A large billboard stands in a vast, open field under a blue sky with scattered white clouds. The billboard is white with a thin black border and is supported by three wooden posts. The text on the billboard is centered and reads "STRÖER" in a large, bold, black sans-serif font, with "out of home media" in a smaller, orange sans-serif font directly below it. The field is filled with dry, yellowish-brown grass and some green shrubs. A fence line is visible in the distance.

- Targeted leverage ratio remains in comfort zone of 2.0 - 2.5 x
- “Club deal” syndicate consists of ten major national and international banks

- Organic rev. down (H1 -4.9%, Q2 -6.5%) due to challenging environment & single customer effect
- Increased revenues from ~1.200 OCs running at mid-single-digit million € amount in H1
- >1,500 additional BB units in marketing under new Istanbul contract & PBB installation started

Ströer Germany: Revenues down due to reduced national campaigning & single customer effect

€ MM

- Underlying H1 organic revenue growth excluding temporarily inactive Telco account just -0.8%
- H1 revenue from ~1.200 Out-of-Home Channels at mid-single-digit million € amount
- Op. EBITDA margin impacted by lower share of high margin products (fewer national campaigns)

*Cash paid for investments in PPE and intangible assets

Ströer Turkey: Istanbul ramp-up leads to temporary decline in profitability

€ MM

- H1 organic rev. growth w/o effect from terminated low margin sales contract in Q4 11 runs at +0,6%
- Margins affected by incremental Istanbul BB fixed rents and underlying rent inflation adjustments
- Capex increase reflects capacity uplift program in Istanbul (>2000 incremental BB/PBB units)

* Cash paid for investments in PPE and intangible assets

Ströer Rest of Europe*: Unfavourable ad activity affecting both Poland and Giant Posters

€ MM

- blowUP top- and bottom line down on grounds of fewer international cross-country campaigns
- Cost improvement measures leading to margin uplift in Poland
- Adverse impact from Euro championship in PL

* blowUP Media Group and Ströer Poland

** Cash paid for investments in PPE and intangible assets

Strategic response to current environment

-  Cost savings program initiated in Q2 with mid-single-digit million Euro effect in 2012 to achieve flat overheads yoy
-  Expected improvements in product mix leading to a better drop-through ratio in H2 compared to H1
-  New business initiative for H2 with focus on national accounts and digital operations
-  Extending regional sales coverage through development of new distribution channels
-  Increased utilization of Istanbul BB concession by reaping benefits from installation of 500 incremental PBB
-  Capex spending 2012 reduced from initially € 50-60m to around € 45m without sacrificing growth initiatives

Currently, we are not forecasting any macro or media market improvement in the third quarter of this year. Out-of-home advertising markets will continue to be affected by the uncertainty on the financial markets and temporary shifts in advertising budgets due to the Olympics. As a result, we expect the Group organic revenue growth rate in Q3 to be similar to that in the second quarter of this year.
