## Flushing Financial Corporation Reports 4Q21 GAAP EPS of \$0.58 and Core EPS of \$0.67 <br> Record GAAP and Core EPS for 2021

UNIONDALE, N.Y., January 27, 2022 (GLOBE NEWSWIRE) - The Company reported fourth quarter 2021 GAAP EPS of $\$ 0.58$, up $427 \%$ YoY, ROAA of $0.89 \%$, and ROAE of $10.77 \%$. For the fourth quarter, Core EPS of $\$ 0.67$ increased, $16 \%$ YoY with ROAA of $1.04 \%$ and ROAE of $12.49 \%$. Record GAAP and Core EPS for 2021 of $\$ 2.59$ and $\$ 2.81$, respectively.
"2021 was a record year for earnings but it was also a challenging year for employees dealing with the pandemic and a new working environment. Our people continued to tirelessly navigate these challenges, as they supported and served customers, and masterfully executed our strategic objectives. Our employees are our competitive advantage. As a reward for our record year of earnings and employee performance through the pandemic, the Company recorded a one-time increase in compensation and benefits of $\$ 4.3$ million for all employees. We are looking forward to an exciting year in 2022."

John R. Buran, President and CEO
Slight NIM Compression QoQ; Loan Growth Returns. Net interest income of $\$ 62.7$ million increased $12.5 \%$ YoY, but declined $1.1 \%$ QoQ. NIM expanded 21 bps to $3.29 \%$ YoY, but declined 5 bps from 3Q21. Core NIM increased by 18 bps to $3.21 \%$ YoY and compressed 6 bps QoQ. The decline in the NIM QoQ was primarily due to an unfavorable shift in balance sheet mix with high levels of interest-earning deposits and federal funds sold, which was fully deployed by the end of the year. Loans, excluding SBA Paycheck Protection Program ("PPP"), increased $3.7 \%$ annualized in 4Q21 and loan closings were up $49 \%$ QoQ. Our loan pipeline, which grew $21 \%$ YoY, declined $19 \%$ QoQ from the record 3Q21 level of $\$ 530.7$ million. With the yield curve steepening and the Federal Reserve expected to increase short-term rates, we expect refinance volumes will slow in 2022. Additionally, we continue to benefit from the merger disruption in our markets as we have hired 24 people (including 9 revenue producers) in 2021 from institutions involved with mergers. We are looking forward to additional expansion opportunities in 2022.
Returned 56\% of Earnings in 4Q21; Capital Ratios Increase. The Company repurchased 150,976 shares of common stock at an average price of $\$ 23.75$. Cash returned to shareholders through dividends and share repurchases was $56 \%$ of earnings in 4Q21. TCE/TA ${ }^{1}$ improved to $8.22 \%$ in 4Q21 from $8.04 \%$ in 3Q21 and $7.52 \%$ in 4Q20. Our capital priorities remain unchanged: 1) profitably grow the balance sheet, 2) return dividends to shareholders, and 3) opportunistically repurchase shares.

${ }^{(1)}$ Ratios are presented on an annualized basis, where appropriate.
${ }^{(2)}$ Yields are calculated on the tax equivalent basis using the statutory federal income tax rate of $21 \%$ for the periods presented.
${ }^{(3)}$ Efficiency ratio, a non-GAAP measure, was calculated by dividing non-interest expense (excluding merger expense, OREO expense, prepayment penalty on borrowings, the net gain/loss from the sale of OREO and net amortization of purchase accounting adjustments) by the total of net interest income (excluding net gains and losses from fair value adjustments on qualifying hedges and net amortization of purchase accounting adjustments) and non-interest income (excluding life insurance proceeds, net gains and losses from the sale or disposition of securities, assets and fair value adjustments).
${ }^{(4)}$ Calculated by dividing stockholders' equity by shares outstanding.
${ }^{(5)}$ Calculated by dividing tangible stockholders' common equity, a non-GAAP measure, by shares outstanding. Tangible stockholders' common equity is stockholders' equity less intangible assets (goodwill, net of deferred taxes). See "Calculation of Tangible Stockholders' Common Equity to Tangible Assets".
${ }^{(6)}$ See "Calculation of Tangible Stockholders' Common Equity to Tangible Assets".
${ }^{(7)}$ Excludes performing non-accrual TDR loans.

## FLUSHING FINANCIAL CORPORATION and SUBSIDIARIES RECONCILIATION OF GAAP EARNINGS and CORE EARNINGS

## Non-cash Fair Value Adjustments to GAAP Earnings

The variance in GAAP and core earnings is partly driven by the impact of non-cash net gains and losses from fair value adjustments. These fair value adjustments relate primarily to swaps designated to protect against rising rates and borrowing carried at fair value under the fair value option. As the swaps get closer to maturity, the volatility in fair value adjustments will dissipate. In a declining interest rate environment, the movement in the curve exaggerates our mark-to-market loss position. In a rising interest rate environment or a steepening of the yield curve, the loss position would experience an improvement.

Core Net Income, Core Diluted EPS, Core ROAE, Core ROAA, Pre-provision Pre-tax Net Revenue, Core Net Interest Income FTE, Core Net Interest Margin FTE, Base Net Interest Income FTE, Base Net Interest Margin FTE, Core Interest Income and Yield on Total Loans, Base Interest Income and Yield on Total Loans, Core Non-interest Income, Core Non-interest Expense and Tangible Book Value per common share are each non-GAAP measures used in this release. A reconciliation to the most directly comparable GAAP financial measures appears below in tabular form. The Company believes that these measures are useful for both investors and management to understand the effects of certain interest and non-interest items and provide an alternative view of the Company's performance over time and in comparison to the Company's competitors. These measures should not be viewed as a substitute for net income. The Company believes that tangible book value per common share is useful for both investors and management as these are measures commonly used by financial institutions, regulators and investors to measure the capital adequacy of financial institutions. The Company believes these measures facilitate comparison of the quality and composition of the Company's capital over time and in comparison to its competitors. These measures should not be viewed as a substitute for total shareholders' equity.

These non-GAAP measures have inherent limitations, are not required to be uniformly applied and are not audited. They should not be considered in isolation or as a substitute for analysis of results reported under GAAP. These non-GAAP measures may not be comparable to similarly titled measures reported by other companies.
