-core Grubb & Ellis purchased assets. Including them, revenue per broker/salesperson declined by 9.8% for NGKF and increased by 5.2% for BGC overall.

Fully Electronic Revenues (in millions)*

- Excluding the assets being sold to NASDAQ OMX, BGC's technology based revenues would have been up by 12.2% YoY to \$21.9MM. Over time, higher fully electronic revenues have improved margins.
- Percent of technology based revenue** (excluding eSpeed) in the Financial Services segment was 6.9% vs 6.3% in 2Q2012
- Percent of technology based revenue** in the Financial Services segment was 14.2% vs 13.9% in 2Q2012

^{*} This includes fees captured in both the "total brokerage revenues" and " fees from related party" line items related to fully electronic trading within the Financial Services Segment.

^{**}Technology based revenues includes the previous as well as Market Data and Software.

BGC'S TECHNOLOGY-BASED BUSINESSES HAVE HIGHER MARGINS

- → Percentage of fully electronic from each of ≈110 e-brokered desks range from <10% to 100%</p>
- → Profit margins = highest for US Treasuries, spot FX, Market Data and Software Solutions
- Profit margins for retained electronic products vary, though are generally higher than for voicebrokered products
- → Over time, we believe margins for newer e-brokered products should expand as their markets mature

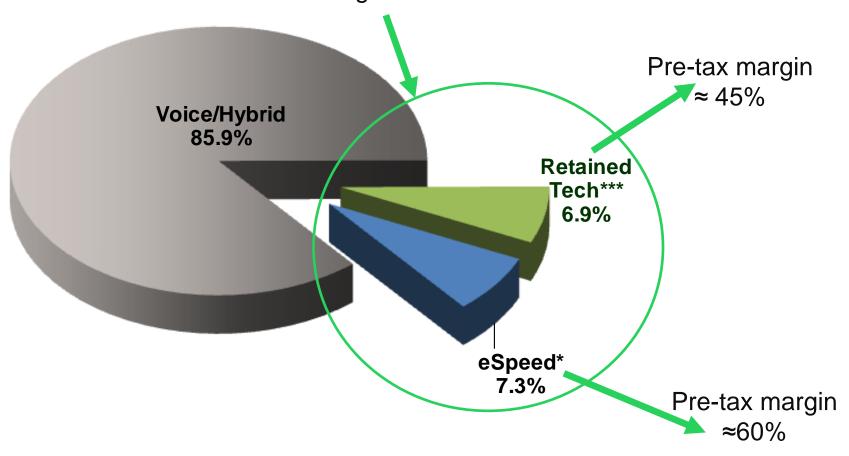

*BGC sold only its on-the-run, benchmark 2-, 3-, 5-, 7-, 10-, and 30-year fully electronic trading platform for U.S. Treasury Notes and Bonds. For the purposes of this analysis, the assets being sold to NASDAQ OMX are referred to as "eSpeed."

BGC WILL RETAIN NEARLY HALF OF TECHNOLOGY-BASED REVENUES

Technology-Based Products** = 14.2% of 2Q2013 Financial Services Segment Revenues

^{*}BGC sold its on-the-run, benchmark, 2-, 3-, 5-, 7-, 10-, and 30-year fully electronic trading platform for U.S. Treasury Notes and Bonds. For the purposes of this analysis, the assets sold to NASDAQ OMX are referred to as "eSpeed." See our 7/1/2013 8-K for more details.

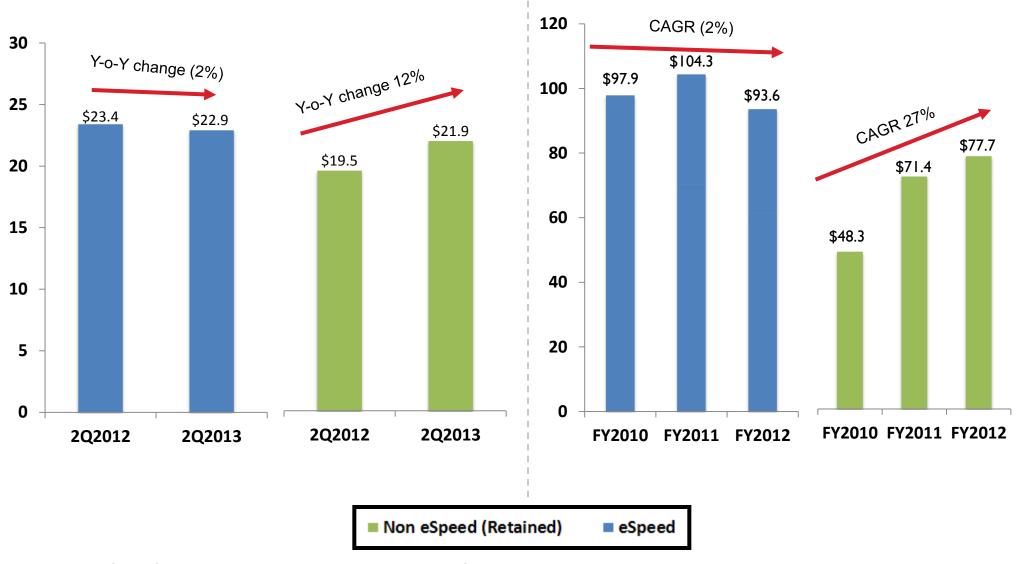

Note: These figures are those recorded in the Financial Services segment and exclude those revenues and expenses included in corporate items.

^{**}Technology-Based Products = fully electronic brokerage, fees from related parties related to fully electronic trading, market data, and software solutions.

*** Retained Tech = businesses remaining with BGC post-eSpeed transaction.

RETAINED TECH-BASED PRODUCTS HAVE GROWN FASTER

Note: These eSpeed figures are only those recorded in the Financial Services segment and exclude those included in corporate items

DISTRIBUTABLE EARNINGS

BGC Partners uses non-GAAP financial measures including "revenues for distributable earnings," "pre-tax distributable earnings" and "post-tax distributable earnings," which are supplemental measures of operating performance that are used by management to evaluate the financial performance of the Company and its subsidiaries. BGC Partners believes that distributable earnings best reflect the operating earnings generated by the Company on a consolidated basis and are the earnings which management considers available for distribution to BGC Partners, Inc. and its common stockholders, as well as to holders of BGC Holdings partnership units during any period. As compared with "income (loss) from operations before income taxes," net income (loss) for fully diluted earnings (loss) per share," all prepared in accordance with GAAP, distributable earnings calculations primarily exclude certain non-cash compensation and other expenses which generally do not involve the receipt or outlay of cash by the Company, which do not dilute existing stockholders, and which do not have economic consequences, as described below. In addition, distributable earnings calculations exclude certain gains and charges that management believes do not best reflect the ordinary operating results of BGC Revenues for distributable earnings are defined as GAAP revenues excluding the impact of BGC Partners, Inc.'s non-cash earnings or losses related to its equity investments, such as in Aqua Securities, L.P. and ELX Futures, L.P., and its holding company general partner, ELX Futures Holdings LLC. Revenues for distributable earnings include the collection of receivables which would have been recognized for GAAP other than for the effect of acquisition accounting. Revenues for distributable earnings are defined as GAAP income (loss) from operations before income taxes excluding items that are primarily non-cash, non-dilutive, and non-economic, such as:

Non-cash stock-based equity compensation charges for REUs granted or issued prior to the merger of BGC Partners, Inc. with and into eSpeed, as well as post-merger non-cash, non-dilutive equity-based compensation related to partnership unit exchange or conversion.

Allocations of net income to founding/working partner and other limited partnership units, including REUs, RPUs, PSUs, LPUs, and PSIs.

Non-cash asset impairment charges, if any.

Distributable earnings calculations also exclude charges related to purchases, cancellations or redemptions of partnership interests and certain unusual, one-time or non-recurring items, if any. "Compensation and employee benefits" expense for distributable earnings will also include broker commission payouts relating to the aforementioned collection of receivables. [BGC's definition of distributable earnings also excludes certain gains and charges with respect to acquisitions, dispositions, and resolutions of litigation. This exclusion pertains to the one-time gain related to the NASDAQ OMX transaction. Management believes that excluding these gains and charges best reflects the operating performance of BGC. However, because NASDAQ OMX is expected to pay BGC in an equal amount of stock on a regular basis for 15 years as part of the transaction, the payments associated with BGC's receipt of such stock will be included in the Company's calculation of distributable earnings calculation of distributable earnings are calculated on a pre-tax basis, management intends to also report "post-tax distributable earnings" and "post-tax distributable earnings per fully diluted share":

"Post-tax distributable earnings" are defined as pre-tax distributable earnings adjusted to assume that all pre-tax distributable earnings were taxed at the same effective rate.

"Post-tax distributable earnings per fully diluted share" are defined as post-tax distributable earnings divided by the weighted-average number of fully diluted shares for the period.

BGC's distributable earnings per share calculations assume either that:

The fully diluted share count includes the shares related to the dilutive instruments, such as the Convertible Senior Notes, but excludes the associated interest expense, net of tax, when the impact would be dilutive; or

The fully diluted share count excludes the shares related to these instruments, but includes the associated interest expense, net of tax.

Each quarter, the dividend to common stockholders is expected to be determined by the Company's Board of Directors with reference to post-tax distributable earnings per fully diluted share. In addition to the Company's quarterly dividend to common stockholders, BGC Partners expects to pay a pro-rata distribution of net income to BGC Holdings founding/working partner and other limited partnership units, including REUs, RPUs, PSUs and PSIs, and to Cantor for its non-controlling interest. The amount of all of these payments is expected to be determined using the above definition of pre-tax distributable earnings per share. Certain employees who are holders of RSUs are granted pro-rata payments equivalent to the amount of dividends paid to common stockholders. Under GAAP, a portion of the dividend equivalents on RSUs is required to be taken as a compensation charge in the period paid. However, to the extent that they represent cash payments made from the prior period's distributable earnings, they do not dilute existing stockholders and are therefore excluded from the calculation of distributable earnings. Distributable earnings is not meant to be an exact measure of cash generated by operations and available for distribution, nor should it be considered in isolation or as an alternative to cash flow from operations or GAAP net income (loss). The Company views distributable earnings as a metric that is not necessarily indicative of liquidity or the cash available to fund its operations. Pre- and post-tax distributable earnings are not intended to replace the Company's presentation of GAAP financial results. However, management believes that they help provide investors with a clearer understanding of BGC Partners' financial performance and offer useful information to both management and investors regarding certain financial and business trends related to the Company's financial condition and results of operations. Management believes that distributable earnings and the GAAP measures of financial performance should b
